By Lt.Col W.L. SANDERSON, OBE, MC, COMMANDING 16 AUST. INF. BN., AUSTRALIA.

1. SECURITY OF INFM. - PURCHASE OF LOTTERY TICKETS: A check carried out recently at the State Lottery Office discloses many breaches of security in that Unit names and locations have been freely given in ticket butts, which are accessible to any civilian.

Unit comds will ensure that all ranks are instructed that Regtl No, Rank and name are the only particulars which will be given in such instances "AUSTRALIA" is sufficient address, and Unit names and locations will NOT
2. be given.

3. TPS MARCHING AT NIGHT: When tps are marching along rds at night there is considerbble danger from collision by overtaking motor vehs- especially in localities under "black-out" conditions.

With a view to minimising this danger, the right-hand man of the rear rank of any coln marching at night will wear a white cloth of reasonable size on the back and will carry a lighted hurricane lamp, with if possible, a red glass, as a warning to overtaking vehicles.

4. CLOTHING RATION BOOKS: Army clothing ration books are NOT transferable. Disciplinary action will be taken against any persons who transfer or receive by transfer clothing ration books.

5. LOST PROPERTY: An office for lost and found Military Property has been opened at SWAN BARRACKS, PERTH. Enquiries to be addressed to DAPM, SWAN BARRACKS, Telephone Extn. 220.

8. CENSORSHIP: It is reported by the Deputy Base Censor that an increasing number of green envelopes are being received without bearing the imprint of the Unit Censor Stamp.

The Army Postal Service will NOT accept for despatch green envelopes, the certificates of which are signed by the writer, unless same bears the imprint of the Censor's Stamp.

9. TRADE GROUP CERTIFICATES: Trade gp Certificates, inserted in the back of soldiers' pay books, are merely evidence that the man has qualified. They guide CO's when selecting men for TG vacancies, and NO man should be so appointed unless holding a certificate. Arrangements can be made to trade test suitable men by arranging with the nearest OME.

Use of word "probationary" after TG rating shown on Trade Group Certificates, will be discontinued and "Class A" or "Class B" substituted. Both classes will be entitled to their full TG rate of pay; Class A indicates that the man has been a practicing tradesman for a number of years. Class B indicates that his experience is limited to an Army Tech.Tng.Crse.

TG tradesmen Class B may, after serving in a unit as a tradesman for NOT less than 3 months, be upgraded to Class A on qualifying by Trade Test conducted by attached or nearest OME.

The practice where men have failed to pass the required std, and were issued with certificates showing a lower trade group rating than that laid down for the trade followed by the word "Trainee" will be discontinued and in lieu thereof, such man will receive a certificate marked "Suitable for tng as a fitter" or other trade as the case may be.

ROUTINE ORDERS PART I.

By Lt.Col. W.L.SANDERSON, OBE, MC, COMD. 16 AUST. INF. BN. AUSTRALIA.

CAMOUFLAGE NETS: All ranks are to be informed that these nets are highly inflammable and adequate arrangements must be made to ensure that nets are NOT ignited. Smoking will be forbidden in any veh covered by nets, or in that part of vehs where nets are carried.
Several instances have recently occurred in which camouflage nets have been destroyed together with damage to M.T. and eqpt, and injuries to pers.

SECURITY OF INFM: (a) There is an increasing tendency for civilians to interogate members of the Allied Army Forces when the latter are on Leave, travelling on duty, etc.
(b) If not checked, this practice, although generally inspired by idle curiosity, may lead to the disclosure of much information of value to the enemy, and will facilitate the task of enemy spies.
(c) All ranks will be instructed that, in addition to refusing to disclose information to civilians, they should endeavour to obtain the names and addresses of the questioners and report same to the appropriate Offr of their Unit.
(d) Security service have undertaken to investigate immediately the bona-fides of any inquisitive civilians whose names and addresses are supplied.

PRIVATE COMMUNICATIONS CONCERNING CASUALTIES: (a) Private cables and telegrams reporting battle or other casualties are prohibited. In letters no reference is to be made to any such casualty until after a period of one month from the date of its occurrence.
(b) The prohibition and restriction imposed by para (a) hereof are NOT applicable to communications sent by a member relative to a casualty sustained by himself.
(c) This order has been dictated by motives of consideration for the feelings of the relatives of members of the forces who, in many instances, have been caused unnecessary suffering and suspense through information contained in private correspondence from operational areas and which, in some cases, has proved to be inaccurate.

UNIT DESIGNATIONS: 1. Units originally raised as A.I.F. prior to 1 Mar, 42.
(a) The prefix "2/" will be used before the designating number of all units (except those mentioned in sub-para (b) below) which were originally raised as A.I.F. Units prior to 1st Mar 42, and which have retained their A.I.F. Identity, e.g., "2/1 Aust. Inf. Bn."; "2/2. Aust. Fd. Regt."

6. When an AIF Unit is transferred to a new formation, its colour patch will remain unchanged.

GRO.A36/1942 is cancelled.

AUSTRALIAN MILITARY FORCES.

ROUTINE ORDERS PART I.

By Lt.Col. W.L.SANDERSON, OBE, MC., Comd. 16 Aust. Inf. Bn., AUSTRALIA.

EDUCATION - INSTN. IN MALAY LANGUAGE:

Pers are frequently prevented from attending classes because of guard or similar duties. This retards work of other members of the class. Comds will ensure that attendance at these classes is regular. Where tactical exercises or other tp mvts prevents a number from attending a class, the meeting should be cancelled and an alternative time substituted.

INJURIES TO TPS TRAVELLING BY TP TRAINS:

Instances have been brought to notice of injuries being caused to tps travelling by tp trains.

OCs trains will instruct pers that on NO account must they allow any portion of their bodies to protrude from carriages or vehs on which they are riding. Instns to this effect will be incl in unit mvt. orders.

MLT. DRIVING:

In order that wear of engines, transmission, brakes, and tyres may be reduced to a minimum, and economy in petrol effected, the following instns will be promulgated in unit orders and breach will be made the subject of disciplinary action.

(a) Rapid deceleration by changing into a lower gear when slowing down at corners or crossings will cease. This form of driving places an undue strain on engine and transmission and causes excess wear on tyres.

(b) Excessive use of brakes during normal driving is mainly due to bad driving and lack of anticipation. Constant and heavy wear is thereby imposed on both tyres and brakes, and this practice will cease.

CONSUMPTION OF SCHOOL DRINKING WATER:

(a) A complaint has been received about the excessive consumption of drinking water from a school in the dry area during the recent Corps exercise.

(b) With the approach of warmer weather the drinking water posn in country districts will become extremely acute, and as the resources available for children at schools in the dry areas are already very restricted, under NO circumstances will army pers draw water from school tanks.

CARE OF RIFLES:

Arm's inspections reveal the following most common major repairs and the probable causes:-

Bent barrels:	Due to maltreatment. Rifles left where they are likely to be run over.
Rusty barrels:	Absolute neglect.
Stock fore-ends:	In majority of cases caused by thrusting the bayonet into ground during practice, the impact either breaking cap nose from stock fore-end or splitting stock fore-end beneath cap nose.
Wrong bolt:	Men carelessly picking up wrong bolt after cleaning rifles. Too much stress cannot be laid on this fault as in most cases the rifle would be unsaft to use.

FOUND: 16 Bn. Hat band. Near MOORA Rly Stn.

LOST: Wallet and Dr's License in name of Cpl. V. BETTENAY. Finder please return to Bn.H.Q.

RAIL WARRANTS AAF.T1 and PL.1:

Irregularities are occurring in the issue of rail warrants. NO alterations will be made on warrants, but if amendments are necessary, a new warrant will be issued and the other cancelled.

Form PL.1 is issued together with HL.1 or HL.2 and NOT with warrant AAF.T1. It is used for private line, (ie, MID.RLY.COY) only, and will NOT be made out to Stns south beyond MID.JUNCT. and North beyond WALKAWAY.

PARADE FOR GOVERNOR-GENERAL:

Bde. Comd. congratulates all tps on their splendid performance during the review by His Excellency the Gov.General.

The steadiness and bearing of the tps was most commendable.

AUSTRALIAN WAR MEMORIAL RCDIG1026750

STATE SCHOOL DANDARAGAN:

The Education Dept have lodged a complaint that tps have been making use of the school grounds to eat their mid-day lunch.

Tps have defaced a number of trees in the ground with carvings and the area has been left littered with papers, jam tins, cigarette packets and such like.

The School grounds are definitely out of bounds to all tps, and disciplinary action will be taken against offenders.

CONSERVATION OF WATER:

With the advent of summer, the necessity for the conserving of water is important.

13 Fd. Coy have request that this Unit co-operate in the use of the water supply in their camp area. Tps availing themselves of showers provided by the above Coy, will ensure that taps when NOT in use are turned fully off, and that all precautions are taken to lengthen the duration of the supply.

16 Bn. personnly will use ONLY the showers on the Western side of the road. The showers on the Eastern side are reserved for the 13 Fd. Coy.

REVEILLE	0600
RETREAT.	1800 daily.

WILLS: When a soldier is married, his will made before his marriage is invalid. Several pers of late have been married and have NOT remade their Wills.

Owing to the advent of summer and the consequent drying up of ground surface, it must be realised that sand and dust will soon make living conditions in this area very trying.

Coy Comds are requested to assist in this campaign to keep Coy Areas clean by checking movement of their own coy vehicles within the area.

In future the penalty for driving off the main tracks (as already defined) will be instant grounding of the driver concerned. Excuses will NOT be accepted.

Sentries will ensure that this regulation is observed by halting all incoming visiting vehs and directing their movement.

Carriers will use Northern Gate at all times on entry or departure from Camp Area.

FOR OFFICIAL USE ONLY AMR&O 1587.

AUSTRALIAN MILITARY FORCES. R.O. No.69.

ROUTINE ORDERS PART 1. 5 DEC 42.

BY LT.COL. W.L. SANDERSON COMMANDING 16 AUST INF BN AUSTRALIA.

FIRE PRECAUTIONS:

Units will continue to impress upon all ranks the necessity for observance of strict fire precautions, as emphasised by the recent outbreak in this area. The strictest control of the use of fireworks and tracer bullets in training will be observed, while all veh camouflage nets not absolutely essential or not in use will be stored in a safe place, as these have been the cause of a number of recent fires. Units still requiring plough breaks or enlargement of existing fire breaks will apply to this HQ when a plough will be made available. Coys will also check the mufflers and exhaust pipes of all vehs for leaks, as it is known that these can cause fire in tall grass.

Coys will ensure that an efficient fire alarm system is installed and that all ranks are familiar with its warning.

The following are some useful lessons learnt from recent fire fighting:-

(i) Many pers arrived at the scene of the fire without beaters or shovels. Arm yourselves for fire fighting.

(ii) Some coys were slow in turning out after the alarm had sounded due to waiting for stragglers. Turn out immediately with all available personnel and leave one offr or NCO to round up stragglers and bring them on later.

(iii) It was noticed that fully dressed pers were able to do the most work Again it is emphasised, bare skin is a hindrance.

(iv) Grab your water bottle, you may be going all day.

(v) In the recent outbreak, the intelligent back burning of fire breaks from wheel tracks, sheep pads etc, was mainly responsible for confining the outbreak, and it is a point always to watch for.

(vi) R.A.P. Coys possessing R.A.P. or med orderlies should arrange to have a certain number report to Bn.H.Q. on a fire warning being sounded - they may be needed at the fire.

(vii) Coys etc to improvise all fire beaters possible and have all pers instructed as to where they can be found. Unit fire off should inspect fire fighting eqpt at frequent intervals.

DRS M.T. AND SMOKING:

The G.O.C. has instructed that commencing forthwith, NO dr will smoke whilst driving a vehicle. Coys will warn all personnel that disciplinary action will be taken against any dr smoking whilst driving a veh.

M.T. CONTROL:

A section of 4 Aust Div Pro Coy has been attached to 13 Inf Bde Gp. This section has been instructed to police that area thoroughly, and disciplinary action will be taken in all cases of M.T. offences, particularly speeding, dangerous driving, failure to observe V.T.M. etc.

CARE OF REFEES:

Recent inspection of rifles has revealed that many forends are cracked rear of the nose cap.
This is brought about by tps fixing bayonets and driving same into the ground, leaving the rifle to sway.
All NCOs must prevent such misuse of arms as it is becoming difficult to procure replacement of forends.

STOLEN:

M/C 36085 3½ H.P. Twin TRIUMPH, engine no 40/57/30603 painted military green has been stolen. Units will conduct a search and report to this HQ if found.

PAYBOOKS - NOT TO BE WITHDRAWN FROM MEMBERS:

Attention is directed to the tendency in all Coys forthe members paybooks to be withdrawn and in some cases held in the Orderly Rooms indefinitely. This has resulted in members being transferred, evacuated to hospital or being sent on leave without paybooks in their possession.

The possession by a member of his paybook at all times is essential for identification and medical reasons, as well as for the purpose of pay. O.C's will ensure that paybooks are not withdrawn from members except for official purposes and when so withdrawn that they are returned as soon as possible.

All members will be instructed that paybooks must be in their possession when going on leave or transfer. O.C's will carry out check parades periodically to ensure that members are in possession of their paybooks.

Cases of loss of paybooks, due to carelessness or wilful destruction by soldiers will be dealt with as a breach of military discipline.

CONSERVATION OF POTATOES:

To prevent wastage, the peeling of potatoes before they are cooked is, until further notice, forbidden.

Before potatoes are cooked, they will be scrubbed clean and bad portions, if any,will be cut out. Neglect of this precaution makes this food distasteful.

When practicable, potatoes will be steamed in preference to being boiled. When, however, it becones necessary to boil potatoes in Soyer stoves, it may be found that owing to the softness of the variety, the lower tubers break up. Should this occur, resort must be had to roasting, or else fewer potatoes must be boiled in each stove to lessen the weight on the bottom layer.

When practicable, potatoes will be omitted from the breakfast diet, unless there is cooked potatoM left over from the previous day which can be utilised.

VACCINATIONS AND INOCULATIONS:

There are still many pers who have not had the result of inoculations and vaccination entered in their paybooks.
Units will take steps to see that this matter is attended to immediately.

AUSTRALIAN MILITARY FORCES. R.O. NO. 70.

ROUTINE ORDERS PART 1. 8 DEC 42.

BY LT.COL W.L. SANDERSON COMMANDING 16 AUST INF BDE AUSTRALIA.

SECURITY OF INFORMATION:

The attention of all ranks should be directed to the fact that the communication to any person, otherwise than in the course of official duty, of any naval, military or air force information is an offence under the Defence act punishable by fine or imprisonment, or both.

An infringement of any Army Field Censorship Instns is an act of disloyalty which may incalculably harm the Allied cause. This fact will be impressed upon all ranks. Rigorous steps will be taken to punish every detected offender, irrespective of rank.

An officer is responsible if a letter, after being franked by him, contains military infm. By aiding and abetting the commission of an offence, the offr himself commits an offence and is liable to punishment accordingly. This will not, however, absolve the writer of the letter from responsibility of the breach.

Penalties imposed upon pers for breaches of security will be notified in formation etc. R.O. Part 1 and, where practicable such notifications will be read out on parade to troops within the formation etc.

Contravention of this order if committed by an offr will be reported to LHQ so that, if thought necessary, the individual concerned may be called upon to show cause why his commission should not be cancelled,.

USE OF .45 T.S.M.G. AMMUNITION WITH .455 MARK VI REVOLVER:

Cases have been reported in which .455 Pistols Revolver Mk.VI have been damaged through the use of .45 T.S.M.G. ammunition which is a rimless type.

American manufactured Smith and Wesson revolvers have been issued to the serv ice and the use of .45 TSMG ammunition is permissable under certain circumstances, namely, in conjunction with two small clips that are issued to retai the ammunition in the cylindar.

The .455 Pistol Revolver, which is a standard service issue revolver, can only be used in conjunction with .455 Mk.VI ammunition. Its use with .45 TSMG ammunition is expressly forbidden.

CANS, 2-GALLON, WATER, WITH M.T. VEHICLES:

The cans, 2-gallon, included in the initial equpt of WD vehs, and provided for the purpose of carrying petrol. oil and water, are made of tin plate. These cans are therefore suitable containers for drinking water.

A large number of cans, 2 gallon included in the initial issue of vehs outfitted in Australia (and also cans 2-gallon, supplied here as maintenance replacements for vehs) were, however, manufactured from terne-plate; Some of these cans were painted white with a 3" letter'W' in black at each end.

Terne plate is sheet steel coated with lead which, when used to form a container for water, renders the water injurious if used for drinking. This material can be distinguished from tin-plate by:-

(a) Its dull appearance (tin plate has a silvery shine).
(b) The ease with which thin shavings of lead coating can be scraped of with a knife (only thin shavings of tin can be scraped from tin plate).

To enable identification to be made a small patch upon the top of the can should be cleared of paint and the test prescribed above carried out.

2/

AUSTRALIAN WAR MEMORIAL RCDIG1026750

Cans made of terneplate will no longer be used as containers for water. Only cans of tin-plate (or galvanised iron) will be used for that purpose.

All units will immediately make a survey of cans 2-gallon carried on their vehs and ensure that all terne paltecans in excess of two (2) per veh are withdrawn, and returned through ADOS formation etc to Ordnance,

Two (2) terne plate ~~XXXX~~ cans per veh will be marked as containers for petrol and oil, and by arrangement with ADOS Of the formation, sufficient cans of tinplate or galvanised iron will be drawn, to enable the authorised no. of cans to be carried on vehs, and used as containers of water, to be tin plate or galvanised iron.

BURIALS OF DECEASED SOLDIERS:

The practice of permitting next of kin, relatives or other persons to arrange for the disposition of the remains of the deceased soldiers who have died on service in AUSTRALIA or it's Territories is suspended during the period of the war.
All burials will be effected in war cemeteries conveniently situated to the place of death or, if no war cemetery is available, in the most convenient civil cemetery.
GRO A147/1942 is cancelled.

KITS AND EFFECTS OF ILLEGAL ABSENTEES:

Immediately a member of the AMF, Including AWAS or AANS or AAMWS, has been declared an illegal absentee, the following action will be taken in respect of effects other than those on charge to the members Unit.
The effects, after removal of items on charge to the members unit, will be despatched to the section of Aust Kit Stores servicing the formation to which the member belongs. If there is no such setion the effects will be forwarded to the nearest sub-HQ of Aust Kit Stores. Such effects will be accompanied by AAF.KS.4, in duplicate, such form containing a certificate to the effect that the member concerned is an illegal absentee. The effects will then be stored with other kits and effects of members of the same Unit.
(a) Such effectw will be noted by Aust Kit Stores as those of illegal absentees and will not be issued to the member concerned except on a request signed by or for the CO of the member concerned, either of his then unit or of a unit to which the member may be subsequently posted after being apprehended. If such member claims to have been discharged from the Military Forces and produces to Aust Kit Store his certificate of discharge, arrangements will be made for the kit to be dissected in accordance with para (B) hereof and the personal effects forwarded to the member at an address nominated by him.
(b) If such effects have not been withdrawn after the expiration of six months after deposit, Aust Kit Stores will ascertain, through LHQ Records Office, whether the member concerned is still an illegal absentee. If such member is found to be still illegally absent, then the effects concerned will be dissected and dealt with by Aust Kit Store as provided in the case of a deceased soldier by GRO Q178/1942 and Adm Instns for Kit Stores 1942. If such member, on such enquiry, is found to be no longer an illegal absentee then the effects will be removed from the illegal absentee list, and, if necessary, transferred to another section of Aust Kit Stores, In the latter case, the member concerned will be so notified.

EQUIPMENT AND EFFECTS FOUND IN RAILWAY CLOAKROOMS, HOTELS ETC:

Action as set out below will be taken in all cases where arms, eqpt, kits and personal effects are recovered from railway stations, railway and other non-military cloakrooms, hotels and other sources. Such action will be taken by the member of movement control, Provost Corps, or other unit or person recovering the articles.
Arms and eqpt will then be returned to the nearest AAOC Depot. If the article can be identified, the owners Unit will be so advised by the AAOC Dept and the articles will be struck off the Unit's charge,. Kits and personal effects will, if the owner and his unit can be ascertained, be forwarded to the section of Aust Kit Stores which serves the formation to which the member belongs. If there is no such section such articles will be forwarded to the nearest sub-HQ of Aust Kit Stores. Such Sub-HQ will arrange for the storage of the article and notify the owner.
I f the ownership of the kit or effects cannot be established, the same will be forwarded to the nearest sub-HQ of Aust Kit Stores, by whom the articles will be dissected in accordance with GRO Q 178/1942, and adm Instns for Kit Stores 1942. If the effect remain unidentifiable, the personal property therein will be stored by Aust Kit Store pending pending identification by description of contents, and the army property therein dealt with as provided in GRO Q 178/1942, para (5)(c)(ii). If ownership of the effects is established during dissection, then the effects will be sent to the appropriate Kit Store Section, and the owner will be so notified

POWERS OF SENTRIES AND GUARDS: Extract of GROs dated 18 DEC 42

1. Regulation 8A of the National Security Regulations (Statutory Rules 1942 No. 374) provides that without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood or vicinity of, any prohibited place, protected area, controlled area, or any premises used by the Commonwealth, or used for defence purposes or for essential services, or any vehicle, vessel or aircraft used by the Commonwealth , or any enclosed wharf or picking up place or any merchant vessel lying in port, or any road, pathway or water-way, specified in an order by the Minister, which passes through or near a prohibited place or work of defence, may be armed and may:
   (1) Use his weapons or otherwise attack, any person who in disregard of a warning given by a sentry or guard, approaches, enters, leaves or passes over or in the vicinity or neighbourhood of, or attempts to approach, enter leave or pass over or in the vicinity or neighbourhood of, that place, area, premises, vehicle,vessel, aircraft wharf, picking up place, road path or water way, or who, after being arrested for so doing, escapes: and
   (2) use his weapons against, or otherwise attack any person attacking him or who is reasonably suspected of being about to attack him.
2. There are, however, certain principles which mustguide all sentries and guards in the execution of their duty as such, and in the exercise of the right to resort to arms.
3. These principles are:
   (a) Sentries and guards will be ordered to take any action required to ensure the safety of their posts or to defeat the activities of enemy or suspected enemy agents.
   (b) If necessary, they will fire upon or otherwise attack any persons threatening the safety of their posts or engaging in hostile actions.
   (c) Before firing upon any person, the sentry will, except in an urgent case of self defence, challenge that person to "HALT". If that person does not halt, the sentry should challenge him again with HALT or I Fire. If he does not halt and no other mea means are available for stopping him - as for example by calling the rest of the guard - it is the duty of the sentry to shoot.
   (d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not , and he must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.
   (e) Guards of enemy prisoners of war. An enemy prisoner of war attempting to escape may be fired upon but a previous summons to surrender will be given if possible.
   (f) Guards of members of the forces in custody. The use of weapons to prevent the escape of a prisoner is unlawful unless:
      (1) the prisoner has committed a felony and cannot otherwise be re-arrested: or
      (2) it is necessary for self defence, and no more force is used than is reasonable in the circumstances.
      The offences which constitute a felony are indicated on pages 146 - 151 of the MML (Australian Edition)
   (g) If a prisoner resorts to violence, force may be met by force to the extent reasonably necessary, and the escort may call for hel help from passers by.
4. GENERAL. This order will be repeated to all members of Units.
