MONTHLY REPORT - AUGUST 1970

Reference: A. L607 SE Asia 6430, VIETNAM, Edition 3, 1:100,000

Operations

1. LO Detachments No change.
2. The Horseshoe Detachment (YS4952) 7RAR returned to The Horseshoe feature after a rest and training period at Nui Dat. HQ 7RAR now conducts battalion operations from this location. No change in RA Sigs support.
3. Det 1/25 (US) Sig Bn The two man detachment continued to provide communications with 2/25 (US) Bde at FSB Lynch (YS4584).
4. HQ 1ATF Deployment
 - a. HQ 1ATF deployed to FSB Le Loi II (YS4576) during the period 17-21 Aug 70.
 - b. The HQ was collocated with B Coy 8RAR at FSB Le Loi (YS4576).
 - c. The deployment (Operation QUICK TRAIN) was designed to test normal deployment procedures and the techniques of area defence.
 - d. Full deployment communications (tactical radio, radio relay, signal centre, switchboard and local line) were provided. This was the first HQ 1ATF deployment during the wet season for some years and additional communication problems were anticipated. In spite of the generally uncomfortable conditions, however, all communication facilities worked successfully throughout the deployment.
 - e. Det Deployment Tp 110 Sig Sqn deployed with the unit to provide the AN/MRC 69 link to HQ 1ATF (Rear).
 - f. Eight (8) copies of the 1ATF Signal Instruction, which was issued with the Operation Instruction for Operation QUICK TRAIN, are enclosed.
5. Operation MASSEY-HARRIS
 - a. A food denial operation, Operation MASSEY-HARRIS commenced on 28 Aug 70. The operation is being conducted in AO SUSAN, east of Xuyen Moc (YS6568) and straddles the Phuoc Tuy - Binh Tuy Province border. The mission of the composite tank/cavalry/infantry force is

to destroy illegal crops and garden areas within AO SUSAN. The operation should conclude on approximately 18 Sep 70.

b. 104 Sig Sqn has two (2) radio detachments deployed in support of the force. The first is with the force providing rear link communications on the 1ATF Comd Net (VHF) and the 1ATF Comd Net Secure (VHF). The second detachment is located at Xuyen Moc (YS6568) and is available to provide retransmission facilities on the 1ATF Comd Net (VHF) or the B Sqn 3 Cav Regt Comd Net (VHF), as required.

c. To date, direct communications have been maintained with HQ 1ATF (Rear) and retransmission has not been employed.

6. Patrols No TAOR patrols were conducted during the month due to unit commitment on other operational tasks.

7. Communication Security

a. Progress in this field is reflected in a very obvious and satisfactory increase in interest in this subject. The adoption of weekly-changing frequencies and call signs was effected without any serious problems appearing.

b. The revised distribution of SOIs (August 1970 report, paragraph 5a) has been completed and the September issue has been effected on this basis. The revised list has cut the distribution of complete copies of SOIs by over 50%.

c. Due to the HQ 1ATF deployment, and Operation MASSEY-HARRIS, the unit has been unable to commence RT procedure training (August 1970 report, paragraph 5b refers). It is hoped that courses may be able to start during the second half of September.

Line

8. The incidence of line faults during August decreased sharply providing some relief to the unit line detachment after the hectic latter half of last month.

9. The despatch of multipair cable, from both American and Australian resources, has been advised. Construction is to commence as soon as sufficient associated stores have been gathered. 39th (US) Sig Bn has offered the support of a cable detachment and cable vehicles for the task. Their offer has been gratefully accepted.

Switchboards

10. Preparations for the arrival of the Australian purchased AN/MTC - 1 are well under way. Although the initial unit plans for the housing of the switchboard were unacceptable to 198 Wks Sect, because of the quantity of

11. Negotiations are under way to have the old 8RAR SB-86/PT switchboard transferred to this unit when 8RAR returns to Australia. The 8RAR board is in poor condition and it is planned to use it to maintain EBONY CP switchboard which is also suffering from old age.

Reinforcements

24. The initial forecast for the replacement of the 4/68 National Service Intake, and ARA soldiers due for RTA in Sep 70, was most unsatisfactory and placed the unit in a potentially embarrassing operational position. Until unit representation was made (104 Sig Sqn A300 of 060300Z Aug 70 and 104 Sig Sqn A315 of 170945Z Aug 70 and 104 Sig Sqn A319 of 220500Z Aug 70 - to HQ AFV refer) approximately 10% of the unit strength was to return to Australia during Sep 70 without immediate replacement. The larger proportion of this percentage were not due to be replaced until one month after their departure. It is suggested that this situation may have occurred from effecting replacement plans against National Service discharge dates, rather than against National Service RTA dates. The situation has now been alleviated, but not completely.
