Subject : SECURITY OF OFFICIAL DOCUMENTS AND INFORMATION

HQ 3 Div (AIF)

9 Nov 45

G 12/553

Distribution List "B"

Plus : 6 Ops Report Team
7 RI Amb

Reference HQ AMF 122669 of 17 Sep and 138243
of 20 Oct 45.

1. Consequent upon the surrender of JAPAN, the security classification of protected documents has been generally downgraded vide the letters under reference. This has been done principally to reduce the number of documents requiring special consideration in recording, handling and filing.

2. At the same time with the cessation of censorship restrictions on private mail, the necessity for ensuring the security of information contained in ALL official documents, whether classified as protected or otherwise, must not be overlooked.

3. AMR & G 1583B states that "disclosure, except in the course of duty, of information contained in a protected document is an offence under the Defence Act and Commonwealth Crimes Act". FSR Vol 1 Chapter 23 and AMR & G Para 1583 make it clear that clerks and orderlies, specifically, have a definite responsibility regarding the security of information coming to their notice in the course of their duty, and that they should be aware of the evil results which may arise from leakage or discussion outside the office.

4. Accordingly all ranks who regularly handle documents, particularly officers and other ranks on formation headquarters should be impressed with the fact that in peace as well as war, the strict security of official information is to be preserved within, as well as without, the forces.

5. Discussions on official matters will be confined to those directly concerned, and not carried on in the presence of others.
