INDEX

Narrative (AF C 2118)

ANNEXES

- Duty officer's log
- Messages connected with log
- Operation orders and instructions issued
- Operation orders and instructions received Sitreps issued
- Orders of battle and location reports issued
- Intelligence reports and summaries issued; appreciations made
- Administrative orders and instructions issued
- Administrative orders and instructions received
- Administrative reports and bulletins; ammunition returns; field strength returns
- Standing orders issued
- Commander's policy and demi-official letters
- Action reports (if required)
- Other papers, eg, maps and diagrams, air photos, reports from sub units
- Periodical summaries of operations
- Top Secret Supplementary Diary

* Only to be included during operations.

† Cross out whichever is not applicable.

COMMANDERS DIARIES INSTRUCTIONS

AIM

1. The aim of a Commanders Diary is to provide data on which to base future improvements in Army training, equipment, organization and administration, and to furnish historians with a record of the activities of units and formations in operational and non-operational periods in peace and in war.

GENERAL

- 2. Entries are to be made daily on AF C 2118 (Adapted) each entry being initialled by the officer detailed to keep it.
- 3. Commanders Diaries will conform with the rules for drafting orders given in "Staff Duties (Australia)" Chapter 2, Section 12.

RESPONSIBILITY

During Non-operational Periods

4. A Commanders Diary is to be compiled by commanders of all formations.

During Operational Periods (1)

- 5. A Commanders Diary is to be compiled in duplicate by:
 - a. Commanders of all formations.
 - b. Each branch of the staff at formation headquarters commanded by a brigadier or above.
 - c. Heads of services not below the rank of lieutenant colonel.
 - d. Personal staffs and officers holding special appointments.
 - e. Unit commanders.
 - f. Commanders of a detachment of a unit when so ordered.

COMPILATION

- 6. Both original and duplicate copies are to consist of:
 - a. Cover (AF C 2119) (Adapted).
 - b. Index as printed on cover.
 - c. Narrative (AF C 2118) (Adapted).
 - d. Annexes as shown in the Index.
- 7. All details of the unit or formation (if a detachment is concerned, the name of the parent unit), period covered and enclosure numbers of the annexes are to be shown on the cover. If there has been a change of command since the last report, the date of assumption by the new commanding officer is to be included.
- 8. The annexes are to be assembled in the groups shown on the cover. If there are no enclosures for an annex NIL will be entered on the cover. If additional annexes are convenient for a particular headquarters, tarting at B.

for operations form Annex "Z", "TOP SECRET the document. It is to be prepared and disposed of as

ENTS

s as well as map references), establishment, equipment

orders given.

mander with regard to equipment, tactics, organization

tential importance.

officers, men and equipment.

oment captured.

employed in the time not accounted for. The type of

and to save work as much information as possible is to iments issued and received, routine returns, etc. All and the time of receipt or despatch is to be given.

ne annexes, but need not give a precis of any of them.

(continued on back cover)

1 BP Coy-274/65-55m AWM 95 [6|3|Apr 68]

DISPOSAL

- 13. Original Commander's Diary. This is to be forwarded monthly, unless otherwise ordered, by the seventh day of the succeeding month direct to AHQ.
- 14. Duplicate Commander's Diary. This must be clearly marked as a duplicate. It is to be sent separately from the original to AHQ one month after the original has been despatched but not before the former has been acknowledged.
- 15. When overseas, both copies of diaries are to be sent through the Army Records organization in the overseas theatre but at different times.
- 16. TOP SECRET Supplementary Diaries.
 - a. The documents referred to in Paragraph 9 together with a list of them made out on AF C 2118 (Adapted) must be placed in separate cover (AF C 2119) (Adapted). All details must be filled in and the cover clearly marked in red: "ANNEX Z OFFICER ONLY". It may be convenient to group the papers by appendices.
 - b. Supplementary diaries must be forwarded under the normal rules for TOP SECRET correspondence, to AHQ. The inner envelope must be plainly marked:

TOP SECRET
ANNEX Z to

Commanders Diary	of(Form	nation or Unit)
From	to	(Dates)

c. The duplicate supplementary diaries must be despatched as shown in Paragraph 14 as soon as receipt of the original has been acknowledged.

1 BP Coy-274/65-55m AWM 95 [6|3|Apr 68] This form is to be enclosed with the annexes in AF-C 2119 (Adapted).

See Distribution List

MONTHLY REPORT - APRIL 1968

INTRODUCTION

- Apart from the normal communication requirements, trials were conducted on the Siemens Radio Equipment, extensive defence works were undertaken in the Phu Tho area and planning took place for the communication requirement for the deployment of the advanced ALSG and LATF forward.
- The latter was no sooner planned in outline when a requirement arose to implement it. At this time, 23 Apr 68, the alert status in Saigon was also raised to Amber and the requirement for guards in all areas commenced again. In fact at the end of the month the Squadron was further extended than it has previously been, with members operating from eight different locations.

COMMUNICATIONS

Saigon Sigcen/MRS

The traffic volume handled by the Sigcen and the MRS is shown in Annex A. There was in fact a notable decrease in traffic handled, 83,538 versus 87,139 for Mar 68. Some of this decrease is attributed to the number of public holidays in Australia during April. The quality of the traffic is improving but there is still room for improvement.

Vung Tau Sigcen/MRS

Traffic figures remained at much the same level as in March. Plans for the re-design of the Sigcen are in hand but have now been delayed due to higher priority tasks.

Saigon/Melbourne Circuit

Availability on this circuit has decreased this month. Average availability has been 15.1 hours per day versus 18.2 hours per day in Mar 68. The main causes of the outages have been due to QRM, QRN combined with severe fading. With the increased storm activity, and the lack of suitable receive antennas it is expected that availability may decrease further on this circuit.

Trunk Availibility

6. Trunk availability remains high as can be seen from Annex A.

HF Radio Detachment

- 7. The HF detachment moved into their new building on the NE corner of LOGAN HILL on 11 Apr 68. The new building is to be known as HF HOUSE. Conditions in this building are a vast improvement on those in the old building in 17 Const Sqn area.
- 8. All equipment is now installed and working. Facilities are also available to key one HF RTT circuit from the MRS. This mode has been tested and works satisfactorily.

/9. An aerial farm...

CONFIDENTIAL

9. An aerial farm has been erected and contains three multi-band dipoles giving a 360 degree coverage, a V antenna directed towards Melbourne, a rod and an RC-292 VHF ground plane antenna.

Telephone System Vung Tau

- 10. Line System. The permanent line system continues to function well and the fault rate has dropped to almost nil. Approval was obtained during the month for the supply of 10,000ft of 2pr cable. The latter is for replacement of DlO cable used with unit switchboards.
- Telephones EMU. EMU continues to function satisfactorily. Some trouble was experienced during the month but was mainly attributable to new operators learning the board. The high call rate being experienced at the moment has necessitated the switchboard supervisor assisting to man the board during the busy hours.
- 12. Telephones. With the arrival of 200 cradle type telephones. Kphones are being a replaced on all ENU extensions. The changeover should be complete by 10 May 68.

TECHNICAL ASPECTS

Long Binh

- Antennas. Little progress was achieved during April. This was due primarily to the employment of the Rigger Detachment on the erection of feeders and antennas at Saigon and Nui Dat for the Siemens trunk relay equipment. However, stay plates and rods have now been installed for both Rhombic and a trench has been dug to gainaccess to an underground pipe which carries co-axial cables from the receiver building perimeter to the receiver building. A requirement exists for the use of a trench digger so that the co-axial cable and power cable can be completed before the wet season gets worse. Stocks of the co-axial UR57 cable and power cable are expected shortly.
- 14. VHF Bearer System. Further frequency interference has been experienced on this link. As it appeared on the link towards the end of the month it has not been possible to identify. The interference is similar to a carrier signal generated by a "press to talk" switch. Unfortunately, a power transformer burnt out on 30 Apr 68 in the VHF terminal at Saigon, and further attempts at identification have been temporarily halted.
- Melbourne Receive Signal. Long Binh is now in use for approximately 85% of the time to receive the Melbourne tones. The American channels to Phu Lam and the spiral four cable run to the FULAO are used to transfer the tones to the MRS.

PHU THO

- 16. New Building. The building has not been commenced and it is apparent that the completion date of 31 May 68, provided by the Force Engineer and mentioned in the last report will not be met.
- 17. Power Supplies. The 62.5 KVA Caterpillar generator has now been installed and was brought into operation on 7 Apr 68. A new power board was also provided to enable switching of any generator to any load to be carried. During the installation the transmitting station was closed for a period of 4 hours, alternate communications being provided from Vung Tau.

Fre World Building Area

18. MRS Local Fage Copy. A page printer and reperforator with keyboard, provided for local page copies was removed to a different location in the MRS on 28 Apr 68. This was done to provide space for operators cross checking and is now operating satisfactorily.

CONFIDENTIAL .../-3-

19. Phy Lam Alternate. During the month an installation was completed in the Signal Centre which enables that area to work a protected duplex circuit to Phu Lam as an alternate position to the MRS. This circuit was successfully 'tested' on 30 Apr 68.

Vung Tau

- 20. The stores for the internal portion of the new Austean Tx/Rx installation were received on JEPARIT/14. Also included in this consignment were the stores for the rotatable horizontal log periodic antenna. Three boxes of stores are still missing and are being traced.
- Planning for the internal installation is well under way and all major equipments have been plinth mounted. Inter cabinet and power wiring has commenced but progress at present is slow due to the committment on Operation TOAN THANG./
- 22. Detailed planning is yet to commence for the aerial feeder routes. Information is now to hand for the mast base and anchor requirements for the transmit antenna and a P26 will be submitted shortly. Further information is required however to allow the individual element anchor blocks to be postitioned.
- 23. Installation of a temporary feeder route to the Melbourne V is at present under investigation.
- Siemens Trials. Trials on this equipment were completed on 23 Apr 68, and since the equipment performed satisfacorily on the path Saigon Nui Dat, it will now ber permanently installed in these areas. A detailed report on this equipment has been rorwarded separately to HQ AFV, (110 Sig Som R193-1,-1 of 13 May 68 refers).

Deployment of lATF

- 25. The three AT/MRC-69 shelters destined to provide communications from ATF forward to AFF rear arrived from Australia on 16 Apr 68.
- 26. The arrival coincided with a study that was being conducted to establish how telephone communications and secure RTT could be provided for advanced ALSG. It was concluded, that if the terrain was suitable the necessary radio relay trunk communications could be provided by installing the three deployment shelters. This plan necessitated the repeater AN/MRC-69 being located at either Advanced ALSG or ATF forward, (110 Sig Sqn R193/15/1 of 22 Apr 68 refers).
- It was intended to commence a training programme of one month on 1 May 68 to familiarize the deployment detachment with the equipment and 1ATF SOPs. However, events prevented this plan occurring and the three shelters were received in Operation TOAN THANG on 21 Apr 68.
- 28. Radio Sigcen Facilities.
 - a. A spare American shelter was converted for use as a Radio/ Sigcen shelter for advanced ALSG. This shelter contains:
 - 2 x AN/GRC-106
 - 1 x AN/PRC-47
 - $2 \times TT-4ATG$
 - 2 x 1017
 - 2 x TH-5/TG
 - 1 x TT76
 - 1 x SB-22/PT
 - 2 x KL7

CONFIDENTIAL

000/-4-

-4-

- b. The shelter thus can provide wither two simplex secure telegraph circuits or one duplex secure circuit. These can work either over an R R bearer or over HF radio. A switchboard facility is also available.
- c. HF back up facilities were also planned for ATF forward.

Operation TOAN THANG

- 29. A detachment of 23 men was deployed in support of this Operation as follows:
 - a. Radio Relay.

 Terminal Det Nui Dat Hill 4

 Repeater Det Bearcat 4

 Terminal Det Long Binh 4
 - h. HF Radio.

 An/GRC-106 Det Bearcat 4

 An/GRC-106 Det Long Binh 4
 - c. Swbd/Line.

 Long Binh

 1/3
- 30. For the first three days communications were spasmodic particularly with regard to secure telegraph. Since then the system has settled down and on ly minor outages have been experienced. Problems experienced initially were:
 - a. Lack of familiarity with equipment.
 - b. Over-heating in radio and radio relay shelters,.
 - c. Adaption to field conditions of some of the operators.
 - d. Lack of Sqn deployment SOPs and vehicle load lists.

OTHER ASPECTS

Personnel

0

31 a. March Ins .

Arrivals in theatre 29 ORs

b. March Outs .

Subject A and C

32. Courses for Subjects A and C for promotion to Cpl and Sgt were conducted at Vung Tau from 15 - 24 Apr 68. Overall results are shown below:

CONFIDENTIAL

.../ -5-

Cpl Sgt

Subject A 14 8 5 5

Subject C 16 14 5 5

COs Parade

- 33. During the month Three COs parades were held, two at Saigon and one at Vung Tau.
- Members at Saigon were briefed on GustomsRegulations on 5 Apr 68.
 A similar briefing was conducted independently by OC Vung Tau detachment.
 On 19 Apr 68, HQ AFV staff provided an int briefing to the Saigon detachment.

Minor Works

35. Saigon.

- a. Det Admin Building. Internal construction work on a hut containing office accommodation and a small orderly room has now been completed. Its close proximit y to the free world heli pad is a problem, but the occup ation of this hut by the administration and command elements of the detachment has provided more space for technicians and equipment.
- b. Blast Walls. P26s were submitted during the month for blast walls around the MRS, System Control and Tech maint buildings.

36. Vung Tau.

- a. A further accommodation building was completed.
- b. Work has almost been completed on lining the new Tech Maint building prior to air conditioning. New work benches and storage racks have also been completed. All electrical wiring is still to be carried out. It is estimated at this stage, that occupation is approximately one month away.
- c. Work has started on the new American standard kitchen and should be complete within 4 to 6 weeks.

Civic Action

During the month the normal weekly supply of food to the orphanage continued. At the request of National Civic Council, who have been providing the majority of the aid for the orphanage, a number of photographs were taken and forwarded to this organisation. With the approach of the wet season the orphanage requested the cementing of the small front yard. This was completed during the month by a number of members of the Sqn.

Security Pho Tho .

- During the month of Apr there was increasing evidence of a further enemy offensive and as indicated in the monthly report for March, the area at PHU THO was not considered secure.
- 39. A series of work parties was started to construct initially a defensive wire fence across the WEST side of the 110 Sig Sqn area (ie. side nearest village).
- 10. The security situation of the PHU THO area came to the notice of Comd AFV and he visited the site on 22 Apr 68, where he was briefed on the role of the Som and in particular the PHU THO area. This was followed by a more detailed briefing on the defensive planning for the area followed by a tour to observe the area and the work completed at that stage. Comd AFV informed the OC during the tour of the area that a major enemy attack was expected sooner than originally thought and that the unit was to triple its defences within the following week.

 CONFIDENTIAL

--6--

- In obeyance of Comd AFV's orders, all members of the Sqn in the Saigon area, not required for essential shift, or day work, or needing essential stand down time for rest after night shifts, were moved, during the day, to the PHU THO area. During the week the following was completed:
 - a. The area was completely enclosed by defensive wiring, coor dinating with the US 1st Div APO to the NORTH. The present tower was also strengthened by removing the old decaying sandbags and replacing them with corragated iron and timber blast walls filled with sand.
 - b. Two bunker locations were planned and built giving complete bunker fire coverage around the area.
 - c. Flood lights on the WEST perimiter were re-arranged to give a greater illuminated area.
 - d. A disused search light from one of the other towers in the surrounding compound was moved to the 110 Sig Sqn tower and made operational.
 - e. Defensive field telephone communications within the area were extended and dual line routes were run.
 - f. The PHU THO area became a station on the HQ AFV Defence Radio Net.
 - g. The scrub in the area surrounding the perimeter was burnt-out to provide clear arcs of fire.
- 42. The task of further improving the defences is continuing.

Tape Library

13. On 30 Apr 68 the AFV Amenities Committee approved the Squadron submission for a Force Tape Library. A sum of \$1500 has been made available for this purpose. It is anticipated that it will take two months to get the system operative, although the availability of the correct equipment from the PX could extend this period.

Visitors

- 44. Visitors to the squadron during the month were:
 - a. 12 Apr 68 Vung Tau Mr P. Lynch MP, Minister for Army.
 - b. 22 Apr 68 Phu Tho Maj Gen A.L. MacDonald, Comd AFV.
 - c. Maj G. McIntyre a CMF officer from 8 Sig Regt visited both detachments during the month.
 - d. Several Officers from units in 1 ALSG were shown over the Vung Tau Facilities during the month.

R & R

15. The following numbers proceeded on R & R during April:

Australia - 9
P- : - 2
Hong Kong - 1
Singapore - 1
Taipei - 1
