Reference: A. 6 TF Trg3828 dated 11 May 67.
B. HQ N Comd 94:N10:1 (Trg) dated 16 May 67.

1. The blanket refusal for B Sqn to use the above areas (vide Reference B) appears out of context with the application submitted under Reference A.
2. As well as vehicle training the squadron has a continuing requirement for dismounted training of Aslt Sects in Infantry minor tactics as well as the RAAC drills associated with the employment of Aslt Sects. This requirement is highlighted by the fact that B Squadron is overstrength and has a dismounted element of 34 all ranks.
3. Reference A requested the use of areas B and C during the period 15 May to 14 Jul 67 for mounted and dismounted training.
4. It is requested that consideration be given to the use of these areas for dismounted training by elements of B Sqn 2 Cav Regt for the period requested.

LOSS AND DAMAGE TO CANVAS FIRE HOSES

Reference : HQ SQ Area R793:1:66 dated 23 May 67.

1. Attached are copies of the Investigating Officer's Report together with copies of the terms of reference and statement by Capt HINTON, 2IC 104 Sig Sqn.
2. The delay in submission of the report is regretted.
3. Due to the lapse of time between occurrence and investigation it is felt that no useful purpose would be served by pursuing the investigation. Also, those members who may have been able to assist in the enquiries are now in South Vietnam. The statement by Capt HINTON is the only available evidence that can assist the matter.
4. It is therefore recommended that the Metropolitan Fire Brigade Board be reimbursed and that the comments of the Investigating Officer be agreed to. The damaged hose is now with the Metropolitan Fire Brigade Board.

USE OF VOICE CODES

Reference: A. Staff Duties (Australia) paragraph 1074.
B. N Comd 841:N1:11 (Trg) dated 12 May 67.

1. Paragraph 39 of Reference B refers to the requirement for codes as used in VIETNAM to be used for training in Australia. This Headquarters strongly supports this recommendation, in view of the fact that the voice codes authorised in Reference A are NOT used in VIETNAM.
2. It is requested that information on the codes in use in VIETNAM, together with the necessary stores, be made available, and that these codes be authorised for use for all exercises involving units training for overseas service.
3. It is intended that for Exercise MOISY PITTA, only codes authorised in Reference A will be used.

Conclusion

10. Experience during BARRA WINGA ONE revealed the major weakness to be the lack of training of units to operate at Task Force formation level. Time is very restricted during this training period and it is only by early planning and a concentrated effort that we will be able to reach the required standard of co-operation so essential for success during BARRA WINGA TWO.

EXERCISE NOISY PITTA : GENERAL IDEA

Reference : A. Basic Intelligence Survey of SHOALWATER BAY,
ROCKHAMPTON and PORT ALMA (issued separately).

B. Map: SHOALWATER BAY Special 1:100,000.

Background to Present Situation

1. In Sep 60 the former South East Asian Colony of QUEENSLAND was divided under UN supervision, into the Sovereign States of DEMOCRATIC PEOPLES REPUBLIC OF NORTH QUEENSLAND (RSQ). The border between the countries is along the 22° Line of South Latitude about 100 miles North of ROCKHAMPTON.
2. DPRNQ is a firmly controlled Communist State having a highly motivated Army: The PEOPLES ARMY OF NORTH QUEENSLAND (PANQ).
3. In contrast to the situation in the North, the RSQ is striving to maintain its own blend of Democracy that it established on partition. It is hampered by numerous political and economic difficulties but the main difficulty is the continual harrassment by Communist terrorism. The Communist forces are known as the NATIONAL LIBERATION FRONT SOUTH QUEENSLAND (NLFSQ) or colloquially as The QUEENSLAND TERRORISTS (QT). They are receiving military and other aid from the DPRNQ.
4. In 1965 DPRNQ began to support the QT by the covert provision of PANQ units up to regimental size. In addition DPRNQ have massed large military forces near its Southern Border.
5. In mid-1966, the Government of RSQ sought the aid of Free World Forces to help combat the Communist menace. The United States of America responded immediately and was then followed by New Zealand and Australian contingents.
6. The Australian Government offered a Task Force of two battalions and supporting arms (6 TF) together with its logistic support, RAAF transport and offensive support.
7. The ORBAT of 6 TF is listed in Annex A. Annex B gives the command relationships that exist in RSQ while Annex P is a trace showing QT and PANQ dispositions as well as Free World Forces dispositions and Regional boundaries. The trace is to be used with PORT CLINTON/ROCKHAMPTON 1:250,000 scale maps.
8. The Tactical Area of Responsibility (TAOR) allotted to 6 TF initially was that area of Region 12 South of the OO Northing. The 1st Australian Logistic Support Force (IALSF) was located in ROCKHAMPTON with elements of 5 Sqn RAAF (IROQUOIS) at the PLAINS. Elements of 82 Wing RAAF (CANBERRAS) located at AMBERLEY remained in support of 6 TF. The ORBAT of the RAAF Tactical Air Support Force is attached as Annex C.

Operations Recently Concluded

9. The Free World Forces conducted a series of operations during the period Oct-Nov 66. 6 TF, in particular, operated successfully in Region 12. RASPBERRY VALE and LEMON TREE were cordoned and searched and multi-battalion search and destroy operations were carried out in the RASPBERRY VALE? PYRI PYRI and PLAINS Sectors with emphasis on the COAST? POLYGON and NORMANBY RANGE areas.

RESTRICTED

RESTRICTED

10. After the successful BARRA WINGA series of operations. 6 TF was withdrawn SOUTH from Region 12 and RSQ forces resumed responsibility for it. The major unit in Region 12 was the 289th Bn of the Army of the Republic of South Queensland, based at the PLAINS.

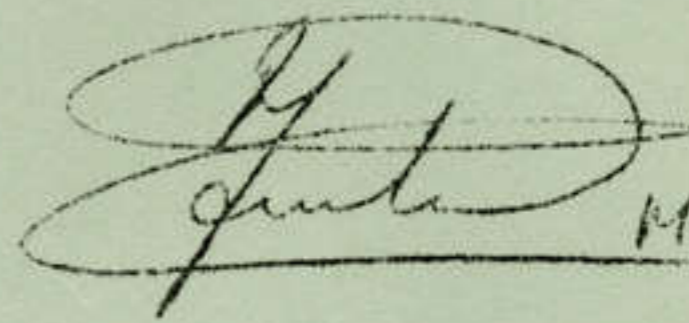

Present Situation

11. In early May 67 it became apparent that heavy re-infiltration into Region 12 by QT Forces was taking place. A battalion of 901 PANQ Regt had re-infiltrated into the area of PINE MOUNTAIN from the ROGER HILLS area.

12. Clashes between 289 (RSQ) Bn and the QT units and patrols from the battalion of 901 PANQ Regt that have occurred so far, have resulted in heavy losses for 289 (RSQ) Bn. This has resulted in a call for 6 TF to move into Region 12 again, and take re-pacification measures in all of Region 12 and destroy the PANQ regular battalion at PINE MOUNTAIN.

ANNEX D TO
GENERAL IDEA TO
EXERCISE NOISY PITTA

NOTES ON THE NATIONAL LIBERATION FRONT SOUTH QUEENSLAND
(NLFSQ)

RESTRICTED

RESTRICTED

Reference : "The Enemy, 1964".

General

1. Following the division of the QUEENSLAND colony in Sep 60, some two hundred political and military cadres were left behind in RSQ to form the basis of the present QT organization.
2. In typical revolutionary warfare pattern, the activities of these cadres were initially directed towards political ends with isolated military actions. With little opposition from an unstable RSQ government and an under-strength military force, the QT wasted little time in spreading their influence and control, especially in the rural areas. In a number of sectors, parallel NLFSQ government structures have been established and superimposed over the legal RSQ authority.
3. By mid 1966 Intelligence estimated the strength of QT military forces within RSQ to be - Main Force (regulars) 125,000; Local Force (Regional and Guerilla) 60,000; PANQ (infiltrated from DPRNQ) 16,500. Despite intensive operations conducted by RSQ and allied forces since late 1966, these strength figures remain approximately the same.

QT Military Structures

4. QT forces can be divided into two operational categories, the Main Force and the Local Force. The Main Force consists of full time regular units which are controlled at Military Region and Sector level. These units are well organized and the soldiers are well trained and equipped. The Local Force are guerilla units locally controlled at the hamlet, village and sector level. These units are used frequently as intelligence gatherers, porters or as reinforcements for Main Force Units.
5. None of the QT units are organised in accordance with any fixed standards of personnel or equipment. QT battalions are planned for about 500 men but in practice they may have as few as 250 men while QT companies and platoons average 90 and 30 respectively.
6. The QT acquire personnel through recruitment and infiltration. Recruitment may be accomplished voluntarily, by kidnapping or by impressment using blackmail or terror. There is evidence to indicate that large number of PANQ cadres and some formed units are being infiltrated from DPRNQ to swell the QT ranks.

Equipment and Supplies

7. QT forces are in general, lightly equipped and have a commensurate degree of cross country mobility. In addition to individual weapons, they have a large number of automatic weapons and some light crew-served weapons. Some of the larger regular units are equipped with heavier weapons such as mortars, recoilless rifles and bazookas. The weapons are principally Communist bloc, American, French or homemade. The latter consists mainly of crudely made rifles, pistols, grenades, mines and demolition charges. Supplies are obtained mainly by capture, local procurement and by smuggling. Local procurement is made either by purchase or levy as necessary.

Leadership and Training

8. Training is either accomplished in small local unsophisticated training areas supervised by cadres from regular units, or in training centres in DPRNQ. The programme for the regular and local forces emphasises weapon training, simple tactics and political indoctrination. Many of the leaders and specialist personnel are trained in the NORTH. There is still evidence that in many cases, officers and non-commissioned officers of PANQ units have infiltrated to the SOUTH to assume leadership of QT units.

Tactics and Operations

9. See Chapter 3, "The Enemy 1964".

10. See Part 2, "The Enemy 1964" for Order of Battle, organization, tactics.

1. The following is the text of N Comd 916:N6:25 dated 9 May 67.
 1. The NT Compounds for HQ Sig Sqn and 8 RAR were handed over on 5 May 67 for occupation.
 2. Certain rooms are designated as Oil and Grease Stores. Will you therefore ensure that oils and greases only are stored in these buildings and that petrol and other high volatile liquids are not held.
 3. No shelving has been provided in the various stores in these compounds. If built-in shelving is required (and timber shelving only should be provided in oil and grease stores), will you forward unit's requirements as soon as possible.
2. Please forward details of shelving required to the HQ no later than 1 Jun 67. Note that the requirement covers all storerooms in the compounds.
3. The attention of units is directed to the restrictions contained in the N Comd letter.

WRITE OFF VOUCHER AAF - F2/496
STORE ACCOUNT Q261

Reference : N Comd 39/N7/33 dated 16 May 67.

1. The stores referred to in AAF F2/496 were received by 55 ABSS on AB No 73692 in the Rockhampton Area; subsequently the stores were despatched by rail to Brisbane.
2. At Roma Street Station unit stores were checked in bulk. It was later found that the stores in question were not received. At the time, enquiries were made with the Railways, but the stores could not be located.
3. It is now considered that any further investigation would be uneconomical. It is recommended that no further investigation is warranted vide MBI 129-6 Part 2 para 19C.
4. This HQ recommends that the stores be written off at public expense.
5. Attached AAF-F2/496 is forwarded for Comd Sec approval before write off action is taken by this HQ.
