YONG DONG KOREA	1 Oct 52	Coy Comds, Sp Coy pl comds and the IO carried out a recce of Area 7 this morning while the remainder of the unit continued to carry out routine and adm tasks. Area 7 is a blocking posn on Line WYOMING and is at present the responsibility of 1st Bn The Royal Fusiliers. The area is designed to contain a brhead across the R IMJIM while forces in Areas 1 to 6 break contact and withdraw if necessary. Area 7 covers historical crossing points on the river and according to, local legend KUBLA KHAN crossed in the vicinity in his campaign of conquest of this country in the century. The GOC, Maj-Gen M A R WEST and Comd 29 BRIT Inf Bde Brig RICKETTS inspected Area 1 today. They were escorted through wire and minefd obstacles by Lt A PEARSE A Coy. The weather is fine and cool.	
	2 Oct 52	Today's activities were devoted to the preparation and improvements of the defs in Area 1. Maint of stores and eqpt was also attended to. Most tps had the afternoon to themselves and appreciated this further opportunity to relax. The peace and quiet of Area 1 was disturbed this evening by considerable enemy activity on the front of 1 Marine Div unit occupying the position on our RIGHT flank. A considerable number of heavy cal arty rds were fired into the gen area of an AMERICAN gun posn at CT 153064, about 1000 yds SOUTH of our CP. Many rds fell into the R IMJIM, throwing up impressive colns of water into the air. Many of our men took up posns on the skylines and were, no doubt, happy to take a detached interest in the barrage. The trg policy for the remainder of our stay out of the line is defined in 1 RAR Trg Instr No 5/52 att. The weather is fine and cool.	
	3 Oct 52	The CO carried out a detailed recce of the disposns of the unit in Area 1 this morning. He was accompanied by the OC Sp Coy and the IO. The unit continues to carry out maint of the defs in the area and the maint of stores and eqpt. Periods of relaxation were provided in the afternoon. Many pls are holding "Smoke Ohs" in the evenings, around camp fires, and no doubt are busy recounting their experiences in the line.

Place	Date	Summary of Events and Information.	Remarks & refs to Appcs, Diaries, etc.
YONG DONG	3 Oct 52 (contd)	The tales told may have been accentuated by the shrapnel which fell into the area today. Enemy LAA fire was active against UN ac striking posns facing 1 Marine Div and 28 Inf Bde fronts. One 20 mm SDHEIT projectile fell into the MG Pl area without exploding or causing cas. It was forwarded to HQ 28 BRITCOM Inf Bde with Capt E MULHOLLAND who was visiting the area at the time. Restrictions in the use of unit tpt were announced today vide 1 RAR Adm Instr No 8/52 att. The weather is fine and cool.	
	4 Oct 52	The CO, Adjt, IO and Coy Comds carried out a recce of posns to be occupied on Line JAMESTOWN in our role of counter attack bn for 29 BRIT Inf Bde after the relief of 28 BRITCOM Inf Bde this week. The areas to be occupied are res coy posns in the fwd bn locs and coy blocking posns immediately to the rear. These may have to be occupied in the event of any major attack by the enemy. The bn amn dump about 200 yds EAST of the CP was sabotaged last night. An attempt was made to explode the dump by burning 2 in mor HE bombs. The area was booby-trapped with phos grenades. Fortunately, little damage was done, the saboteur was evidently an amateur because the phos grenades were not primed. Guards have been intensified. The junc pt of the IMJIM and SAMICHON rivers CT 1506 is a notorious spot for line-crossers and it is thought that NORTH KOREAN infiltrators may have been responsible for the attempt to blow the dump. A marked map of the Line JAMESTOWN counter attack is attached. C Coy is resting in its fwd posn and has had nothing to report since taking over. Gen : Padre G McADAM, PD Chaplain, joined the unit today. He relieves Padre DIGGINS who returned to AUSTRALIA on compassionate leave in September. The weather is fine and mild.

RE-ALLOCATION OF UNIT TPT

Copy No 15

3 Oct 52

AG 2/7

GENERAL

1. A serious situation has arisen regarding tpt. The standard of tpt is generally poor, and the spare parts situation is such that in some cases vehs which under normal circumstances would be repaired quickly must become a complete write off.

In the past seven days another 4 jeeps have been certified 'BIR' (beyond local repair), bringing the unit total to 11. These jeeps cannot be replaced, and no relief in this situation can be expected until Jan 53.

2. The cooperation of all ranks is sought to ensure that 1 RAR veh cas are kept to a minimum.

AIM

3. To outline the method by which 1 RAR tpt will be allocated with a view to maintaining the maximum number of vehs operationally sound.

METHOD

4. In order to conserve tpt for op use, the following plan will come into effect on 4 Oct 52 :-

(a) The number of jeeps allocated to rifle coys will be 2 each.

(b) The number of jeeps in Sp Coy will be as follows :-

(i) 3 for general coy use

(ii) Sufficient for current op commitment as ordered by the CO.

(c) Bn HQ jeeps will be reduced by 3 (one from RP, one from Asst Adjt and one from IO).

5. The three jeeps withdrawn from Bn HQ will form a pool controlled by MTO for gen use.

6. It is stressed that all jeeps withdrawn will cease to belong to any sub-unit, and will be held by MTO for op use by the unit. Dvrs who are not required to maint these jeeps will return to their coys for other duties.

7. Tpt NCOs will continue to op as at present, under control of MTO.

/..... 2/

8. Sp coy jeeps withdrawn will retain their sub-unit identity, because dvrs of these jeeps form part of op teams.

9. In order to implement this plan, MTO will call in vehs when he is ready to receive them. Coys will coop fully in this matter and supervise return of vehs as asked for.

10. This plan will continue when the unit goes back into the line unless circumstances make further changes necessary.

11. To reduce the number of vehs used in daily maint of the bn, the following changes will be made :-

(a) Ration store will be loc in B Ech.

(b) Two 3 ton vehs will be loc in B Ech for use by WO Caterer.

(c) WO Caterer will break bulk sups in B Ech, and del to coys in 3 ton vehs. If rds leading to any coy become impassable to 3 ton vehs, CQMS will meet ration veh at end of passable rd and del to coy by jeep.

12. All ranks will again be reminded of the necessity for strict economy in the use of tpt. Offrs will pay careful attention to the making of tpt requisitions, whether they be written or verbal. Unnecessary running and other forms of abuse of tpt will be treated as serious offences.
