following is rpted 1 Aust Corps 0936. personal for general allen from  
 general rowell. I would like to congratulate you and all concerned at  
 your HQ and in subordinate formations for the very fine effort in  
 successfully initiating a most difficult movement problem. I have no  
 doubt that the bigger problems we will be faced with in the future  
 will be met with the same determination and success

1800 hrs From Lt-Col CUMMINGS to BM

After the bombing and strafing this morning we put the arty and mortars on and pushed through immediately after. The coys going through found isolated parties some of whom they managed to shoot up and the coys penetrated East to between 800 and 1000 yds with no further opposition. In the area the coy counted approximately 70 fresh dead. It could have been a lot more. Owing to the instn received from the Bde Comd this morning that he was to hold this base strongly at all costs as a base.

Col CUMMINGS is pretty sure he has got the main base. There should be dumps  $\frac{1}{2}$  to  $\frac{3}{4}$  mile to the N.W. ~~Main base is in the main base~~ ~~between main base and main base~~ The fwd part of the main base goes inland between half a mile and one mile..

Could have taken up coys about 900 yds.

*PC*

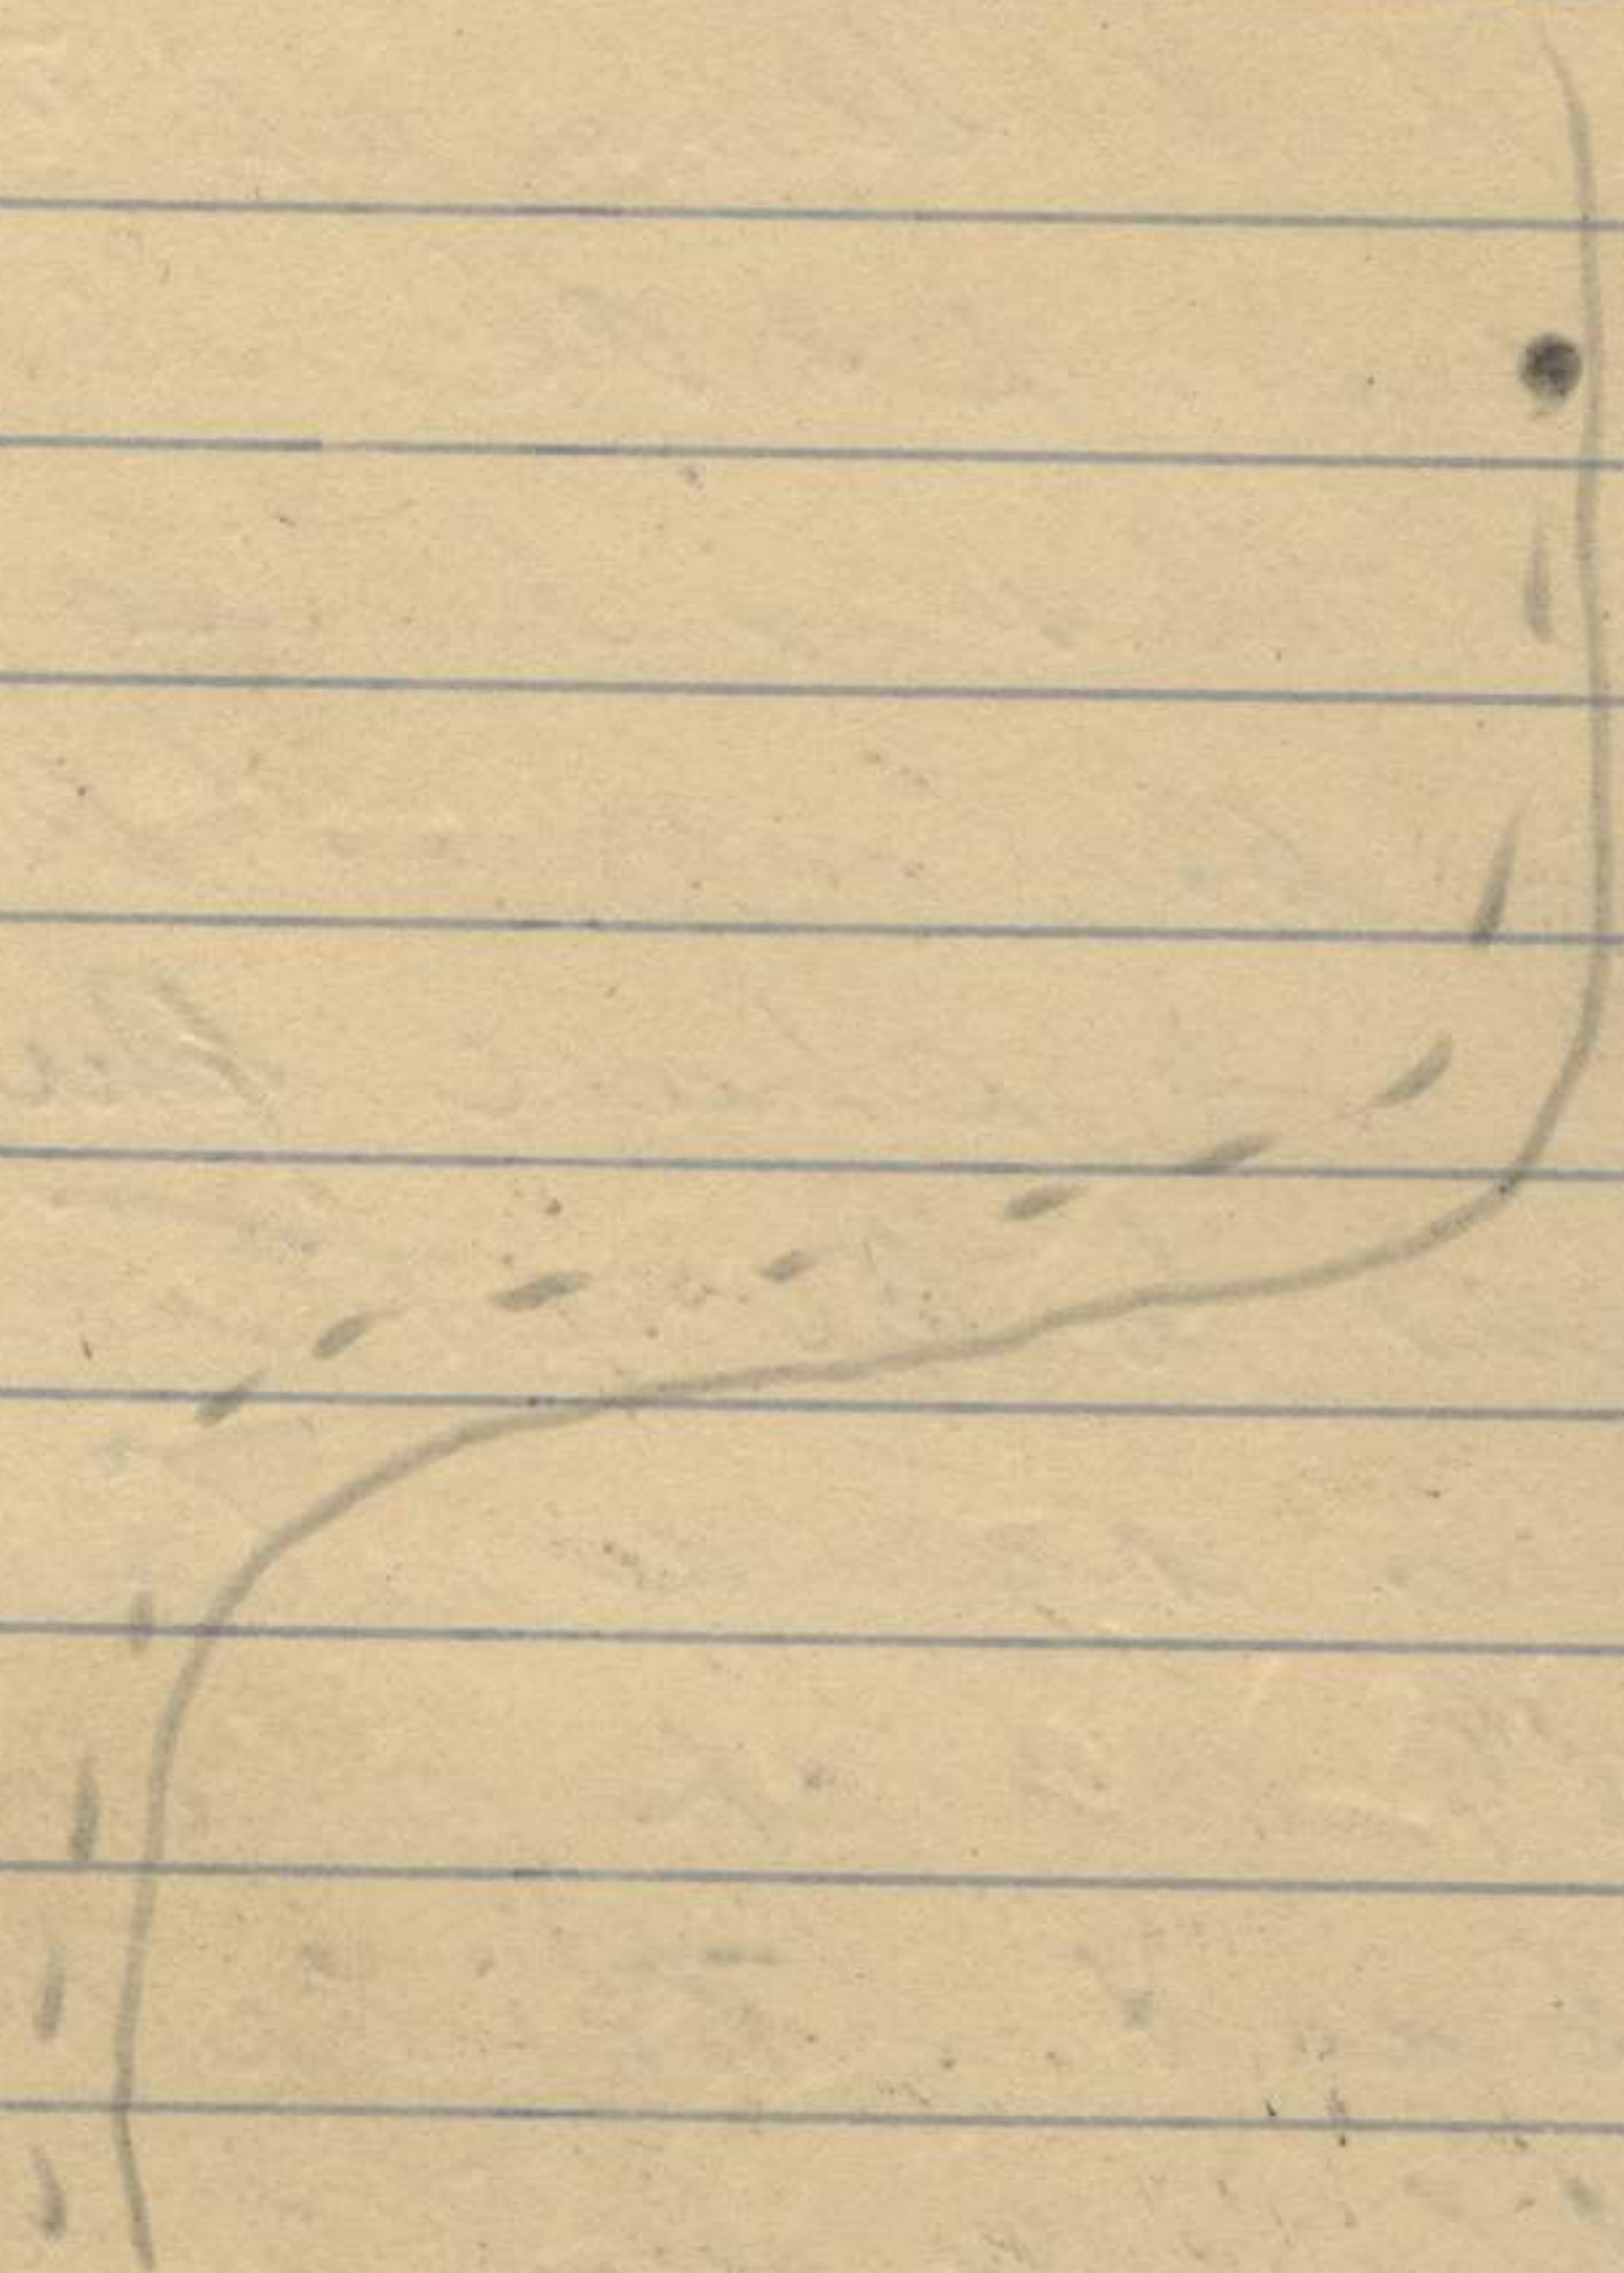

For Brigadier Wootten.

This post is again  
engaged & we appear to  
be on their last base. The  
post itself appears to be  
on a plateau of approx  
100'. From Capt Keapers  
report yesterday it would  
appear that some of their  
base dumps about a  
1/2 mile to the rear lying N.W  
from the village of Wagga  
Wagga. I shall put  
2 Coy in to the attack  
D... along road C on  
their left which should  
just about strike their  
Right flank with a  
bit over to swing in.  
A Coy has been sent North

Strongly engaged.

boox I will move boox FAST  
when arty is covering. I  
will then swing in to  
the RIGHT rear of enemy  
to battle him up. I  
shall have B. Coy in  
reserve & in the perimeter  
of the villages of Wagga Wagga

I shall then withdraw  
to the perimeter as ordered  
by you previously  
& hold it as a base  
with strong patrol to  
find out if any enemy  
are still in area. We  
depend on the attack.

If it is not successful  
I feel that it will be  
a job for Bombers, fighters

Artillery positions  
possibly ~~at~~ 2.00pm  
or perhaps 1.00pm.

Attacking here & the  
other landing by night  
in rear & moving in.

They appear to be  
determined to fight to  
a finish & are quite  
fanatical - they laugh  
& yell as you shoot  
them.

See journal of  
2/10/42

at 8/9pm

Lasuncis - this  
morning approx 20.
