For details of arrangements refer Rear NGF O 2475 (memo) to Adv NGF.  
Briefly the answers to your requests are:--

1. Availability:-- Direct air support aircraft will be available on call through Air Support Control links.
2. Estimated that A/C can be over target 60 mins from time of receipt of request at Rear NGF.
3. The provision of continuous air patrols over the GONA area to provide direct air support on display of ground signal or radio call is beyond the resources of 5 AF.

In order to get maximum effect on a target the following info in a request is required:--

- (a) Type of target i.e. MG post; enemy tps dug in; enemy tps not dug in; enemy in open; barges or canoes.
- (b) Map ref of target (Name map or photograph used)
- (c) Time limit of air attack if any.
- (d) Definite bomblines.
- (e) Type of indicator to be used i.e. rocket mortar signal bomb, smoke on target, strips, or a combination with R/T.

In regard to the distance bars of strips AF advise 100 x units are too small and each bar representing 500 x has been selected as the unit. Also the pilots expect to see the bars at the open end of the

 so || ▷ • Ensure that bars are at least 4' away from end of

Owing to small flow of water in GONA creek  
no washing of clothes or bathing will be  
done in creek. For washing purposes kerosene  
will be filled with water & carried some  
distance from stream so that dirty  
water will NOT foul stream. Where available  
troops will use water sterilization tablets.

RESULT OF TAC/R 1000 - 1100 hrs 6 DEC 42.

1. SANANANDA POINT. 25 barges sighted. All appear US. 10 are partly submerged and remainder appear damaged by shell fire or strafing.
2. Two ship's boats apparently in good condition pulled up partly on to beach at 167286. Boats have cross seats, are double ended and there is no evidence of engines, oars or sweeps. Boats are quite different to other barges sighted and are only about half the size.
3. One barge - same type as at SANANANDA at each of the following two ~~xxxxx~~ points 139302 - 146297. Both these barges appear in good condition and are half drawn up on the beach.
4. AMBOGA RIVER. No movement seen, no defensive works visible and no huts seen.
5. Four small dugouts which appear like MG posts and of a similar type to those in the GONA area were sighted at 210290.
6. 20 small type parachutes similar to those used for supplies were seen in square 1528. Some of these appear old and dirty and others quite new.
