HINTS ON ECONOMY OF THE USE OF PRINTING AND STATIONERY

ADJT.

ENVELOPES

- A ✓
B ✓
C ✓
D ✓
1. Don't use a large envelope when a small one will do by folding the enclosure to the smallest practicable size.
 2. Don't use a new envelope except for the outside public, when a "use-again" envelope can be used with economy stickers.
 3. Don't use an envelope at all within your own unit for any but confidential matter.

PAPER

- ADM ✓
26 ✓
MOR ✓
SP ✓
ATH ✓
4. Don't use foolscap paper when quarto or octavo size will do.
 5. Don't use a new sheet of paper for rough drafts, notes or messages, when the backs of obsolete forms or precis are available.
 6. Don't write on backs of current printed forms.
 7. Don't keep stocks of paper and forms in a place open to dust—Dirt leads to Waste

BLOTTING PAPER

- AS ✓
25 ✓
8. Don't be extravagant with blotting paper—it is expensive.

RUBBER STAMPS

- 28 ✓
17 ✓
9. Don't demand unnecessary rubber stamps.

PADS FOR INDIA RUBBER STAMPS

- 18 ✓
10. Don't leave the lid of the tin open. The life of a pad is prolonged if the lid is closed, and the tin turned upside down when not in use.

TYPING AND DUPLICATING

11. Don't use double spacing unless you have instructions to do so.
12. Don't insist on retyping for trifling errors. A manuscript correction saves paper and the typist's time.
13. Don't ask for unnecessary carbon copies.
14. Don't throw away carbon sheets when they are only half exhausted, nor discard typewriter ribbons until they have been turned.
15. Don't neglect the regular cleaning and oiling of machines. A clean typewriter means its longer life, fewer repairs, and better output.

PRINTING AND DUPLICATING

16. Don't be extravagant when requisitioning for printing or duplicating paper. Stocks are not to be built up and hoarded.
17. Don't duplicate if a typist can run off a sufficient number of carbon copies at one typing.

ARMY FORMS

18. Don't create new forms; AHQ approval is required. In exceptional cases, adapt and use standard forms.
19. Don't destroy obsolete forms which may be suitable for drafts, etc.

MISCELLANEOUS

20. Don't use large memoranda books when smaller ones will suffice, and then only when absolutely necessary.
21. Don't leave the cover off the bottle—ink evaporates, paste hardens, gum gets dirty and thick—by undue exposure.
22. Don't use wire clips and paper fasteners when pins will serve. Pins are cheaper and, in many cases are more effective—they can be taken from old papers and used again.

WASTE

23. Don't throw away wrapping paper and string. Save it for future use.
24. Don't forget that a small economy in each office means a large saving throughout the Service.
