CIVIC ACTION
1 AUST CA UNIT MONTHLY REPORT - AUG 69
PHUOC TUY PROVINCE AND VUNG TAU MUNICIPALITY

General

1. The monthly report for Aug 69 is submitted covering the following:
 - a. External Affairs Project Report Annex A
 - b. Medical Civic Action Report Annex B
 - c. Monthly Education Report Annex C
 - d. Commodity Distribution Phuoc Tuy Provinces Annex D
 - e. Liaison and Agriculture Annex E
 - f. Vung Tau Municipality Annex F

Construction

2. Work proceeded well in all projects during the month. The Chau Van Tiep High School extension, and the Long Thanh Elementary School were completed and handed over. Work on the Dat Do High School was delayed because of the death of the contractor, but has now been resumed and should be finished in September.
3. The Province Rice Warehouse is proceeding very slowly as CB ("SEABEE") team could only deploy one man on the project for most of the month. To finish this job in reasonable time, it may be necessary to supplement the CB effort with Australian engineers.
4. The windmill programme continues satisfactorily. 17 Const Sqn has almost completed construction of the mill and tank in Phuoc Loi and will then move into the An Nhut mill, after which all mills now held in country will be erected. The people in Phuoc Loi have been very slow in playing their part in the project (digging the pipe ditches). This may be for fear of VC retribution. The Suoi Nghe mill is still not functioning and it may be necessary to put down another bore. Recce is in progress at present for a bore and windmill site on Long Son Island. The recce is being done as a three day operation with security by 1 ATF D and E Pl.
5. Detailed investigation has been completed on the following projects in support of village self development. Subject to AFV approval work should start during September. All projects are joint Australian/Vietnamese efforts.
 - a. Baria Hospital Renovations
 - b. Construction of a Maternity Dispensary on Long Son Island
 - c. Renovation of Long Dien Market
 - d. Renovation to An Ngai Market
 - e. Construction of a toilet at Tam Phuoc School

RESTRICTED

2.

- f. Construction of Hoa Long High School (Project 258)
(not village Self Development)

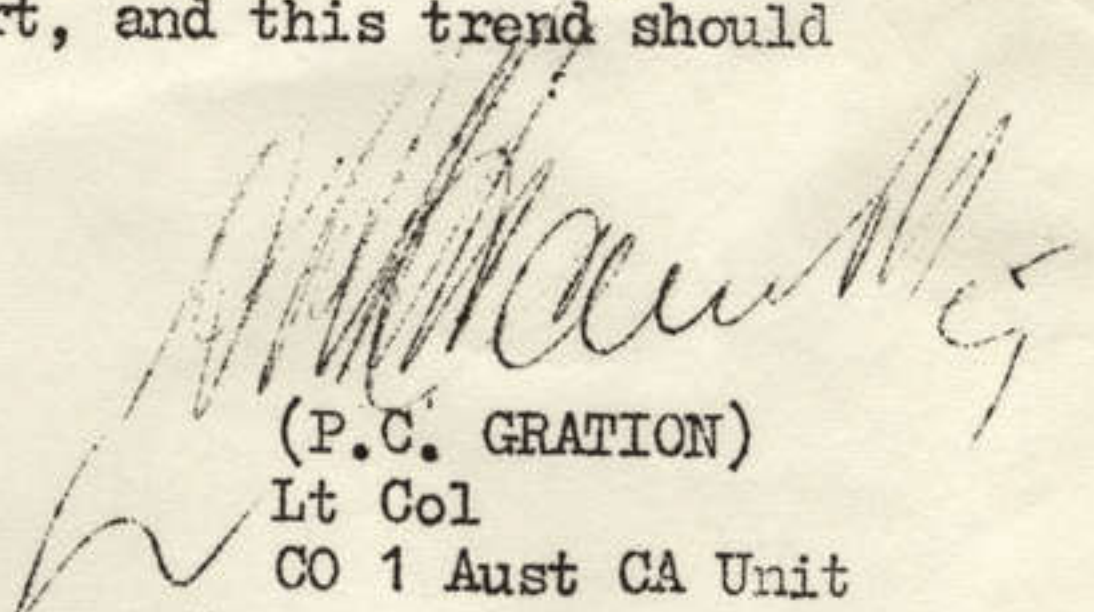

6. Major development work by 1 ATF Engineers continued. The main project was widening and resurfacing of Route 23 from Baria to Dat Do. Work proceeded well helped by an unusually dry period towards the end of the month and is 50% complete. Minor road repairs have been done in many areas, particularly Route 23 between Dat Do and Xuyen Moc and in the area of Hoi My.

MEDCAPS and ICAPS

7. The routine MEDCAP programme was expanded considerably and included assistance by the RMOs from 1 Fd Regt and the Infantry battalions. The ICAP programme was intensified by holding the majority at night, rather than in the late afternoon. The numbers of people attending (600 in La Van) indicate the great impact of these projects. In addition in most areas the District Chief and his staff have attended and used the occasion to personally address and mingle with the people. The high impact warrants the security risk involved, and the programme will be continued during September.

General Comments

8. Progress for the month continues to be satisfactory. The civic action projects continue to be fully integrated with the 1 ATF Pacification Plan and form a very important complement to other parts of the plan. With the improvement on overall security in the Province, it has been possible to expand the civic action effort, and this trend should continue.
