SUMMARY OF OPERATIONS - MAR 67

Organization

1. To increase operational efficiency the squadron has been re-organized on a functional basis. The detachment at Vung Tau consists of an OC, a communications officer, a technical officer, and an administrative officer. Located in the Saigon area is a communications officer plus the squadron HQ, comprising the squadron OC, the 2IC and a Q/admin officer

Communications

2. Circuit data summaries - Annexes A - D

3. Rear Link

(a) Keying lines from receivers were lost several times during the month. The cause of this was the continuing construction work being carried out to expand the Tan Son Nhut airfield. To protect the lines from further damage by the contractors they have been laid within the boundary of a minefield.

(b) Severe telegraph equipment problems were experienced throughout the month due to lack of spare parts.

4. Radio Relay

The radio relay system continues to provide satisfactory service.

Additional Communications

5. A three station Movement Control Det was again provided for the unloading of the JEPARIT. AN/PRC 25 sets were used for this net.

Installations and Constructions

6. KW 26 Installation

All stores required for the KW 26 installations have been received. Installation now awaits action by US engineers to commence preparation of the KW-26 room.

7. PHAN RANG Circuit

Installation and wiring of telegraph positions-Austean Vietnam relay station have been completed. Installation incompleted at PHAN RANG.

8. 1ALSG Relay Centre

At the beginning of the month the majority of the foundations had been laid. During the month work proceeded slowly with the framework of three buildings being completed.

9. Transmitter Site - Phu Tho

An additional "Kingstrand" type building (60ft x 20ft) is under construction, labour being supplied by members of this squadron. The building will eventually house squadron HQ.
