It could also be people who were working on excavations in the area today. S/L 43- does not wish to leave now but is going out to investigate. Could possibly be reacted to VR in case required. B/R 71 came up on the air and queried V/OT re body 1511, due to the light left ^{possibly} not possible to react possibly. B/R 71 agreed to do VR under direction of V/OT.			Ⓟ
