INDIVIDUAL INSTRUCTION - REFUND OF INCOME TAX

To assist you in obtaining any refund to which you may be entitled when your income tax for the year ended 30th June 1966, has been lodged, the Taxation office has provided the following information.

1. There are three ways in which the Taxation Office can arrange for payment of your refund. One way is for a cheque to be forwarded to you by the Australian Embassy in Saigon. Under this system payment will be made in Vietnamese currency.
2. However, special arrangements have been made for you to have your refund credited direct to your Army paybook. To obtain payment of your refund in this manner, it will only be necessary for you to complete this form "Authority for Payment of Refund to Army Paybook". The completed form should be pinned inside your income tax return together with your group certificate. A notice of assessment will be issued to you and the amount of the refund will be credited to your Army Paybook.
3. You may prefer, however, to have the refund paid to an address in Australia. In this case, you should show the Australian address in the block "Postal Address for Service of Notices" on page 1 of your income tax return form. It is specifically requested that you do not show the address of a Bank unless you have made prior arrangements with that Bank to have mail opened and cheques credited to your account

Hints on Economy of the use of Printing and Stationery

ENVELOPES

1. Don't use a large envelope when a small one will do by folding the enclosure to the smallest practicable size.
2. Don't use a new envelope except for the (outside public) when a "use-again" envelope can be used with economy stickers.
3. Don't use an envelope at all when the same result may be obtained by postal-folding the communication, or for any but confidential matter within your own Unit.

PAPER

4. Don't use foolscap paper when a quarto or octavo sheet will do. Octavo will suffice for short memoranda, and quarto for minute-sheets and files in many cases.
5. Don't use a new sheet of paper for rough drafts, notes or messages, when the backs of obsolete forms or memoranda, which have served their purposes, are available.
6. Don't write on backs of unused printed forms.
7. Don't keep stocks of paper and forms in a place open to dust—Dirt leads to Waste.

BLOTTING PAPER

8. Don't be extravagant with blotting paper—it is scarce and expensive.

RUBBER STAMPS

9. Don't demand unnecessary rubber stamps—supplies of rubber require to be conserved.

PADS FOR INDIA RUBBER STAMPS

10. Don't leave the lid of the tin open. The life of a pad is prolonged if the lid is closed, and the tin is turned upside down when not in use.

TYPING AND DUPLICATING

11. Don't use double spacing unless you have instructions to do so for particular documents or classes of documents.
12. Don't insist on retyping for trifling errors. A manuscript correction saves paper and the typist's time.
13. Don't ask for unnecessary carbon copies.
14. Don't throw away carbon sheets when they are only half exhausted, nor discard typewriter ribbons until they have been turned.
15. Don't neglect the regular cleaning and oiling of machines. A clean typewriter means its longer life, fewer repairs, and better output.

PRINTING AND DUPLICATING

16. Don't be extravagant when requisitioning for printing or duplicating paper, as paper is scarce. Stocks are not to be built up and hoarded by Units, Branches and Sections.
17. Don't duplicate if a typist can run off a sufficient number of carbon copies at one typing.

ARMY FORMS

18. Don't create new forms; approval must be given by A.H.Q. Whenever possible, adapt and use standardized forms, obtainable from Ordnance Depots.
19. Don't destroy old forms. They may be used for memoranda or other purposes.

MISCELLANEOUS

20. Don't use large memoranda books when smaller ones will suffice, unless absolutely necessary. Don't use small ones.
21. Don't leave the cover off the bottle—ink evaporates thick—by undue exposure. —gum gets dirty and
22. Don't use wire clips and paper fasteners when less metal, and in many cases are more efficient. —are cheaper, consume less metal, and in many cases are more efficient. —taken from old papers and used again.
23. Don't throw away wrapping paper for future use.
24. Don't forget that a small saving throughout the Service.

ENCLOSURE NO. 5.
