1337	1545H	F/ 5 RAR	SITREP ACTIVITIES DAT DO: The Hoi Chanh(woman) has led A Coy into the mine field to a bunker 10'x10' located in the centre of the field. A search located 1 SMG, 1 rifle, AK47 mags, some docs and some assorted eqpt. A Coy have also searched 4 tunnel complexes. The info given by the woman has so far been 100% correct. Intend to ambush tonight in the area of the tunnels where the contact occurred today. At present the Coy is searching another tunnel complex further SOUTH. We are anxiously trying to track down some docs which were last seen in the hands of a VN LT. These docs are critical as the woman has already 'fingered' a member of the S4 staff at the district HQ and we believe the docs could incriminate others. Request Int assistance in recovery. The woman shows tremendous contempt for the RF in the area. She has already pointed out several bunkers which can easily be bypassed past with ease as the RF are always asleep. She shows particular contempt for the RF in the NE sector. She has spoken of a plan for an attack on the Horseshoe on an unknown date and also indicated that the VC are trying to raise force of 1000 for this task. Am trying to get the release of this woman tomorrow so that she can guide A Coy to her camp. The DC has agreed that we man the checkpoints tomorrow and A Coy(-) plus the I&R PI will move to the camp. The CO has promised the woman a reward over and above what the VN will give if she continues to supply the Int which has so far been 100% correct.	Arty info. 1. Comd informed. 2. 2069	2150H	F/ 9 BAR	Reference the contact with C Coy. 7 Pl earlier today engaged on coming to wash in creek as per original contact report. They searched the area and found some eqpt. C Coy HQ and 9 Pl moved 450 m North of their loc at that time and joined 7 Pl. 8 Pl followed up later. The coy moved along the track and across the creek. They travelled about 50 m and came across a small clearing where the track divided three ways. The coy followed the Western track when they saw mov to their front and opened fire. The en returned fire from C Coy's front. The fr sect of 7 Pl sustained the cas. The fwd scout was seriously hit in the opening engagement in front of a large bunker. Another man was wounded trying to get him out but he confirmed the first scout was KIA. 9 Pl was sent round the left flank (via the South) but could not get fwd because of en fixed lines. This mov relieved the pressure on 7 Pl they were able to wr taking all cas except the KIA. No further action could be taken at that time to get the body. Gunfire and a LFT were directed onto the tgt and the fire of both were very effective. There were 3 litter and 5 sitting cas incl the Pl Comd 7 Pl. Some packs and SA incl the M 60 were left in the contact by the wounded. C Coy is now loc 75 m from the en camp. They believe some en were KIA during the contact particularly by arty and air. The coy will move fwd after first lt where they hope to recover the body.	Arty info
