COMMANDERS DIARY

OCTOBER 1972

COMMANDERS DIARIES INSTRUCTIONS

AIM

1. The aim of a Commanders Diary is to provide data on which to base future improvements in Army training, equipment, organization and administration, and to furnish historians with a record of the activities of units and formations in operational and non-operational periods in peace and in war.

GENERAL

2. Entries are to be made daily on AF C 2118 (Adapted) each entry being initialled by the officer detailed to keep it.
3. Commanders Diaries will conform with the rules for drafting orders given in "Staff Duties (Australia)", Chapter 2, Section 12.

RESPONSIBILITY

During Non-operational Periods

4. A Commanders Diary is to be compiled by commanders of all formations.

During Operational Periods (1)

5. A Commanders Diary is to be compiled in duplicate by:
 - a. Commanders of all formations.
 - b. Each branch of the staff at formation headquarters commanded by a brigadier or above.
 - c. Heads of services not below the rank of lieutenant colonel.
 - d. Personal staffs and officers holding special appointments.
 - e. Unit commanders.
 - f. Commanders of a detachment of a unit when so ordered.

COMPILATION

6. Both original and duplicate copies are to consist of:
 - a. Cover (AF C 2119) (Adapted).
 - b. Index as printed on cover.
 - c. Narrative (AF C 2118) (Adapted).
 - d. Annexes as shown in the Index.
7. All details of the unit or formation (if a detachment is concerned, the name of the parent unit), period covered and enclosure numbers of the annexes are to be shown on the cover. If there has been a change of command since the last report, the date of assumption by the new commanding officer is to be included.
8. The annexes are to be assembled in the groups shown on the cover. If there are no enclosures for an annex NIL will be entered on the cover. If additional annexes are convenient for a particular headquarters, starting at B.

for operations form Annex "Z", "TOP SECRET" the document. It is to be prepared and disposed of as

TENTS

es as well as map references), establishment, equipment

he annexes, but need not give a precis of any of them.

(continued on back cover)

COMMANDERS' DIARIES

DISPOSAL

13. **Original Commander's Diary.** This is to be forwarded monthly, unless otherwise ordered, by the seventh day of the succeeding month direct to AHQ.

14. **Duplicate Commander's Diary.** This must be clearly marked as a duplicate. It is to be sent separately from the original to AHQ one month after the original has been despatched but not before the former has been acknowledged.

15. When overseas, both copies of diaries are to be sent through the Army Records organization in the overseas theatre but at different times.

16. **TOP SECRET Supplementary Diaries.**

a. The documents referred to in Paragraph 9 together with a list of them made out on AF C 2118 (Adapted) must be placed in separate cover (AF C 2119) (Adapted). All details must be filled in and the cover clearly marked in red: "ANNEX Z — OFFICER ONLY". It may be convenient to group the papers by appendices.

b. Supplementary diaries must be forwarded under the normal rules for TOP SECRET correspondence, to AHQ. The inner envelope must be plainly marked:

TOP SECRET

ANNEX Z to

Commanders Diary of..... (Formation or Unit)

From..... to..... (Dates)

c. The duplicate supplementary diaries must be despatched as shown in Paragraph 14 as soon as receipt of the original has been acknowledged.

COMPILATION

6. Both original and duplicate copies are to consist of:

- a. Cover (AF C 2119) (Adapted).
- b. Index as printed on cover.
- c. Narrative (AF C 2118) (Adapted).
- d. Annexes as shown in the index.

7. All details of the unit or formation (if a detachment is concerned, the name of the parent unit), period covered and enclosure numbers of the annexes are to be shown on the cover. If there has been a change of command since the last report, the date of assumption by the new commanding officer is to be included.

8. The annexes are to be assembled in the groups shown on the cover. If there are no enclosures for an annex Nil, will be entered on the cover. If additional annexes are convenient for a particular headquarters, listing at B.

for operations form Annex "Z", "TOP SECRET" the document. It is to be prepared and disposed of as

INDEX

as well as map references), establishments, equipment and orders given. The day's fighting, including company movements, commander with regard to equipment, tactics, organization

essential importance: officers, men and equipment; most captured; employed in the time not accounted for. The type of

and to save work as much information as possible is to be entered on the cover and received, sent to AHQ and the time of receipt or despatch is to be given.

the annexes, but need not give a précis of any of them.

UMPIRE BRIEF - EXERCISE SILVER KRIS

Reference: A. HQ 28 ANZUK Bde AB 841-3-56 of 2 Sep 72.

General

1. This umpire brief will amplify any lectures or demonstrations given prior to Exercise Silver Kris.
2. It is vital to the success of the exercise that all umpires know their jobs and remain fully briefed on all situations for the duration of the exercise.
3. Umpires have a responsibility to pass on experience gained in Vietnam in a tactful manner and by their presence, to add realism to the exercise.
4. Aims of the Umpire Organisation. The umpire organisation has a three fold aim:
 - a. to give the troops being exercised a realistic impression of battle conditions by creating an atmosphere of war as it exist in CRW;
 - b. to keep Control HQ informed of present actions and future intentions of the troops being exercised; and
 - c. to act as a safety organisation.
5. Umpire Organisation. See Annex A. (To be issued)

Tasks

6. The tasks of the Umpire Organisation are:
 - a. to adjudicate the results of contacts between the troops being exercised and the exercise enemy troops, and to assess and allocate simulated exercise casualties accordingly. The following general principles are to be applied:
 - (1) umpire control is to ensure the chief umpire has the current information on exercise enemy troops locations, movements and planned operations;
 - (2) when an engagement between elements of the troops being exercised and the exercise enemy troops is imminent the enemy commander umpire involved is to join the umpire net of the company involved. Continuous radio contact is to be maintained throughout the engagement;
 - (3) the allotment of simulated exercise casualties to both the troops being exercised and exercise enemy troops is to be on a realistic basis; and

.../(4)

- (4) physical contact between the troops being exercised and exercise enemy troops during an engagement is not to be allowed. Where such contact is likely to develop during an engagement, the action is to be halted and exercise enemy troops allowed to break contact;
- b. to influence commanders and individual soldiers to take action as they would in actual operations by describing the type and effects of hostile fire;
- c. to advise the next senior umpire of:
- (1) the results of engagement;
 - (2) future plans and intentions; and
- d. to ensure all safety measures are observed. (Annex C).
7. Control Instructions. Control of each activity is to be achieved by commanders of elements of exercise troops participating in each activity affecting close liaison with umpires throughout an exercise. Additional activities may be ordered by the Control HQ depending upon exercise operational plans of the troops being exercised.

Communications

8. Umpire Radio Diagram is at Annex G
9. Security. All transmissions on umpire nets are in clear. However, traffic on umpire nets can at any time be intercepted and care must be taken not to pass traffic which may jeopardize security, such as the disclosure of major weaknesses in training.

Fire Representation

10. Exercise enemy troops are armed with 7.62mm SLR and M16 Rifles. The following overall methods of representing fire are used:
- a. SA Fire. By SLR rifles firing blank ammunition, and by M16 Rifle firing blank ammunition.
 - b. Mortar Fire. Simulators, projectile, ground burst M15 portray bomb burst at the target. Primaries are simulated by M16.
 - c. Grenades. Simulator Hand Grenade M16.
 - d. RCL Fire. Simulator Hand Grenade M16 at the weapon position and simulators, projectile ground burst, M15 at the target.
 - e. Booby-traps. Switches, 4, 5 and 6, with not more than 6 inches of fuse instantaneous (when required).
 - f. Mine AP - M59 Mine AP (Prac).
 - g. FGA/ARTY on Objective. Simulated by simulator ground burst M15 at the target area.

11. Destruction of Blinds. All simulators which fail to fire are to be classed as blinds. These are to be marked and reported to Enemy/Umpire Control. Engineer/Pioneer mini teams deployed with the enemy are to destroy blinds.

Simulated Exercise Casualties

12. Tie-on labels are made available to umpires to describe simulated exercise casualties imposed on troops being exercised. These casualties cover the following broad categories:

- a. troops - killed in action (KIA); wounded in action (WIA), missing in action (MIA), and illness;
- b. vehicles - wheeled or tracked;
- c. radio equipments;
- d. gun and mortar equipments; and
- e. SA weapons.

13. A general policy on the creation of simulated exercise casualties is given during the umpire brief. Variations to this policy are given by Umpire Control as an exercise develops. It is essential that all simulated exercise casualties imposed on troops being exercised and exercise enemy troops are notified to Umpire Control and Exercise Enemy Control as applicable as soon as possible.

14. Be realistic, few people if any, are killed in the average engagement.

MAJOR SAFETY ASPECTS

1. These instructions are to be read in conjunction with the Manual of Army Safety.
2. Ball Ammunition. No ball ammunition of any type is to be used during the exercise.
3. Cartridges 7.62mm Blank F1A1
 - a. A large number of defective blank 7.62mm F1A1 cartridges (split base) are being belted for use with GPMG M60 and are NOT to be used in SLR L1A1. If fired from SLR rifles, these cartridges are liable to produce an intense white flash at the ejection opening which is projected to the rear. Injury could result to the firer.
 - b. It is to be promulgated to all troops using blank ammunition that ammunition is not to be 'borrowed' from 7.62mm belted ammunition.
 - c. All packages containing belted blank 7.62mm ammunition are marked as follows "DANGER - FOR GPMG M60 ONLY - NOT TO BE FIRED FROM SLR L1A1 OR L2A1".
4. Explosives/Pyrotechnics/Blanks
 - a. Thunderflashes, hand grenade simulator ground burst simulators and Aldershot grenades are not to be thrown closer than 25 metres from soldiers, vehicles, aircraft and equipment.
 - b. Pyrotechnics such as flares and illuminating devices are not to be fired directly overhead.
 - c. Weapons firing blank ammunition are not to be fired at personnel less than 25 metres from the muzzle.
 - d. The degrees of Readiness of Personal Weapons when using blank ammunition are detailed in the Manual of Army Safety, Section 15, Amendment No 3, dated 11 Aug 67.
 - e. Explosives and pyrotechnics are not to be carried by or used by, any person other than those authorised.
 - f. Units are to warn ALL soldiers under their command that it is an offence to remove any blank ammunition or pyrotechnics or part thereof from the training area.
 - g. By 1600 hrs on the final day of the exercise all units and the umpire organisation are to submit AAF C7s direct to Control HQ. All ammunition and pyrotechnics are to be acquitted on the above form.

.../5. Bayonets.

5. Bayonets. Bayonets are NOT to be fixed during the exercise period.
6. Driving. Speed limit signs are to be obeyed. Speed limit for all vehicles in the Control HQ Area is to be 20 mph, unless the road is specially signposted otherwise. All officers and NCOs have a responsibility to check a driver from any unit infringing this speed limit.
7. Missing or Lost Troops
 - a. All ranks are to be told that should they become lost they are to:
 - (1) Move to the nearest high ground.
 - (2) Light a safe, smoky fire. All ranks are to carry a box of matches wrapped in waterproof material at all times whether they smoke or not.
 - (3) Display readily visible items to assist searchers.
 - b. The Control HQ is to be notified as soon as possible of any missing soldiers.
8. Snake Bite. Sequence of actions to be carried out for the emergency treatment of snake bite is as follows:
 - a. Kill and keep the snake if possible.
 - b. Reassure the individual. Complete recovery from snake bite is the rule.
 - c. Keep the individual at rest.
 - d. Apply a lightly constricting ligature (handkerchief, belt, piece of cloth) to the arm or leg between the bite and the heart. The ligature must be tightened until the veins stand out, but not to stop the pulse at wrist and ankle. It should be released for one minute every thirty minutes.
 - e. Wash the area of the bite with plain water without rubbing.
 - f. Immobilize the bitten part by making a splint as for a fracture and keep it hanging below the level of the heart if possible.
 - g. Give mouth to mouth resuscitation if breathing stops.
 - h. Move the individual to the nearest medical installation or doctor (with the dead snake, if available).
 - i. If necessary give aspirin one or two tablets, for pain, but do not give alcohol or morphine.
9. Crashed Aircraft. In the event of an aircraft accident, the following is to apply:
 - a. Injured personnel are to be removed from the aircraft as soon as possible bearing in mind the likelihood of fire, the extent of injuries and the difficulty and danger of extraction.

.../b.

- b. Should aircrew or passengers be dead, bodies are not to be removed from the aircraft until the arrival of the Air Accident Investigation Team, unless:
 - (1) There is a danger of the aircraft catching fire.
 - (2) Bodies require protection from weather and/or insects.
- c. Immediate reports of any air accident are to be passed by the nearest unit or detachment as an IMMEDIATE NODUF message to Control HQ giving details of aircraft, time of accident and grid reference.
- d. Nearest unit or detachment is to care for survivors, prevent fire and prevent unauthorised removal of any wreckage.
- e. Subsequent action will be ordered by Control HQ.
- f. The attention of all ranks is to be drawn to:
 - (1) The danger of fire.
 - (2) The requirement to leave undisturbed all parts of a wrecked aircraft until an investigation has been completed.
 - (3) The need for extreme care when attempting to move survivors from crashed jet aircraft due to explosive charges present in ejection mechanisms. In particular, all ranks should be warned not to touch any levers or handles marked with black and yellow stripes.

10. Battle Noise Simulation and Demolitions. Briefing will be given at the Exercise Area.

11. Booby Traps. If booby trap mechanisms are used these are only to be laid by qualified personnel and no explosive accessory or pyrotechnic other than a maximum of 6 ins of fuse instantaneous is to be connected to any mechanism.

12. Destruction of Blinds. In the event of any blinds in battle noise simulators, qualified engineers/pioneers are to be deployed with the enemy to dispose of these.

NOTES ON EXERCISE UMPIRING

Reference

1. ATI 4-10.

Aim

2. The aims of an umpire organisation are:
 - a. To create a realistic impression of battle conditions.
 - b. To keep control informed of present and future situations.

Types of Umpires

3.
 - a. The Chief Umpire is the senior umpire engaged.
 - b. A Senior Umpire is the senior umpire with a battalion HQ.
 - c. Pool (liaison) Umpires are not specifically appointed to a unit or sub unit, but remain at the disposal of the Chief Umpire or Senior Umpire as allotted.

Task of Umpires

4. Main tasks are:
 - a. to create the atmosphere of war by describing the sights and sounds which are present in battle but lacking in exercises;
 - b. to decide the results of contacts and to assess casualties to men and material accordingly;
 - c. to influence commanders and individual soldiers to take action as they would in war by describing the effects of hostile fire;
 - d. to ensure the next senior umpire is informed of the results of engagements;
 - e. to ensure safety regulations are observed; and
 - f. to observe and record actions and submit reports thereon.

Instructions for Control and Umpires

5. Instructions must detail:
 - a. composition of control and umpire staffs;
 - b. dates, places and times for umpires' conferences;
 - c. location of HQ control and Chief Umpire during the exercise;

.../d.

- d. forecast of operations (in outline);
- e. allotment of transport, communications;
- f. arrangements for collecting and sending out information;
- g. arrangements for reports; and
- h. accommodation and messing.

Pre-Exercise Preparation

6. The following must be clearly understood by the control and umpire staff:

- a. general outline of exercise;
- b. initial location of HQs engaged;
- c. detailed situations in own and nearby areas;
- d. layout of control and umpire organisation;
- e. the type of incidents they will handle; and
- f. the recce required for incidents.

Reports

7. Important events are reported at once. Routine summaries of past activities and proposed plans of the troops being exercised are passed by radio at Morning Prayers (0700 hrs) and Evening Prayers (1830 hrs) run by the Chief Umpire. Senior Umpires will arrange times for their Prayers to meet these timings.

8. Short conferences run by a senior umpire can quickly produce a satisfactory summary of a situation, necessitating then - only one report. Junior umpires should not produce written reports. They should simply record events and impressions in a Signallers Log Book and ensure this information is passed to their senior umpire.

9. A final report should be submitted by senior umpires to the Chief Umpire.

Logs

10. These are the detailed record of the exercise and are kept by senior umpires. A specimen log is at Appendix 1. A single copy of these logs should be written in black biro to facilitate copying at Umpire Control.

Realism

11. The ability to portray the effect of fire is the foundation of good umpiring. To do this, the umpire must have a sound knowledge of the characteristic and effects of enemy weapons. Conversely - to adjudicate a tactical situation - the umpire must know the capabilities of our own weapons, and have a sound tactical knowledge.

12. In assessing situations, the umpire should satisfy himself - that weapons located in certain positions, can, in fact, do the job which is required of them.

13. In painting a picture - it is essential, that an umpire is "in the picture" himself. He must attend, or receive copies of, orders, and he should question individual soldiers on their tasks.

14. The umpire will be greatly assisted in achieving realism, in a situation, if he knows the plan of the opposing side. Ideally before an engagement, he should liaise with his opposite number.

Conclusion

15. A good umpire should combine the qualities of a good actor, sports commentator, war correspondent and thought reader. He should display energy, imagination, inquisitiveness, foresight, tact and commonsense. He must have a sound tactical knowledge. He should be physically and mentally alert despite lack of sleep.

Appendix: 1. Specimen Umpires Log.

DO'S AND DON'TS FOR UMPIRES

1. DO's

- a. DO keep "in the picture" the whole time. If you don't know what the enemy, or neighbouring units, are doing - find out.
- b. DO make certain that the troops understand the picture you are painting. If they do what you think is wrong, it may be because your description of the situation was not sufficiently clear.
- c. DO be realistic in assessing casualties. Be severe on inaction and carelessness.
- d. DO insist on realistic fire control. If troops have exhausted their ammunition stop their fire until they get some more.
- e. DO look ahead and try to foresee what is likely to happen, so that, you can give an immediate decision - when it is needed.
- f. DO consider the fire effect of BOTH sides before you give a decision.
- g. DO be firm; once you have given your decision - stick to it!
- h. DO halt a movement that you feel is out of control. It is far better to have a brief pause in an exercise than to let it develop into a farce.
- i. DO all that you can to maintain the interest of the troops.
- j. DO keep a proper record of events. If important times and events are missing, your report will be of little use to anyone.
- k. DO send in your report to your senior umpire at the times ordered. He is anxiously waiting for it, to complete his picture of the battle.
- l. DO get in touch with the umpires of the opposing side before an attack. Unless you know the dispositions and plans of the defenders you will be unable to give a realistic decision.
- m. DO remember that the value of the exercise, very largely depends on you.

2. DON'Ts

- a. DON'T take sides. Your job is to assess the value of fire - impartially.
- b. DON'T compromise exercise security by word or deed. Your umpires' forecast of events must not be communicated to the troops.
- c. DON'T give away impending developments or the presence of a patrol by conspicuous behaviour or careless exposure on your part. Nothing is more exasperating to troops.
- d. DON'T give information that would not be available in war. This is bad training and only results in the teaching of wrong lessons.
- e. DON'T get in the way of commanders or troops more than is absolutely necessary.
- f. DON'T look at fields of fire from a vehicle. Get down and see them from the level of the actual weapons.
- g. DON'T be bluffed, but check up details/reports yourself. Things are not always all they are claimed to be.
- h. DON'T order tactical withdrawals. If the superior commander wants troops to withdraw he will give the order himself.
- i. DON'T tell formed bodies of troops that they have been taken prisoner. This is very bad training.
- j. DON'T dictate to commanders. They are commanding the troops. You are not.
- k. DON'T allow argument. Give reasons. Be tactful and avoid giving offence.
- l. DON'T leave a situation, which you are umpiring, until; either, the situation has been cleared up - or - you have handed over your responsibilities to another umpire.
- m. DON'T make unnecessary personal demands on the administrative resources of a unit.
- n. DON'T follow the commander around like a press reporter.
- o. DON'T gloat over troubles which lie ahead.
- p. DON'T be critically wise after the event.
- q. DON'T harass commanders and staff with questions at particularly busy times.

ANNEX L TO
6 RAR R841/1/61
DATED OCT 72

NAME

INDOOR EX DALE CARNEGIE

OPENING QUIZ

Time Allotted - 40 mins.

HPS - 90

Question 1

List the duties of unit umpires.

Question 2

As a unit umpire - what must you understand clearly before an exercise - if you wish to carry out your job efficiently?

Question 3

The keynote of every exercise should be realism. How can you achieve this?

INDOOR EX PALE CARIBBEAN
OPENING QUIZ

HPG = 39H

Time Allotted = 40 mins.

Question 1

What the duties of umpires?

Question 4

What points do you expect to find in the Instructions for Control and Umpires?

Question 2

As a umpire - what must you understand?
exercise - if you wish to carry out your job efficiently?

Question 5

Describe briefly the purpose of:

Control Organisation.

Question 6

List as many "DOs and DON'Ts" for umpires as you can. (Do not refer to ATI 4 - 10 for this question).

Question 7

Question 7

List the headings of routine reports submitted by Unit Umpires to Senior Umpires?

Describe briefly the purpose of:
Control Organisation.

Question 8

Write brief notes on the importance of communication security on the Umpires' Net.

Question 8

What are the "DPS and DON" for umpires on your own?
Refer to the "DPS and DON" for umpires on your own.

Question 9

List the principles of umpiring.

ANNEX M TO
6 RAR R841/1/61
DATED OCT 72

EXERCISE DALE CARNEGIE

NARRATIVE

EXERCISE DALE CARNEGIE

OR

HOW TO MAKE ENEMIES AND INFLUENCE

OPERATIONS

GENERAL IDEA

1. You have been posted to ex CRUSADER as an umpire.
2. You have attended your Senior Umpire's conference and you are completely in the picture reference the aim, lessons to be taught, control org, times of conferences etc. You have also completed a ground recce of your area of responsibility.
3. The parting words of your Senior Umpire to you were:
"Whatever you do, don't louse up this job. If you do, 200 good soldiers will suffer because of your incompetence".

EXERCISE DALE CARNEGIE

NARRATIVE 1

You are an umpire with C Coy 2 RAR which is the advance Coy of 2 RAR advancing on Route B. You have been dozing in your land-rover which is travelling next to the Coy Comd, when you hear intermittent firing from the front. The point pl comd reports on the coy net that there is an en section holding him up on the RIGHT of the road. You decide to go forward to assess the action. Near the road you find a sleepy Cpl with a few diggers. The Cpl - upon your questioning, admits that he is the fire sp sect comd. He points out the M60 and gives its arcs of fire. He waves his hand in an uncertain arc and says the en are up there somewhere.

Problem 1

As an umpire - what are you going to do, and how are you going to do it.

Time to consider : 10 mins

Time to discuss : 10 mins

EXERCISE DALE CARNEGIE

NARRATIVE 2

The Point Pl is sitting around on the pimple which they have just captured. There seems to be little control and plenty of congestion.

Problem 2

What are you going to do?

Time to consider : 10 mins

Time to discuss : 10 mins

EXERCISE DALE CARNEGIE

NARRATIVE 3

You are still with C Coy 2 RAR. After the pl action where you awarded heavy casualties, the coy came up against a pl of delaying force on HILL 355. The Coy Comd has decided to attack at 1600 hrs. It is now 1430 hrs.

Problem 3

What actions will you carry out between 1430-1600 hrs?

Time to consider : 10 mins

Time to discuss : 10 mins

EXERCISE DALE CARNEGIE

NARRATIVE 4

The Coy has taken HILL 355, which is a bare rocky feature without cover. There are only shallow scrapes for defence. Your sequence of events indicate the coy must not stay on the hill for the night. However the Coy Comd has different ideas.

Problem 4

As C Coy umpire - what will you do?

Time to consider : 10 mins

Time to discuss : 10 mins

EXERCISE DALE ARNEGIE

NARRATIVE 5

The coy moved off HILL 355 and took a defensive posn at the junction of a track and creek. You are amazed at the lack of security arrangements within the coy.

Problem 5

As C Coy umpire, what are you going to do?

Time to consider : 10 mins

Time to discuss : 10 mins

EXERCISE DALE CARNEGIE

NARRATIVE 6

C Coy 2 RAR has been relieved of its role as ADVANCE GUARD coy of the Bn. As C Coy umpire, you, also, are relieved. You are now attached to TF HQ (on Casevac and PW interrogation) as an ADMIN and TECHNICAL umpire.

You are feeling quite out of the exercise - when - several wounded, and some PW's arrived at the TF HQ.

Problem 6

What points are you going to watch in the handling (by HQ Staff) of the WOUNDED - and PWs?

Time to consider : 10 mins

Time to discuss : 10 mins

CT MINE AND BOOBY TRAP MARKINGS AND INDICATORS

Purpose

1. The purpose of this instruction is to provide a means of identifying CT mine and booby trap markers and indicators.
2. The markers and indicators described in this instruction have been found throughout South Vietnam and SE Asia a knowledge of which may prevent friendly casualties.

Markings

3. The enemy place mines in any area and during every type of tactical situation. In addition to the obvious benefits to be gained by a knowledge of CT marking methods, other safeguards can be developed through the study of the emplacement and camouflage techniques used by the enemy. Take note of CT marking methods, mine emplacement and camouflage techniques, and when new ones are found, report them through the chain of command.

Marking Procedures

4. No pattern or standard of enemy mine/booby trap markings has been determined. Intelligence sources confirm a lack of common doctrine of enemy mine markings. The only doctrine that appears is the requirement that a CT unit know the locations of mines within its normal operating area, and that it co-ordinate with the local forces for guidance on mine and booby trap locations when operating in strange areas. Enemy mine doctrine generally puts the responsibility for removal on the unit that emplaces the mine. The reported CT mine markers are, at best, only a minor indication of enemy mine locations because current information indicates that many mines are not marked in any manner. The mine markers mentioned in this instruction are subject to being disorientated by the effects of rain and wind or animal and human movements through the areas.

Emplacement Procedures

5. Mines can be employed on any type of road or trail, or along road shoulders, close inspection of the road is necessary to detect the mine. Probes should always be used in conjunction with mine detectors to ensure the most complete investigation possible of a suspected area. Many mine detectors are not effective because of weak batteries, improper maintenance or incorrect adjustment. In the establishment of criteria, particular attention must be paid to all puddles on the road, or areas newly refilled with soil, straw, buffalo dung, rice or grass. Such conditions must be continuously watched. The best preventive measure by far is to develop, in conjunction with the local populace, an effective intelligence system to discover enemy plans for mining. This will enable friendly forces to conduct ambushes and destroy or capture CT attempting to lay mines.

a. Emplacement on Unimproved Roads

- (1) The CT will attempt to deceive mine detecting teams by digging many holes in a road and refilling them, placing mines in only a few of the holes. After carefully examining many of these holes, a mine detector team may find nothing, become careless and overlook holes with mines. Mine detecting teams must examine these same holes day after day, even

.../though

though nothing is found. As soon as the CT discover that the mine detecting team is careless and begins overlooking these holes, they will begin to emplace mines at these locations.

(2) A variation of this CT tactic is to dig a series of trenches across a road to create a road obstacle. After the trenches have been refilled by friendly forces, the CT will return and emplace mines in the fresh fill.

(3) Buffalo dung, straw mats, or grass will often be used to cover an emplaced mine. These items are used to camouflage the newly emplaced mine and are positioned to appear as discarded items on the roadway.

b. Emplacement on Asphalt Roads

(1) Mines emplaced on asphalt roads are difficult to conceal because the surface of the road is generally smooth and uniform. Often the CT will dig up sections of the road and wait for the road to be repaired; once repaired the CT will return and emplace mines under the new fill.

(2) In another technique, the CT smear the road at night with mud. This condition forces a mine detecting team to check the area carefully. The smearing may go on for several days until one day the CT emplace mines in the mud sections. The mine detecting team, having been careless, miss these mines. Again, this carelessness is what the CT expect. Newly smeared areas must be checked carefully each time before troops cross over them.

(3) The CT will also dig up the road, lay the mines and refill the holes with asphalt. To avoid detection, a spare tyre is rolled across the patch in an attempt to blend it with the road surface.

(4) The CT will occasionally tunnel under the road from the shoulder and plant a command detonated mine under the roadway. This leaves no traces on the surface of the road. These holes are generally dug in a section of a road near a bridge or at a curve where vehicles must slow down.

c. Emplacement on Road Shoulders. The CT lay mines on both shoulders of a paved road at any location where mines are not difficult to lay and camouflage. Such places are asphalted, and the buried mines blend with the surrounding area.

Booby Trap Markings

6. The generally accepted CT booby trap marking is a small sppt of red or yellow paint somewhere on the booby trap. Any grenade, mine or harmless appearing device which is marked with this spot of red or yellow paint should be suspected as being a booby trap. The absence of this spot does not indicate the absence of a booby trap.

Indicators

7. Indicators used by CT include:

a. Arrow Markers

- (1) Three sticks are placed on the trail. The direction of arrow does not always indicate the direction of the mine or booby trap.
- (2) Four sticks, three are laid to form an arrow, the fourth stick is laid across the arrow stem. The relationship between the arrowhead and the danger area is unknown.
- (3) The "Y" arrangement is sometimes found further down the trail from the arrowhead, indicating the limit of the danger area. The distance from these markers to the danger area is unknown.

b. Bamboo Marker. A piece of bamboo stick 15 to 21 centimetres (6 to 8 inches) long is covered on one end by a larger joint of bamboo. The bamboo stick is stuck on to the ground at about a 45 degree angle with the large end of the device pointing towards a mine or booby trap.

c. Bamboo Rectangle Marker. A hand grenade employed as an anti-personnel mine was discovered inside a rectangle consisting of four lengths of bamboo. The rectangle measured one half metre by one and one third metres.

d. Bamboo Tripod Marker. The bamboo tripod consists of bamboo usually about 47 centimetres (18 inches) long, tied together at one end and set up in a cone shape. Wire or other material will be wrapped around the device near the bottom of the three legs on the device which will keep it cone shaped. The device is placed over punji-pits, booby traps and mines.

e. Broken Bush Marker. The CT will break the top from a small sapling and strip most of the branches from it. One branch will be left on the sapling and it will point down a road or trail. Usually a mine or booby trap is located 50 to 100 metres, further along the road or trail.

f. Broken Stick or Bush Marker. A stick or length of bamboo broken at a right angle and lying across the road or trail may mean a CT mine or booby trap 200-400 metres ahead. Similarly, a bush or small tree growing alongside the trail with the top broken over to one side and stripped of its leaves may indicate a mine or booby trap ahead. A thorn vine is sometimes attached to the upper portion of the broken bush.

g. Forked Stick Marker. A forked stick is driven vertically into the ground and another stick is then laid into the fork with the elevated end pointing to the danger area. Distance to the danger area is unknown. This sign may also be used by the VC to indicate direction of movement.

.../h.

- h. Folded Leaf Marker. A banana leaf or other similar type leaf is folded in half with a thin stick approximately the thickness of a tooth pick woven through the leaf in two places. In addition to marking mines, this may also indicate an ambush area. The location of and distances to the mines or ambush site from this marker is unknown.
- i. Growing Grass Marker. Growing grass is sometimes tied to form four growing sheaves of grass. The tied sheaves form a square whose sides measure approximately two metres. The mine is buried or concealed in the centre of the square.
- j. Mines/Booby Trap Markings on Trails. These two devices were reportedly used in the same area. One mine/booby trap marker consisted of two 25 centimetre (10 inches) leaves placed parallel to each other on top of the mine or booby trap. The second device consisted of two short stakes placed on the trail, in front and to the rear of the mine or booby trap. The distance from the stakes to the mine is unknown. These devices may be used individually or in conjunction with one another.
- k. Parallel Stick Marker. Short sticks or lengths of bamboo laid parallel to a road or trail usually means the road or trail is free of mines or booby traps.
- l. Rock Markers on Trails. Various formations of small rocks are reported to have been placed on trails to serve as a warning of mines and booby traps ahead. These rocks formations have been placed in circular, pyramid and straight line patterns. The distance from these mine markers to the location of the mine is unknown.
- m. Small Rock Markers. A circle of rocks approximately one metre in diameter with a smaller circle of rocks inside it, or a small circle of rocks with a single rock in the centre has been used to mark mines and booby traps. Mines or booby traps are usually 150 to 200 metres further along the trail or road.
- n. Spaced Stick or Stone Markers. Three sticks or stones, one on each side of the road and one in the middle, usually mean the road is not to be used. A mine or booby trap is usually 200 to 400 metres further along the road.
- o. Vehicle Track Markers. The CT have capitalised on our habit of following old vehicle tracks by placing mines in these tracks. These mines are sometimes marked with crossed sticks or an arrangement of small rocks on the track in front of the mine. The location of the mine in relation to these markers is unknown. The mine may be under the marker or up to 400 metres further on.
- p. Stakes with "X" Marker. An M1A1 anti tank mine with approximately 25 lbs of TNT was discovered under this marker. The mine had been marked with stakes at each corner and two sticks forming an "X" over the mine.

.../q.

- q. Vine Markers. An anti-personnel minefield was discovered in a grassy area alongside a trail. The individual mines were marked with vine loops 15 centimetres (six inches) from each mine. This device blends with the existing vegetation and is difficult to detect.
- r. Cloverleaf Device. A cloverleaf shaped device constructed from bamboo reeds was found on a trail leading to a mined road intersection. The ends of the bamboo stems were pointing in the general direction of the mine locations approximately 10 metres in front of the suspected mine marker.
- s. Palm Leaves in a Pattern. A series of bent palms forming a uniform pattern has been found to mark booby traps. This pattern is formed surrounding the booby trapped area.
- t. Red "X" Marker. Red "X" signs are placed on roads and trails leading to mined areas. This sign indicated a prohibited area and personnel must proceed with caution or bypass this area. These signs are used in VC and GVN controlled areas.
- u. Sign Markers. Various written signs have been encountered warning all persons entering a particular area that danger exists if they pass the sign. The danger area is usually 50 to 200 metres beyond the signs. These signs are usually placed in enemy rear areas and probably scheduled for removal in the event of friendly troops initiating operations in the area.

Restricted Area Keep Away :
Please don't go :
Kill Zone :
Area is Booby Trapped :

Conclusion

8. Friendly troops are constantly being menaced by CT mine emplacements. Improved and unimproved roads, road shoulders, trails and any probable avenue of approach are subject to mining. The only doctrine that has appeared concerning the emplacement of mines required the CT units to know the location of mines within their operating area, and that they co-ordinate with the local forces for guidance on mine and booby trap locations when operating in unfamiliar areas. Some mine markers have been discovered throughout Vietnam, however, that may often serve as warning devices. Mine indications are only those which have been reported to date. Many more are suspected and if any new mine indicators or mine markers are found they should be reported, as knowledge of these markers by friendly forces will aid in the reduction of mine and booby trap casualties.

DEMONSTRATION

INTRODUCTORY COMMENT

1. In this period you are to see a demonstration of some of the practical aspects of umpiring. The demonstration is set at sub-unit level because it is at this level that the umpire by his creation of a realistic impression of battle conditions, injects an aura of realism into the exercise which is then felt at all levels of command.
2. There is no point in telling a Company Commander that his leading platoon is involved with an enemy section. The picture is painted by the umpire at the lowest level and this is passed back through the battalion command system. The Platoon Commander, apart from hearing the fire fight and moving up to observe, gets his picture of the battle from the leading section. As it is usually at the platoon or section level that reports are initiated, it is at this level that the umpire must paint the picture. Hence the level of setting of the demonstration.
3. In the demonstration, umpires and their teams are identified by their white arm bands. Troops being exercised are in jungle greens with patrol order and the enemy are in black.
4. For the purpose of the demonstration, formations and minor tactics have been adjusted to allow you to see and hear the activities of the umpires.
5. Before we commence let us refresh our memories of the main tasks of an umpire.

Drop 1

- a. To create the atmosphere of war by describing the sight and sounds which are present in battle but lacking in exercises.
- b. To decide the results of contacts and to assess casualties to men and material.
- c. To influence the Commanders and individual soldiers to take action as they would in war, by describing the effects of hostile fire.
- d. To keep the next senior umpire informed of the results of engagements, the intentions of Commanders and the disposition of troops so that the exercise can be controlled in a realistic manner.
- e. To ensure that safety regulations are complied with.
- f. To observe and record the actions of those taking part and to submit reports as required.
- g. Throughout the demonstrations I will comment and explain as required. Questions will be taken at the completion of each demonstration. There are five demonstrations.

UMPIRE PARTICIPATION

(Time 20 mins)

Dialogue	Remarks
Commentator	
<p>The demonstration you are about to see is designed to demonstrate the position of the umpire with regard to the troops being exercised. The demonstration is in two parts, the wrong and right way of dealing with the problem. Briefly the situation depicted is that of a Section Patrol accompanied by an Umpire, with his Signaller, and the Section Commander is lost.</p>	<p>Stage Manager to line up section in battle order as below:</p> <p>Scouts</p> <p>Section</p> <p>Umpire</p>
<p>The section moves across the front of the spectators, the section is moving in quite an alert fashion. The Cpl halts his section using silent signals and the umpire continues to walk about aimlessly).</p>	<p>Sec moves across front of spectators.</p>
<p>UMPIRE (in loud voice from about 10 yds distance)</p>	<p>Stage Manager to position Second Section. Same formations except that umpire is dressed in "battle order" - less weapons.</p>
<p>"Well what is wrong now!"</p> <p>SEC COMD (in a quieter voice - obviously trying not to give away his position).</p>	
<p>"Well I think that I am lost!"</p> <p>UMPIRE (moving over, but still in a loud voice).</p>	
<p>"Well! - What a magnificent Section Commander you will be in a war! I would not like to be in your section!"</p> <p>(To Signaller) "Give me my map."</p>	<p>Section is undoubtedly embarrassed by the behavior and ignore local security to watch the Umpire</p>
<p>Umpire studies his map and (after a pause) says.</p>	
<p>"Well! I, also, am not too certain of where we are; but then, it is not my job to know this. Is it! (to Cpl). I think we are about here! (points to map). If we move due EAST, we should strike that creek and we can follow it back to the Battalion area.</p>	
<p>Cpl "But that creek is outside the patrol boundary! Besides! B Coy have a patrol working in that area."</p>	

.../3.

Dialogue	Remarks
----------	---------

Umpire. "Well! That does not excite me one bit!
I want to get back to my houchie before "stand to".
Get your patrol into gear and get moving due EAST!"

CPL (to leading scout) "John! We are changing
direction due EAST! There is a bearing! (points)
Move now!"

The section moves off.
However - it is a most
dispirited section!
The REALISM of the
exercise is no more.

SIGNALLER to UMPIRE "Will I inform the Coy Umpire
of the change of plan?"

UMPIRE. "No! What they don't know will not hurt
them! Let's get back to my houchie without any
more nonsense! I am getting too old in the head
to allow myself to be mucked about by amateurs!"

Commentator

This umpire - through lack of professionalism
and lack of interest has made a complete mess of the
situation! The responsibility for rebuking junior
commanders lies fairly and squarely with their superior
commanders - not with the umpire organisation! The
umpire, also, has failed to keep his next senior umpire
in the picture - and this is not the way to assist in
realistic control of the exercise.

"Let us see how another umpire would handle the same situation." New section begins to
move across in front
of spectators.

The section moves across in front of the spectators.
The umpire and his signaller are dressed in Patrol
Order. The Umpire, has, out his map and compass
and is, apparently, following the patrol's movements
on the map. The Section Commander halts the patrol
(by silent signals). The patrol go to ground and take
up a position of all round defence. The Umpire (and
his signaller) go to ground at the same time - but -
reasonably close to the Section Commander. The Sec
Comd, evidently, is having trouble with is navigation.
The umpire moves over - and goes to ground alongside
him.

UMPIRE. "Well? What's the trouble?"

CPL "I am afraid I'm lost".

UMPIRE. "What checks have been carried out - to find
your position?"

CPL "I don't know where to start!"

Dialogue	Remarks
UMPIRE. "Well! Let us see if you can establish your position! Where were you when you were last certain of your position?"	
CPL (Points to map). "There! At the creek junction!"	
UMPIRE. "OK! Accept that as a start point! Your patrol has been moving in <u>what</u> direction?"	
CPL. (Regaining confidence) "NORTH EAST!"	
UMPIRE. "Right! How! Now far have you come!"	
CPL. "I don't know! I did not appoint anyone to count paces."	
UMPIRE. "Well! That's a lesson to learn! Let's look at it another way! How long since you left the creek junction - and what has been your rate of advance?"	
CPL. (Looking at watch) "We have been moving about 1 hr 20 mins. I would say our rate of advance was about 1200 yards in the hour".	
UMPIRE. "That sounds reasonable! Well! What do you thing your position <u>is</u> ?"	
CPL. (Use protractor on map and then says - pointing to map) "Here, Sir".	
UMPIRE. "Well! How could you confirm your location?"	
CPL (looks at map) "Well I could patrol EAST to that creek junction - or - WEST to the knoll where the track crosses. If I went to the EAST I would be moving into B Coy patrol area - and - 5 Pl have a patrol in to area of the creek. So - I had better patrol to the WEST to confirm my position and then carry out my patrol tasks".	
UMPIRE. "That's good thinking! Carry on!"	
CPL. Briefs his patrol about change in plan, appoints two soldiers to count paces, and patrol moves on. Umpire writes message on a piece of paper and hands it to signaller - saying "pass this to Coy and Bn Umpire now".	
UMPIRE and SIGNALLER moves off with patrol - with sig passing the following message.	

Dialogue	Remarks
----------	---------

"1 this is 13. Ptl now loc GRID 641231. Ptl comd uncertain of position - but is patrolling WEST to KNOLL at GR 643230 to confirm position before carrying on with patrol. OVER."

Commentator

"I am certain that you can all see that the second Umpire is carrying out his responsibilities in a much more sensible manner. His handling of the situation has been such that there is no resentment on the part of the troops being exercised. He has admittedly helped the Commander to work out his solution but has done so in such a way as to build up the Commander's confidence and knowledge. At no stage did he assume command of the patrol and he kept his senior umpire informed. The umpire organisation was not out of phase with the troops being exercised. The troops were in patrol order - and so was the umpire.

Let us look at the DROP listing some of the DO's and DON'Ts for Umpires.

DROP No 2

Next

Do Keep Your Senior Umpire in the Picture

Note the difference between the first umpire and the second. The first patrol was out on a new circuit direction - and no one was in the picture. A poorly umpired situation!

Do Remember the Importance of the Umpire Position

Umpire No 1 has completely lost the spirit of the activity. He has destroyed the confidence of the soldiers in the umpire organisation. He has interrupted the normal command responsibilities.

Umpire No 2, on the other hand, realised that something had to be done but simply guided and encouraged the Section Commander to make his own decisions.

Don't Give Away Patrol's Position

Compare the activity of the two umpires during the demonstration. One conforming to the movement of the section and keeping his voice down the other walking around and taking in a loud voice. The behaviour of the first umpire would have exasperated the section and they would have lost interest in the exercise.

Dialogue	Remarks
----------	---------

Don't Dictate to Commanders

Well brought out in the demonstration.
Dictation causes resentment and loss of confidence.
Avoid it!

Conform with the Administration Applicable to Troops being Exercised

Dress and administrative instructions issued by own troops commanders will be complied with by the umpires! Do NOT make yourself different from the troops being exercised other than that difference occasioned by your employment.

In conclusion: We picked the situation of a SECTION patrol fro this particular demonstration. The Section Commander was a particularly junior one. Do not picture yourself in the same context at all times! You will have any experienced junior leaders who can work out their own solution. However - at times, with a patrol away from the main body, you may strike a similar situation. Something has to be done! We cannot have lost soldiers wandering around in the scrub and we are responsible for safety. Never, however, take over command if you face this problem. The way the second umpire handled the situation was the proper answer here.

Any Questions?

THE SNIPER INCIDENT
(Time 15 mins)

Dialogue	Remarks
<u>Commentator</u>	<u>Stage Manager</u> to position section in "arrow head" formation - and site enemy sniper - whist Commentator is summing up on previous demonstration. One soldier named "Smithy" is to have a piece of service flannelette tied prominently, to his equipment.
The next demonstration depicts the actions of an umpire moving with a section. The section comes under fire of an enemy sniper who fires two shots, and then, in keeping with the habits of the enemy makes off at best speed. In a situation of this type, there is no enemy umpire available and a greater responsibility is thrust upon the umpire moving with our own troops to retain realism.	
If you look to the RIGHT you will see the section lined up, ready to go. I would like you to particularly observe, during the demonstrations, the actions, not only of the umpire, but also of "SMITHY", the soldier who has the piece of service flannelette tied to his equipment.	
Now let us watch the demonstration!	MG "Smithy".
The section moves across the front of the spectators. The enemy sniper fires one shot! The section goes to ground and moves to good cover to search their front - all except "SMITHY". Slightly idle, and giving every indication of being a passenger, "SMITHY" goes to ground in an exposed position. The Umpire observes all of the section. He notes "SMITHY's" exposed position and positions himself close to "SMITHY".	The section moves off.
The sniper fires a second shot! This time the umpire awards a casualty - "SHOT GUN WOUND - SHOULDER" - to "SMITHY". "SMITHY's" acting (as a casualty) is not very realistic. The umpire moves to the next soldier and informs him that "SMITHY" has been hit.	
SECOND SOLDIER "Cpl! Smithy has been hit!"	
At the same time the sniper, who has been sneaking away, breaks across some open ground. A third soldier fires at the enemy sniper! The Umpire moves across to this soldier and says: "When you fired, he fell down, but got up and ran on, I think you might have hit him".	

Dialogue	Remarks
----------	---------

THIRD SOLDIER. "Cpl! I think I hit him!
He fell over when I fired, but got up again
and ran on".

CPL. "Right oh! We will search the area!
John! take the machine gun group to that tree
- and cover us! I will take the remainder of
the section around to the RIGHT, to search the
area!" (To second soldier) "You look after
SMITHY!"

Second deploys and searches the area accordingly.
Third soldier indicates the area he saw enemy and
Cpl searches. Umpire to Cpl:

"There are a few spots of blood in this area
here! They indicate that you hit, but only wounded
him! He managed to keep going!"

The Sect Comd posts his security and commences
to reorganise his section. The Umpire tells the
Cpl "Ammunition expenditure for the event was ten
rounds SLR!"

Whilst the Sect Comd reorganises his section
and begins to look after SMITHY, the umpire is
writing his log. He then passes it to his signaller
and says "Pass that to the Coy and Bn Umpires."

The signaller picks up his set and passes the
following message:

<p>1. This is 13. At 1110 hrs 5. Sect were engaged by enemy sniper loc GR 136749 En withdrew after inflicting one casualty - Pte T.W. SMITH, gunshot wound RIGHT SHOULDER. En sniper wounded but escaped. Ammo expendi- ture, own tps, 10 rounds SLR. Over!</p>	<p>Section and Umpire move off to the rear of the spectators (at the double).</p>
---	---

Commentator

"This type of activity could happen to any
umpire without notice. The umpire must always be
prepared for this type of situation. This leads
us to the first lesson of the demonstration.

Always move in a position where you can
observe the actions of the leading troops.

You will have noted that the umpire awarded
no casualties on the first shot, but carefully
observed the section and noted that "SMITHY" was
idle and had not gone to ground. On the second
shot "SMITHY" became a casualty.

Dialogue

Remarks

Soldiers usually find out fairly quickly if one of their comrades is hit; but "SMITHY", as usual just knelt there, and did not act as though wounded. To add to the realism, the umpire pointed out to the next soldier that "SMITHY" was hit and let the message be passed on within the section.

The umpire then continued to observe the section activities and noticed that one soldier held a good view of the withdrawing enemy - and had fired an aimed shot at him. He used his own initiative and told the soldier he could have hit him as he fell over.

Later, when the area was searched, the umpire described blood stains where the sniper had been hit. This type of imagination gives the patrol some reward for their energy, and if they realise that they will get results if deserved, they will retain interest and try harder.

As the section commander was reorganising his section, the umpire was filling in his log. He then passed it to his signaller, who had been trained by his umpire, and was able to pass all columns of the log (except the remarks column) to the senior umpire without delay.

In summary; from this demonstration the main lessons we have seen are:

- a. TRAVEL IN A POSITION TO OBSERVE EFFECTIVELY.
- b. DO NOT AWARD CASUALTIES WITHOUT REASON.
- c. ENSURE INFORMATION IS PASSED TO COMD.
- d. USE IMAGINATION - REWARD GOOD WORK.
- e. TRAIN YOUR SIGNALLER AS PART OF YOUR TEAM.
- f. KEEP YOUR LOG UP TO DATE.
- g. INFORM YOUR SENIOR UMPIRE IMMEDIATELY.

Any Questions?

Dialogue	Remarks
----------	---------

Commentator

"During this demonstration you will see a platoon come into contact with an enemy section post which has been sited to give early warning of, and to delay the approach of, the friendly forces, to a base area. As it normal with the enemy, the section will impose maximum delay; but as soon as the going gets tough, it will withdraw.

The Senior Bn Umpire has realised that the contact is likely to occur. He has arranged with the senior umpire of the enemy group to have a special radio net between enemy, and own troops, umpires. In addition, the senior umpire own troops, realising that a platoon action is close contact is ideally too much for one umpire has allocated a Pool Umpire to assist the normal platoon umpire. The umpires with own troops are deployed, one with the leading section and one in the area of Pl HQ.

The Net established comprises:

C/S 31 - Own troops umpire at Pl HQ.

C/S 31A - Own troops umpire with leading section.

C/S 52 - Umpire with enemy section.

Let us now watch the demonstration.

Platoon begins to move.

"31, 31A! This is 52! I can now see your leading troops. They are about 400 yds SOUTH of my position! The enemy position is deployed across the timber line, covering a frontage of about 40 yds. They can cover the open ground and the approach on to the position from your left. However!, on your right, the field is limited by the close timber. The enemy section commander has one rifleman covering the approach from your right. The enemy intend to open fire at approx 50 yds range. I would say; the initial burst of fire would have some effect, before your chaps went to cover. Any attack coming in from the left approach would need sophisticated fire support to ensure success; without heavy cas. The right approach is different! The section commander intends to withdraw as soon as he sees that you people are organized, and about to move. He will go along the timberline and then to your left.

Dialogue	Remarks
----------	---------

If the platoon commander organises effective fire support - let me know! I feel certain that you would get a couple of hits, with well-organised fire support. There are no tunnels! and the enemy have to run for cover when they get out of their pits. Any questions? Over".

"This is 31! No! Out"

"This is 31A! No! Out!"

"31A! This is 52! The enemy are about to open fire! Your fellows are moving well! The only ones we would get, I think, are the first, and second scouts. Anyone who moves forward of the second scout, would be in trouble! Over!"

"This is 31A! Roger! Out!"

Enemy open fire

Umpire moves up to leading scout. Awards KIA - then moves to second scout and awards "Gun shot wound to second scout!"

Leading section deploys! Volume of fire, such, that Sec Comd realises that it is above his capacity, and he is just closing up to get a better view. Umpire moves with section (pointing out effectiveness of fire) as section commander draws level with second scout.

The Platoon Commander (with his orderly) is edging his way forward to get a better view. The Umpire, accompanies him.

Platoon Commander stops!
Looks at map!

"31! This is 52! I can see your SUNDAY! He is edging his way forward - with another soldier. I can see that it is an R gp because the Pl Comd is waving his map around. He is under observation - and fire. Over!"

"This is 31! Roger! Out!"

The umpire awards a casualty to the orderly! - gunshot wound - fleshy part of the arm - and paints the picture of fire to the Pl Comd. The Pl Comd withdraws.

Dialogue	Remarks
----------	---------

Commentator

"The Pl Comd - having completed his recce - is now making his plan. In the meantime - the umpire with the leading section, is checking the position (forward) and painting the battle picture. The Pl HQ umpire is with the Pl Comd.

"52 This is 31A! This section has adopted some pretty good fire positions! They have picked up, in detail, your MG site - and - the rifle pit to my right of it! Withdrawal, from these two positions, would result in casualties! Over!"

"This is 52! Roger! Out!"

Commentator

Meanwhile - the Pl Comd has been issuing his orders and the Sec Comd are about to issue theirs.

"31A! 52! This is 31! The Pl Comd intends to attack around the right, using the leading section as a fire section. Move off from present location - in 5 minutes. Control of fire section - visual. He has realised the importance of the covered approach. Out!"

Pl commences redeployment.

"31! 31A! This is 52! Enemy party are about to withdraw. They will leave two casualties when they leave pit. One KIA. One WIA. In addition, one soldier will fall as though hit. He will be picked up by a comrade, and carried off. Marked map will be on KIA. Over!"

"This is 31! Roger! Out!"

"This is 31A! Roger! Out!"

The attack is successful! The following activities then take place.

Commentator

"Umpire with fire section advised the Sect Comd that he has expended 300 rds SLR and 300 rds MG belt". The other umpire with the asslt sects does the same type of thing for the other two sects - and Pl HQ. Control will then come up".

Dialogue	Remarks
----------	---------

"31A! 52! This is 31! Pl attack successful!
Now reorganising! Close down and revert to
other nets! Over!"

"This is 31A! Roger! Over!"

"This is 52! Roger! Over!"

"This is 31! Close down now! Out!"

Commentator

"That demonstration should show, quite clearly, the value of a direct net between umpires (own troops) and umpire (enemy). The effect should be painted, accurately and effectively, on the ground. Success by the fire sect (in picking up to pits) was rewarded by having casualties awarded to the enemy from the discovered pits.

Note, too, the difficulty for the umpire in handling a platoon in an activity of this nature. The distances here were closed up. There is a need for more than one umpire when a platoon contact is made. Umpires must foresee these requirements - and position themselves accordingly.

The activity of the umpire (in dealing with the platoon R Gp coming under fire) must be noted. Imposing a casualty at this stage, to the commander, would have delayed the battle - and probably led to confusion. There may be times - when (in the interests of exercising sub-ordinates) casualties are awarded to commanders. An umpire will be notified through the umpire command system when this is desirable. Until this notification (and certainly in the early parts of the exercise) umpires will avoid creating casualties amongst the commanders".

To conclude - the major lessons to be learnt from this demonstration are: All umpires should learn to use their radio intelligently. They should ensure realism. Items of particular interest to opposing umpires are:

- a. Locations.
- b. Fields of fire.
- c. Intentions.

Do not destroy the command system - unless - there is a purpose. The early aprts of the exercise are the Bn "settling down" period.

IMPROMPTU INCIDENT

Dialogue	Remarks
----------	---------

Commentator

"In this demonstration, we see a platoon on a two day patrol. It is 1600 hrs on day 1 and the platoon is halted for the night. Clearing patrols have not been sent out. Little attention is paid to security.

The umpire with the platoon decides that enemy activity is desirable to highlight the lack of security.

Let us see how this is arranged!"

"1! This is 13! Now in loc GR 641232 and basing up for the night. Platoon drill (in occupation of harbour) very poor! No security! No preparation of fire trenches. I would like an impromptu incident to enliven things. Can this be arranged? Over!"

Commentator

"The request now goes from the Coy Umpire to the Senior Bn Umpire. The Senior Bn Umpire contacts the Senior Enemy Umpire to see if he has any troops available. It is decided that something can be done. The detail will be arranged by sub unit umpires on the spot. The information is passed down to the umpires together with a frequency (on which to operate)".

"51! This is 13! I am with 3 Pl at GR 641232. They have taken no real precautions to ensure security of their base-up position. I would like you to arrange some sniping from around the perimeter! Don't spread your snipers over too large an area! As soon as a clearing patrol gets under way, you should withdraw! Over!"

This is 51! Roger! I will call you when you are in position! Out!"

Commentator

"The incident is arranged! Note that, in arranging the incident, the umpire (own tps) is displaying a realistic approach to the situation:

- a. No attack

Dialogue

Remarks

- a. Keep the snipers concentrated.
This ensures no cowboy and indian games around the perimeter. Umpires can perform their role more effectively if control is maintained. In addition! If the poor old Platoon Commander was sniped at from all regions you would be driving him mad instead of highlighting a lesson. Don't bring about unnecessary confusion! It hides the point which you are trying to highlight".

"Now, the enemy is closing up to the position. Let us see what happens!"

"13! This is 51! I am closing up on to your position now! I am directly NE about 100 yds. Your sentries, apparently, have not discovered us. There are three snipers! In two minutes they will open fire! Their targets will be; The sentry who is leaning against a tree and reading a book. And the two soldiers, without shirts, behind him. Over!"

"This is 13! Roger! Out!"

End of Demonstration

"That concludes our demonstration. You may well ask; 'What does the umpire do if there are no enemy in reasonable distance of the patrol. How, then do you highlight the problem of poor security?' Well! If this platoon does it once, it is certain to do it again! A report of poor security (by a platoon) on one patrol, will result in that platoon coming (in the future) under observation. The Sen Umpire will, knowing the particular weakness of this platoon, arrange an incident to highlight the weakness on a subsequent patrol activity. Where no enemy are available to co-operate, the weakness must be noted. It is then left for later enemy participation to highlight the weakness.

However, in the demonstration, the enemy was available! Let us now review the major lessons brought out by the incident:

Firstly; communications! The importance of good communications was, again, highlighted.

Dialogue

Remarks

Do not hide the value of the lesson you are about to highlight with an uncontrolled, or unrealistic, enemy effort. Keep the enemy activity to a reasonable level, so the lesson can be noted, and corrective action is within the capacity of the troops to whom you are trying to highlight the deficiency. The umpire (own tps) - by ensuring that the enemy effort is confined - has:

- a. Highlighted the shortcomings in lack of security.
- b. Given the Pl Comd a problem resulting from his own carelessness - but within his own capacity to overcome.

We halted the demonstration as the incident was about to occur. The remainder of activities such as awards of casualties have already been demonstrated, and I am certain you will realise that after the incident is over, the umpires would revert to their own nets, and give their reports on the incident.

Please remember that if there are no enemy within the area to stage the incident; note the shortcomings of the Platoon, and report them.

The Senior Umpire will note the shortcomings, and try to arrange an incident, later. You cannot realistically, create the situation to highlight shortcomings of this nature without an enemy.

Every umpire must be thoroughly briefed communication-wise. He must understand the nets in existence and must keep, not only himself, but his signaller thoroughly briefed. Without good communications the exercise will lack realism, and soldiers will become bored. Communications are extremely important and we must, all appreciate their importance".

However, in the demonstration, the enemy was available for review the major lessons brought out by the incident.

Firstly; communications was again highlighted. of good communications was again highlighted.

Distribution List A

ADMINISTRATIVE INSTRUCTION 5/72

General

1. 6 RAR Admin Instr 4/71 is cancelled.
2. Efficient administration is necessary to ensure that members of 6 RAR receive all entitlements to which they are due and for the maintenance of high morale.
3. All officers, NCOs and soldiers of 6 RAR should ensure that they carry out administrative functions to the best of their ability. To ensure efficient administration, a programme of internal checking is to be carried out within the battalion. Check lists are at Annex A (Company and Bn HQ Pl) and Annex B (Battalion).
4. The battalion "A" checking officer or warrant officer will be nominated at the beginning of each month to carry out these checks. These duties have priority over normal duties.
5. References. These are indicated in the appropriate Annex and must be read before commencing the check.
6. AAB A83s Annex C is to be submitted by Coy 2ICs to the Adjutant by the end of each month.

ANNEX C TO
6 RAR R571/1/1
DATED OCT 72

AAB A83 RETURN

1. I certify that a 100% check of AAB A83s has been carried out in the presence of members for the month of _____
2. The following errors/alterations have been carried out by orderly room staff (use reverse side if insufficient space):

Date:

Coy

Capt
Coy 2IC

Comd's Room

// Oct 72

See Distribution List

UMPIRE EX SILVER KRISGeneral

1. Umpires for the above exercise are to be provided by the following:
 - a. Australia 6 umpires plus signallers.
 - b. UK Forces Hongkong 3 umpires.
 - c. ANZUK Spt Gp 1 umpire.
 - d. 6 RAR 6 umpires plus 10 signallers.

Allocation

2. Umpire and signaller allocation to units/sub units is shown in Annex A.

Umpire Course

3. An umpire course will be conducted at Control HQ over the period 16-17 Oct.
4. The following 6 RAR personnel who have attended previous umpire courses are not required to attend on 16 Oct but will attend a special briefing to be given to the UK umpires on 17 Oct (see para 8).
 - a. WO Turner
 - b. WO Rankir
 - c. Sgt Langabeer
 - d. Sgt Kent
 - e. Sgt Wilson

Outline Programme

5. The outline programme for umpires is contained in Annex B.

Reception

6. The Adjt is responsible to arrange for the reception of visiting umpires arriving as follows:
 - a. AS Umpires/Signallers (12)
Flt BU631 ETA Tengah 1530 hrs 13 Oct.
 - b. UK Umpires (5)
Flt RB 202 ETA Paya Lebar 1100 hrs 16 Oct.

Deployment

7. Umpires and signallers are to deploy at the following times:

.../a.

a. ETD Singapore for Control HQ 1330 hrs Sun 15 Oct:

- Maj Devitt)
- Capt Deak)
- Capt Steel) Ex-Aust
- Capt Jensen)
- Capt Allanson)
- Capt Winter)
- Capt Woodcock - Anzuk Spt Gp
- Sgt Harriss - 6 RAR
- All AS Signallers(6) - Ex-Aust
- Pte Booth)
- Pte Martin)
- Pte Eales)
- Cpl Robinson) 6 RAR
- Pte Hale)
- Pte Kooner)
- Pte Bullman)
- Pte McNaught)
- Pte Platt)

Signaller from 1 Lt Bty (Capt Woodcock)

b. ETD Singapore for Control HQ 1500 hrs 16 Oct:

- 3 x UK Majors
- WO Turner
- WO Rankin
- Sgt Langabeer
- Sgt Kent
- Sgt Wilson.

8. Umpires detailed in para 7a will attend the full umpires course 16/17 Oct. Umpires detailed in para 7b will attend a special briefing on the morning of 17 Oct.

9. Umpires and Signallers with 6 RAR platoons and 1 Lt Bty will marry up with their platoons on the afternoon of 17 Oct. Umpires/Signallers will move by vehicle or helicopter to their respective platoons under the direction of the AQ officer at Control HQ.

10. Umpires/Signallers with RNZIR will remain at Control HQ on the night 17/18 Oct and marry up with their respective companies at the unit assembly area at Keluang airfield on 18 Oct.

11. Umpires/Signallers with RHF are to remain at Control HQ until 19 Oct when they will also marry up with their respective RHF company in the unit assembly area on Keluang airfield.

Administration

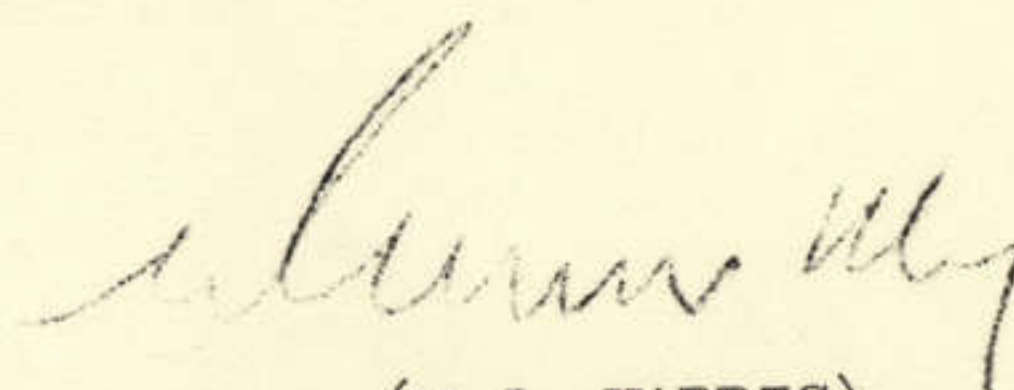

12. General. The Adjt is responsible for all administration of umpires/signallers until their movement forward to Control HQ.

13. Rations

a. At Control HQ. Umpires/Signallers are to be provided with hot box meals with the Control HQ staff by A Echelon in accordance with para 7.

.../b.

- b. Deployment - Friendly Umpires/Signallers. Umpires/Signallers with RNZIR and RHF are to be issued with three days rations to cover their initial deployment. Thereafter they are to be rationed for by the respective RHF and RNZIR company.
- c. Deployment - Enemy Umpires/Signallers
- (1) Whilst at Control HQ umpires/signallers are to be rationed for by A ech with Control HQ staff (para 7).
 - (2) Enemy umpires/signallers are to deploy with 3 days rations. Thereafter they are to be rationed for by the 6 RAR company they are attached to.
- d. Equipment
- (1) The Adjt is to arrange for Q issues of field equipment and expense items (to include paludrine) to all umpires before their departure for Control HQ.
 - (2) Umpires will be provided with signallers from either 6 RAR or Australian.
 - (3) Whilst at Control HQ umpires/signallers will be required to use their own field equipment for accommodation.
 - (4) Signallers are to be issued with spare radio batteries before departure from Singapore.
- e. Transport. The Adjt is to arrange all transport requirements with the Transport Officer.

Distribution List B

POSTAL SERVICES
GARRISON POST OFFICE

Reference: A. 6 RAR R499-1-6 dated 10 Jan 72.

1. Under the FPO postal system concessionary rates are available as follows:

- a. for Australian personnel, concessions to Australia only;
- b. for British personnel, concessions to British FPO addresses; and
- c. for NZ personnel concession rates to New Zealand only.

Australian Service Members

2. For mail to Australia, the envelope must be endorsed with the sender's No, Rank, Name and address on the back and Forces Concession written on the front. Australian stamps must be used and are obtainable from the Garrison Post Office.

3. For mail to countries other than Australia, Singapore stamps must be used and there is no concessionary rate. Such mail may also be sent through the Garrison Post Office.

British and New Zealand Personnel

4. For countries other than where concessionary rates are available, Singapore stamps must be used and the Garrison Post Office possesses this facility.

5. For mail to Britain or New Zealand the relevant stamps must be affixed to the envelope when delivered to the Post Office as no British or New Zealand stamps are held.

Make Up and Packaging

6. To qualify for concessionary rates, all items should be packaged and endorsed as indicated below:

- a. Letters. The words "FORCES AIR MAIL" should be endorsed on the upper portion on the front of the envelope and the sender's full unit address on the back.
- b. Parcels. The words "FORCES PARCEL" should be clearly endorsed on the cover of the parcel and the sender's full unit address on the back, and also the customs declaration. Parcels to be posted must not exceed the required specifications ie. length plus the greatest girth no more than 72 inches and the weight not to exceed 22 lbs. Parcels must also be soundly and securely wrapped.

.../2

Collection of Mail

7. The collection of mail by unit/sub-unit lots is to be by the unit/sub-unit clerk or a nominated person. On stand-down periods or weekends the orderly Cpl only is to collect mail.

Money Orders

8. These are not accepted by the Kangaw Barracks Post Office.

Insurance of Parcels

9. This service is only provided by a civilian post office. Parcels to be insured should be tied with strings and the flaps are to be sealed with sealing wax and personally imprinted.

Hours of Business

10. a. Monday to Friday

0815-0945 hrs
1115-1200 hrs
1330-1400 hrs
1515-1600 hrs

b. Saturday

1130-1200 hrs (approximate times only subject to mail arrival times, mail collection only)

Additional Facilities

11. Besides the normal letter and parcel collection and dispatch, the Post Office offers the following facilities:

- a. registration of letters and parcels, with rates as listed in Annex A;
- b. the following five types of telegrams are accepted by the Post Office at the respective rates as listed in Annex A but at present this is suspended until further notice by ANZUK Forces Post Office:
 - (1) EFM coded telegrams;
 - (2) Letter Telegrams (LT);
 - (3) Greeting letter telegrams (GLT);
 - (4) Ordinary telegrams;
 - (5) Urgent telegrams; and
- c. a letter box is provided outside the Post Office for the posting of letters only when the Post Office is closed but money is not to be attached to the envelope in lieu of stamps.

12. Reference A is cancelled.

305. IMPROPER USE OF EXPLOSIVE DEVICES, PYROTECHNICS AND TRAINING AMMUNITION

1. The indiscriminate use of explosive devices, pyrotechnics and training ammunition including thunderflashes is dangerous and can cause injury particularly if exploded inside a building.

2. Such explosive devices, pyrotechnics and training ammunition are not to be used except on authorised training.

306. IMPROPER POSSESSION OR CARRYING OF ARMS AND AMMUNITION

1. Civil and Military Law imposes severe penalties in respect of unauthorised carriage or possession of arms, explosives, etc.

2. All ranks are therefore forbidden:

a. to carry or to be in possession of any private firearm, ammunition or explosives whether serviceable or otherwise unless the possessor holds a current licence granted by the civil authorities for the said firearm, ammunition or explosives; and,

b. to carry or to be in possession of any service firearm, ammunition or explosives of any kind except when in connection with a specific duty or when ordered by the appropriate service authority.

3. 6 RAR Routine Order No. 223/72 is cancelled.

.../307.

307. SECURITY - OFFICIAL SECRETS

The attention of all members of 6 RAR is directed to those parts of the Crimes Act 1911-1960 and of the Defence Act 1903-1966 which deal with the safeguarding of official secrets and to the severe penalties which may follow the unauthorised disclosure, intentional or unintentional of official information. Extracts from the Acts are set out in Annex A to Chapter 11 of ANZUK Force Security Instructions.

308. SECURITY - INSTALLATION AUXILIARY POLICE FORCE

1. The Installation Auxiliary Police Force is responsible for security within ANZUK installations and secured areas.
2. Their duties also include the control of entry and exit through gates and the patrolling of specified areas within the installations.
3. All members of 6 RAR are to produce identity cards when requested to do so by a member of the Installation Auxiliary Police Force.
4. Instructions given by a member of the Installation Auxiliary Police Force on duty, are to be complied with.
5. Any difficulty experienced by members of 6 RAR in connection with members of the Installation Auxiliary Police Force should be reported to the Adjt.

309. ARMY PROMOTION EXAMINATION 1973 - PROMOTION TO MAJOR AND ENTRANCE TO STAFF COLLEGE - SUBJECT 3F CURRENT AFFAIRS

Conduct of Examination

1. The examination in Subject 3F - Current Affairs, will be conducted in accordance with instructions contained in the Promotion Manual, Chapter 3, Annex D.

Topics for Study

2. The topics selected for 1973 are:
 - a. China. A study of the international relations of the People's Republic of China since the end of the Cultural Revolution.
 - b. Pakistan. A study of the economic and political problems of Pakistan (formerly West Pakistan) and her international relations since the end of the India Pakistani War of 1971.
 - c. East and West Germany. A study of the significance of the division of Germany for post-war international relations and of the attempts to reach an agreement between the German Democratic Republic and the German Federal Republic since the formation of Herr Brandt's government in 1969.

.../d.

RESTRICTED

- 4 -

- d. Singapore. A study of Singapore's economy, her system of government and her internal and external problems.
- e. Papua New Guinea. A study of Papua New Guinea's present economic and political problems.

310. FOREIGN AWARD - VIETNAMESE CROSS OF GALLANTRY WITH PALM

1. Owing to an oversight when the emblems were purchased it has been found that an incorrect device has been affixed to some of them.
2. All members entitled to the award are to be checked and where it is found the device differs from that shown in ARO 109/71 they are to be directed to remove it from the emblem and return it to CARO for replacement with the correct device.

311. KANGAW SGTS MESS - MESS MEETING

The regular monthly mess meeting of the Kangaw Sgts Mess will be held at 1200 hours Tue 10 Oct 72. All 6 RAR members not on essential duty are to attend.

312. MOSQUITO LARVAE SURVEYS - OCTOBER 1972

1. ANZUK HMCS is to carry out routine surveys during Oct 72, in accordance with the programme shown below.
2. Surveys are made to detect mosquito breeding and/or potential mosquito breeding in unit/MQ areas. Where mosquito breeding is detected in MQs the occupant is informed, at the time of the visit, in writing.
3. "Domestic" mosquitoes breed profusely in even the smallest collection of stagnant water. Old tins, empty bottles, saucers under flower pots, coconut husks, blocked gutters/drains and old tyres are among the more common sources of trouble. Fire buckets should be emptied at least once weekly. Before refilling they should be thoroughly scrubbed internally and sun-dried. A very sound maxim is "NO STAGNANT WATER - NO MOSQUITOES".
4. HMCS Inspectors and their assistants who carry out these surveys are in possession of a unit "authority" card and wear a green identification badge on their left breast pocket.

1. The Department of Primary Production Singapore Government are to carry out an extermination programme of stray dogs in the following locations on the dates shown:

- a. Mon 9 Oct 72 - Gillman Married Quarters area.
- b. Wed 11 Oct 72 - Sembawang ANZUK Base (Nee Soon - Kangaw - and Dieppe Barracks).

2. Owners of dogs are reminded that pets are to wear collars with an identification tag at all times and that pets are not to be allowed to run loose.

3. Animals found running loose are liable to be removed as strays.

314. LOCAL LEAVE TRAVEL

Reference: A. MBI 168-12 paragraph 115

1. In terms of the reference, East Malaysia is not considered as part of Malaysia for purposes of free travel on local leave.

2. Free travel is to West Malaysia only.

315. INDULGENCE PASSAGES - RAF AIRCRAFT

1. All personnel are reminded of the regulations governing indulgence passages on RAF aircraft:

- a. Under no circumstances is personal contact to be made to any part of ATMA for information regarding specific applications. Upon receipt of an application ATMABOOKSIN will issue a receipt acknowledgement, no further action will be taken unless the prospects of a seat seem likely. When a call forward can be given it will normally be at short notice ie 48 hours and less.

.../b.

RESTRICTED

RESTRICTED

- 6 -

- b. Indulgence applications will be returned unactioned if submitted more than three months before the requested travel date.
- c. Letters of amendment to indulgence applications will only be accepted when advising a new contact address, or when extending the latest date of travel within the overall maximum time span of one month. All other amendments are to be made by the submission of new RAF Forms 2768 (IND).
- d. Indulgees will not be emplaned by ATMA Tengah unless ATMA BOOKSIN has issued a call forward.

2. The regulations concerning indulgence travel are given at ANZUK Movement Instructions Chapter 18.

RESTRICTED

RESTRICTED

- 8 -

NOTICES

VOTING AT ELECTIONS

1. Army Headquarters have advised that although the date of the next House of Representatives Elections has not been notified, the most likely time appears to be November, 1972.

2. The following is promulgated for the information of members of the AMF on service outside Australia regarding voting at elections.

a. Voting

- (1) Relevant Commonwealth and State Acts/Ordinances show that voting is compulsory.
- (2) Subject to a Returning Officer/Electoral Officer being satisfied, there are certain grounds for exemptions. With the exception of Victoria, absence from the Commonwealth/State on polling day, when presented as an excuse, is accepted by the Returning Officer. For Victoria, a valid excuse must be presented for consideration by the Returning Officer.
- (3) It is to be appreciated that voting is a matter for the individual and is his responsibility. The Army, when requested by the relevant electoral authority, will bring an election to the notice of members and arrange any special facilities considered necessary to allow the member to exercise his franchise to vote.

b. Enrolment

- (1) A member is not entitled to vote unless enrolled. This applies to a member resident in Singapore who has been struck off his last Electoral Roll.
- (2) There is no legal requirement for members to enrol whilst remaining overseas.
- (3) However, if a member wishes, he may apply for enrolment in the electorate to which he intends to return on RTA. If he does not know his place of posting on RTA or does not own a house to which he will eventually return, he is ineligible to enrol. This situation also applies in Australia if a person does not reside in the one district long enough to establish residence under the provisions of the Electoral Act.

3. Arrangements for the issuing of Postal Vote Certificates and Postal Ballot Papers to members stationed in Singapore for the forthcoming Elections are to be advised when known.

.../9.

RESTRICTED

RESTRICTED

- 9 -

ANZUK MILITARY HOSPITAL - RECEPTION

1. Reception Department of ANZUK Military Hospital has been relocated on the 4th level beside the Casualty Department.
2. Access to Casualty/Reception is via HENDON ROAD.
3. Telephone numbers remain unaltered.

"LIFELINE" DOG EXCHANGE

Most military families in Singapore choose to have a dog as a deterrent to would-be burglars.

To ensure that dogs are not discarded as strays or unnecessarily destroyed when a family returns home, a dog exchange service, known as "Lifeline", is operating.

If you would like to acquire a dog whilst in Singapore you should phone "Lifeline" and make your requirements known.

The number is: Civil 87-863 between 8-9 p.m.

There is no charge for the service, but because "Lifeline" takes in stray or sick dogs and cares for them until they can be housed, the organisation does have expenses to meet. Donations therefore are welcomed.

319. TRAFFIC RESTRICTIONS NEE SOON CAMP - VISIT OF HRH THE PRINCESS MARGARET

1. During the visit of HRH Princess Margaret on 18 Oct 72 and the dress rehearsal on 12 Oct 72 certain minor disruptions to traffic in Nee Soon and Chip Bee will be inevitable. The following areas will be particularly affected during critical times:

- a. CHIP BEE - Access roads to estate closed from 0915-1100 hrs.
- b. NEE SOON - Main gate closed from 1050 - 1115 hrs and from 1425 - 1435 hrs. In addition roads throughout the camp will be closed during the morning to permit free movement of the Royal motorcade. Delays are not expected to be in excess of 15 mins.
- c. Details of medical coverage for families in both areas will be issued separately.

2. Directions given by civil/military personnel doing traffic control are to be strictly adhered to.

.../320.

320. KANGAW SWIMMING POOL - CLOSING

1. The KANGAW Swimming Pool will be closed for necessary repairs and maintenance from 16 to 22 Oct 72 inclusive.
2. The pool in NEE SOON will remain open.

321. KANGAW CLUB

1. The NAAFI staff Kangaw Barracks is taking the opportunity of getting its members away on leave during the slack period from 16 - 28 Oct 72.
2. The Pool Kiosk, Junior Ranks Bar and Tavern Bar will be closed during this period, leaving the Cpls Bar and Oasis Club open for normal service to all patrons for the above period.

322. LEGAL SERVICE BUREAU

1. The Australian Attorney General's Department has advised that it will extend the services of the Legal Service Bureau to all serving members of all three Services through the offices of the Legal Service Bureau in all capital cities. The service is provided in Australia only and there are no offices in Singapore.
2. This assistance was previously limited to persons qualifying under the Re-establishment and Employment Act, and not to all servicemen. The extension of the service by the Attorney General's Department will result in a degree of legal assistance being made available to all servicemen.
3. The assistance offered will be limited to legal advice and assistance short of litigation. A complete service will be available to those servicemen whose problems concern the drafting of letters, short and simple wills, powers of attorney or consolidation of debts. In all other cases however, servicemen will be referred to a firm of solicitors selected from a panel maintained by the Legal Service Bureau. These firms charge professional costs, but at a rate less than the normal rate charged.

323. SPORT - RUGBY UNION

The following members have been selected to play a rugby XV from HMS LINCOLN at Woodlands Garrison at 2000 hrs Tue 10 Oct 72:

.../VISIT

VISIT OF AUSTRALIAN ENTERTAINMENT GROUP

An Australian Army sponsored group of leading Australian entertainers is to visit Singapore during the period 11 - 16 Nov 72.

The group consists of:

- John Meillon
- Bunny Gibson
- Dinah Lee
- Marilyn Taylor
- John Holmes
- Bruce Webber
- Ted Preston
- Alan Gilbert
- Harry Meeking

The outline itinerary is as follows:

- Sat 11 Nov - Gymnasium Woodlands ANZUK Base
- Sun 12 Nov - 1500 Changi Hospital
- Sun 12 Nov - 1930 Changi Families Club
- Fri 10 Nov - Kangaw Barracks (6 RAR)
- Thu 9 Nov - Seletar Families Club

A detailed itinerary is to be prepared and will be issued as soon as possible. Units are requested to publicise the visit prior to the issue of the detailed itinerary to ensure maximum attendance by serving members and dependants at the various venues. Admission to all performances is free of charge.

CONCESSION FARE ON CHARTER AIRCRAFT - SABER AIR

1. ATMA has negotiated concession fares with SABER AIR Pte Ltd for charter flights between Singapore and London. The special rates apply to all members of the ANZUK Force and their immediate families.
2. SABER AIR, owned 80% by the Singapore Government, operates Douglas DC-8-61 250 seat aircraft. Effective 1st October 1972, SABER AIR will operate two charter flights weekly, departing Singapore on Tuesdays and Saturdays and departing London (Gatwick Airport) on Mondays and Wednesdays. Flights depart Singapore at 10 p.m. (2200 hours) and arrive London at 1200 noon. The return flights depart Gatwick at 4 p.m. (1600 hours) and arrive Singapore at 6 p.m. (1800 hours).

Concession Fares

3. The normal fares (effective 1 Oct 72) and the concession fares available to members of the ANZUK Force for flights between Singapore and London are compared below:

<u>Adult</u>	<u>Normal S\$</u>	<u>ANZUK S\$</u>
Per seat one way	525	465
Per seat round trip	1050	930

../Children

	<u>Normal S\$</u>	<u>ANZUK S\$</u>
<u>Children</u> (Aged 2 to 11 years inclusive)		
Per seat one way	263	233
Per seat round trip	525	465

Infants (Under 2 years)

One way	53	47
Round trip	105	93

Notes: 1. No seat will be allocated to infants under 2 years of age.

2. Baggage allowance is 55 lb for each adult and child over 2 years. No baggage is allowed for infants under 2 years.

How to obtain concessions

4. Persons wishing to avail themselves of this offer are to call personally at the ATMA Singapore Booking Office to collect a letter of introduction. They should then present this letter to the booking staff at:

Air Tours International Private Limited,
45-D Robinson Road,
4th Floor, Ramayana Building, Singapore 1.

5. Should members of the ANZUK Force wish to fly by SABER AIR from London only, they may present the same letter of introduction to the Saber Office in London and they will be charged the agreed special rates. The London office is located at:

Saber Air Private Limited,
Empire House,
175 Piccadilly Circus,
London W1 (Phone: 01-493-2239)

6. Reservations should be made as far in advance as possible to ensure seats on the required flight. A 10% deposit (non-refundable) is payable at the time of reservation, and the full amount must be paid at least seven days prior to the flight. Seats must be re-confirmed at least 72 hours prior to the flight.

HONG KONG VISITORS - SPECIAL HOTEL RATES

1. ATMA have negotiated special rates with the PARK Hotel in Hong Kong for all ANZUK personnel and dependants on duty and on leave. The PARK Hotel is a modern, fully air-conditioned, fifteen storey hotel, conveniently located in the heart of Kowloon. The room and meal rates are most reasonable by Hong Kong standards.

.../2.

2. The special offer, available to ANZUK personnel and dependants, is as follows:

- a. Less 25% on room rates.
- b. Where children stay in same room as parents:
 - (1) Cot - free
 - (2) Extra bed - extra HK \$20 per day for children over 10 years, and an extra HK \$10 for children under 10 years.
- c. Where children share existing room facilities with parents:
 - (1) Children under 10 - HK \$10 per day.
 - (2) Children under 4 - free.
- d. Free transport will be provided on request between the hotel and KAI TAK International airport.

3. Any persons wishing to avail themselves of this offer should call at the ATMA Singapore Booking Office to collect a letter of introduction. Hotel Bookings for personnel or dependants travelling on leave are the responsibility of the individual concerned, not ATMA. On arrival at the Park Hotel, guests should hand the letter of introduction to the reception manager who will ensure that the special rate is applied.

4. The address of the Park Hotel is:

Chatham Road
Kowloon
Hong Kong.

The telegraphic address is "PARK HOTEL" and the telephone number is K661371.

5. The present tariffs are:

	HK \$	SIN \$ (Approx)
Single Rooms	80.00	40.00
	90.00	45.00
Double Rooms	100.00	50.00
	120.00	60.00
	140.00	70.00
Suites	170.00	85.00
DeLuxe Suites	250.00	125.00
	280.00	140.00

Table d'hote meal costs are:

Continental Breakfast	5.50	2.75
Full Breakfast	9.00	4.50
Lunch	15.00	7.50
Dinner	18.00	9.00

../Notes:

- Notes: (1) All rates plus 10% service charge plus 2% Government Tax.
- (2) Rates subject to change without prior notice.

BRITISH FORCES BROADCASTING SERVICE SINGAPORE

Introduction

1. With the disbandment of Far East Command arrangements were made for the British Forces Broadcasting Service (BFBS) in Singapore to be reduced to an unmanned station transmitting certain BBC programmes.
2. Towards the end of 1971 however it became possible to retain the site at Tanglin and a start was made to obtain agreement to retain a manned station in Singapore.

Progress

3. Australia and New Zealand, who had previously stated there was no requirement for a BFBS station in Singapore, have now joined with the United Kingdom in the operation of the BFBS for the ANZUK Force in Singapore.
4. Prior to any possibility of BFBS being other than an unmanned station many of the assets were transferred to other BFBS stations and the assets in Singapore are now being built up again.

Operation

5. The operation of the Service is based on a planned staff of four United Kingdom civilians and six local employees but the staff will not be up to full strength for some time. The proposed staff is considerably smaller than that previously in Singapore so consequently the range of programmes will inevitably be more limited. It is planned however that use should be made of volunteer assistance.
6. The aim of BFBS is to provide a balanced radio service of entertainment, information and education for 75 hours a week with a purely national content of:

- a. United Kingdom - fifteen hours per week,
- b. Australia - ten hours per week; and
- c. New Zealand - five hours per week.

Advisory Committee

7. An advisory committee has been formed to assist the Station Controller with programme content and schedules. This committee consists of:
 - a. AAG HQ ANZUK Spt Gp (Chairman),
 - b. service representatives from Australia, New Zealand and the United Kingdom.

.../These

These are:

- (1) UK. DAA QMG BASS
 - (2) AS. DAAG (PS 2) HQ ANZUK Spt Gp
 - (3) NZ. SO2 (PR) NZ, HQ ANZUK Force
- c. Representatives from the Australian, New Zealand and United Kingdom High Commission; and
- d. a representative of BBC.

8. The committee met for the first time on 4 Sep 72 and was briefed by Mr I.J. Woolf, Director BFBS, on the background to national participation in the Service. The next meeting is to be held at 1100 hrs on 14 Nov 72.

Other Comments

9. It is planned that early in 1973 there will, in addition to the advisory Committee, be a meeting of unit representatives etc which will allow comment to be made on the programmes which should by then have been running in their new forms for some time.

10. Any comments, at this stage from members of 6 RAR should be made to the Asst Adjt.

SPORTS RESULTS

Results of Inter Company Sport Fri 29 Sep 72 were as follows:

ROUTINE ORDERS PART I

BY

LIEUTENANT COLONEL D.A. DRABSCH, MBE

COMMANDING OFFICER

6TH BATTALION THE ROYAL AUSTRALIAN REGIMENT

KANGAW BARRACKS

13 OCT 72

SERIAL 40

NUMBERS 325-328

- 325. ADMINISTERING COMMAND.
- 326. FREE FROM EXPLOSIVES CERTIFICATE.
- 327. MEDICAL COVERAGE - VISIT OF HRH PRINCESS MARGARET.
- 328. CHANGI GOLF COURSE.

RESTRICTED

325. ADMINISTERING COMMAND

1. 17069 Maj K.R. Schlyder is appointed to administer command of 6 RAR Rear Details from 18 - 24 Oct 72 inclusive during the absence of Lt Col D.A. Drabsch, MBE, on Exercise "SILVER KRIS".
2. 235323 Capt A.S. D'Hage, MC, is appointed Commander of Rear Details from 13-17 Oct 72 and 25-27 Oct 72 (dates inclusive) with powers of Company Commander during the absence of Lt Col D.A. Drabsch, MBE, on Exercise "SILVER KRIS".

326. FREE FROM EXPLOSIVES CERTIFICATE

Reference: A. Ammunition and Explosives Regulations Vol 2,
(Held by all Units)

1. In accordance with paragraph 433 of Reference A, an FFE certificate signed by an officer is to be attached to vouchers covering return of:
 - a. vehicles designed to carry ammunition;
 - b. consignments of a non-explosive ammunition salvage; and
 - c. recovered ammunition containers.

The certificate currently in use is shown at Annex 6 to Reference A.

2. It has been agreed that to make the certificate as shown legally valid, it would be necessary for the officer to inspect personally each vehicle or container. This is clearly not the intention of the certificate and a revised certificate as shown at Annex A to this Order is to be taken into use forthwith. This in no way affects the requirement of the Packing Note (AF G904) signed by the individual who examines the ammunition salvage or container.

3. Reference A will be amended in due course.

327. MEDICAL COVERAGE - REHEARSAL FOR, AND VISIT OF HRH PRINCESS MARGARET

Medical coverage for families of CHIP BEE and NEE SOON is now firm as follows:

- a. CHIP BEE. Appointments on 18 Oct 72 will not commence until 1100 hrs. Strictly emergencies only can be seen before this time on the day stated.
- b. NEE SOON. No appointments can be accepted between the hours of 1045 - 1130 on 18 Oct 72. In cases of emergency Woodlands ANZUK Hospital and the Kangaw Medical Centre are open. Delays as promulgated in RO 319/72 may occur.

25 OCT 72

SERIAL 41

NUMBERS 329-335

- 329. INTOXICATING LIQUOR.
- 330. DISCIPLINE - KANGAW CLUB - LITTER.
- 331. DRESS - WEARING OF HEADDRESS IN VEHICLES.
- 332. DRESS STANDARDS FOR PASSENGERS DEPARTING SINGAPORE.
- 333. ACCESS THROUGH MAYFLOWER GARDENS ESTATE.
- 334. BARRACK DAMAGES.
- 335. WARNING IN FOR RATIONS.

NOTICES

SANDES SOLDIERS' HOME.

RESTRICTED

329. INTOXICATING LIQUOR

Reference: A. 6 RAR Standing Orders, paragraphs 149-157.

Members of 6 RAR are to abide by reference A. In addition, liquor which is brought back to camp for posting as a gift or which is partly consumed, etc, may be lodged at the 6 RAR Guard Room for safe keeping. A receipt will be issued by the Guard Commander. The liquor is to be corked or stoppered. Members are not to return liquor to the lines (including company orderly rooms) for safe keeping.

330. DISCIPLINE - KANGAW CLUB - LITTER

1. Day after day time is spent in clearing the area of the Kangaw Club of litter - beer cans, bottles, glasses and papers, etc, which have been thrown from the windows and verandahs.

2. This practice is to cease forthwith.

3. Further infringements may result in closure of the club.

331. DRESS - WEARING OF HEADDRESS IN VEHICLES

1. When uniform is being worn, headdress is not to be removed by a driver or passengers travelling in a service or civil vehicle, except as in paragraph 4 below.

2. A crash helmet is only to be worn whilst actually riding a motorcycle/scooter, and is to be replaced by the usual headdress of the day as soon as the rider dismounts.

3. Headdress which in any way interferes with the driver's vision or comfort, including Hats KFF, is not to be worn by the driver. A beret or equivalent is to be worn in lieu.

4. Where it is impossible because of the size of the vehicle for a passenger to wear a hat, it may be removed. It must, however, be replaced immediately on leaving the vehicle.

332. DRESS STANDARDS FOR PASSENGERS DEPARTING SINGAPORE

1. All members of 6 RAR are reminded that, unless specifically instructed to the contrary, they are required to wear the following dress when travelling from Singapore.

a. Royal Air Force transport aircraft -
Suitable civilian attire (duty and indulgence passengers).

b. Royal Australian Air Force and Royal New Zealand
Air Force transport aircraft -
Uniform with long trousers and long sleeves
(duty and indulgence passengers).

c. Civilian chartered aircraft and scheduled
civilian flights -
Suitable civilian attire.

../d.

- d. Civilian ships - Suitable civilian attire.
- e. Malayan Railways - Suitable civilian attire or uniform (duty passengers only).

2. Intending passengers who report incorrectly dressed will not be permitted to travel unless special circumstances exist. In future, lack of knowledge of the requirement will not be accepted as a valid reason.

3. Male passengers travelling in civilian clothes on Service and civilian aircraft are encouraged to wear long trousers and long sleeves not made from nylon or other heat fusing materials. These will offer some protection in the unlikely event of fire.

333. ACCESS THROUGH MAYFLOWER GARDENS ESTATE

- 1. The Mayflower Gardens Estate is frequently used by ANZUK personnel as a short-cut to and from Changi.
- 2. All members of 6 RAR are reminded that, within the estate:
 - a. the speed limit is 20 MPH (this is mandatory in all housing estates whether limit signs are posted or not);
 - b. passage by lorries (i.e. vehicles of 1 ton and above) is prohibited; and,
 - c. particular care must be exercised to ensure the safety of children.

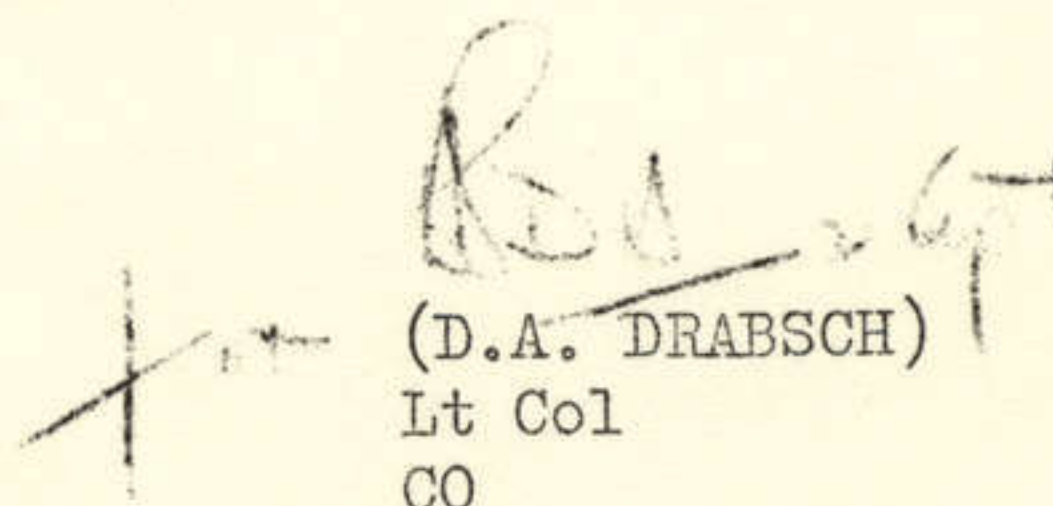

334. BARRACK DAMAGES

The following members of 3 Pl A Coy 6 RAR have each paid S\$1.07 barrack damages totalling S\$14.98 for repair of a door and replacing the lock (plus 15% Departmental expenses) of a wardrobe in Room 21 Bldg 58:

1411110	Sgt	R.J. Bettany	55874	Cpl	G.L. Hewett
