28 BRIGADE EXERCISE - TEST BED

GENERAL IDEA - PARTS III & IV

1. GANASIA and PALMARIA (See Appendix 1) represent two sizeable SE Asian countries. The former is independent, yet under communist domination from a powerful northern neighbour NORTH TERRABIN (NTB). The latter, PALMARIA, has been fighting insurgent communism for approximately six years. She has been assisted in this struggle by the ANZUK Powers who now have one division in addition to 28 ANZUK Brigade deployed in the country.
2. In October 1972 heavy attacks were planned by NORTH TERRABIN against the PALMARIA capital JOHORE BAHRU and the Province capital of KOTA TINGGI. NTB security was bad and, forewarned, the PALMARIA Forces were able to break up these attacks before they were launched. Heavy bombing and interdiction on NTB supply routes through GANASIA finally brought their operations to an end save for those on the smallest scale. By 12 November it was apparent that the NTB High Command had issued orders for the greater part of their forces to disengage and to move NORTH into GANASIA for re-grouping and re-organisation.
3. A great opportunity now exists for the NTB Forces to be cut off and destroyed before they reach the border. The dense jungle and hills of NORTH PALMARIA offer the NTB a big advantage. However, if the NTB can be located and destroyed in the more open areas just SOUTH of the lateral road which runs between JEMALUANG and KLUANG, then an important victory could be achieved.
4. In the area in question, the guerilla forces, assisted by GANASIA and NTB have built up a local provincial battalion. This battalion is known as the Kangar Provincial Battalion with three companies, VI-Kluang Coy, C2-Jemaluang Coy, C3-Kota Tinggi Coy. It is known that the main task of the Jemaluang Coy is to assist in movement of men and materials through the area, and that in fact they provided assistance to the NTB forces moving south to attack Johore Bahru. It is expected that they will provide similar assistance to the withdrawing forces. The main areas of operations for the Jemaluang Coy has been generally in the Bt Gantang Ambin (GR 8870) and eastwards towards Jemaluang. The Kluang Coy remains generally in the KLUANG area while the Kota Tinggi Coy remains to the south in the general area of BUKIT MUNTAK GR 0328 Kangar Bn HQ moves within the Coy areas. On occasions the coys under the Bn HQ have been known to concentrate into one area for particular tasks.
5. On 14th November 72, 28 ANZUK Brigade less 1 RHF and 6 RAR deployed to the area of KANGAR KAHANG. 1 RNZIR was deployed in the area and a fire support base established. 1 RHF and 6 RAR were placed at 24 hours notice to move from their base 60 miles to the SOUTH. The shortage of transport is critical and it is unlikely that more than one battalion a day can be moved NORTH to the Brigade's AO.
6. The Brigade Commander called an 'O' Group at 0900 hours 15th November at KANGAR KAHANG. An extract of his orders is given in Annex 'B'.

PALMARIA SPECIAL BRANCH REPORT NO 32
TO 15 NOVEMBER 1972

Kangar Provincial Battalion

1. According to an agent's report (evaluated C3) elements of the Jemaluang Coy of the Kangar Provincial Battalion are believed to have remained in the Hutan Simpan Lenggong area South of the Jemaluang-Kluang Road on the high ground.
2. It is assessed their intention is to protect the resupply and movement routes used to maintain the NTB forces to the south. Should the attack the south fail it is assessed that NTB forces will withdraw to Ganasian via this area.
3. The source is not aware if the other battalion elements are in the area, but claims he was told by a member of the unit that his platoon's mission was to hold the Kluang-Jemaluang Road open to provide protection on courier routes. The informat also stated that as they had protected and guided the NTB units moving south he guessed that should the NTB move north again they would have to guide them back and he was afraid of being bombed should that occur.
4. It will be recalled that the Jemaluang Kluang and Kota Tinggi coys normally operated in the vicinity of their namesake area. Present whereabouts of the battalion headquarters is unknown. It has always moved quickly and often and last reports (10 days ago) indicated it had moved to the Kota Tinggi area.

28 BRIGADE EXERCISE - TEST BED

SPECIAL IDEA - PART III

1. The brigade commander returned to his headquarters at Kangar Kahang late on 14 Nov 72, from a briefing at PALMARIA headquarters Johore Bahru. There was no doubt that the NTB attack on Johore Bahru had failed and that the NTB would withdraw north. It was now important to destroy the withdrawing forces. In conjunction with this, emphasis is to be placed on harassing and destroying the provincial forces which will assist the NTB withdrawal. Anticipated dates of the main withdrawal from Johore Bahru are not known, but it is expected that the main NTB forces, which are currently extricating from the attack, regrouping and preparing for withdrawal, will not reach the Kahang area much before 21 Nov. It is therefore important to move quickly against the provincial forces in that area to harass and destroy their attempts to assist the NTB move northwards to the sanctuary of GANASIA.

2. At midnight 14/15 Nov the brigade commander ordered his 'O' Group at Kangar Kahang at 0900 hrs 15 Nov and reduced the notice to move of 1 RHF and 6 RAR to 12 hours from 0600 15 Nov.

3. Extracts from the Comds orders are:

ACTION IF LOST OR INJURED

SECTION 1 - ACTION WHEN LOST

GROUP CORRECTLY EQUIPPED

1. If lost, don't panic. Sit down and consider:
 - (a) Have you drifted LEFT or RIGHT of your route?
 - (b) Have you gone past the objective (check time and distance covered)?
 - (c) Did the ground conform with the going on the Navigation Data Sheet?
 - (d) Are there any features in the area which will help to fix your position?
 - (e) Could you regain comms by moving to higher ground?
2. These considerations should give you an idea of where you are. Confirm your location with recce patrols.
3. If you still cannot find where you are and you can't obtain radio contact:
 - (a) Move downhill to the nearest water course and follow it downstream to the first clearing and remain there until help arrives. Light a fire if there is no fire risk.
 - (b) If during this move you meet a fence, road, track or house stop there until help arrives.
 - (c) Do NOT cross fence lines, tracks, large clearings or large streams as this will mean that you will go into an area which will NOT be searched.
 - (d) Blaze or mark your route as you go.
 - (e) When you are nearly 50% overdue and have not yet found a place to halt as described above, stop where there is water and wait for the search parties. Fire blanks or blow whistles every 10 minutes. Search parties will commence operations automatically when you are 50% overdue - don't make it harder for them by increasing the area to be searched.
 - (f) Change your radio frequency to 50 KC (VHF) or 5 MC (HF) when 50% overdue.
 - (g) Don't move at night.

GROUP OR INDIVIDUAL NOT CORRECTLY EQUIPPED

4. If lost, don't panic.
5. You have probably already tried to find your group without success, so further searching is useless.
6. Move downhill to the nearest water course and follow it downstream. As soon as you find water HALT and wait for the search parties. Fire a shot, whistle, or cooee every 10 minutes.

7. Don't leave water - you can live for 7 or 8 days on water alone.
8. If you meet a clearing, track, fence or hut before reaching water, HALT and wait for rescue parties. They will quickly find you at these places and water will not become a problem.
9. Blaze or mark your route as you go.
10. Don't move at night.
11. Light a fire when you halt if there is no fire risk.

EMERGENCY FIRST AID

HEAT STROKE - Caused by Body's heat regulating mechanism failing. Temperature rises to an alarming degree. Patient is unable to sweat and cool himself. Treatment - remove patient to a shady, cool spot. Loosen all clothing. Give cold water to drink. Bath body with cold water. If near a stream immerse patient in water. Rest patient until body temperature has returned to normal.

HEAT EXHAUSTION - Caused by excessive sweating depleting the body fluids. Treatment - stop walking. Rest in a cool, shady spot. Give patient frequent drinks of water. If patient has been sweating over a prolonged period add one salt tablet to each water bottle - make sure salt tablet is dissolved. No walking until patient has recovered and all signs of cramp and muscle weakness have gone.

HAEMORRHAGE (BLEEDING) - Unless an artery is "spurting" haemorrhage can be stopped by elevating the part and applying a firm dressing. If still bleeding apply a second dressing over the first and bandage tightly. If an artery is spurting use a tourniquet stretched around the limb twice OVER the clothing. Release every 20 minutes and only reapply if the bleeding has not stopped. When bleeding has stopped dress wound with a dressing and firmly bandage and elevate the part.

FRACTURES - When a bone is broken it must be splinted and bandaged to immobilize the limb. Splints should be long enough to immobilize the joints above and below the fracture. Flat splints are best and they must be padded to make them fit the limb and prevent excessive pressure on bony protrudences such as the elbow, knees, and ankle. When a leg is broken always tie the two legs together; and when an arm is broken support it by bandaging it firmly to the body. Give the patient plenty of fluids to drink; keep him warm if the night turns cold; and if you have codeine or aspirin give them to the patient every two or three hours.

SNAKE BITE - Reassure the individual. Complete recovery from snake bite is the rule. Keep the individual at rest. Apply a lightly constricting ligature (handkerchief, belt, piece of cloth) to arm or leg between bite and heart. The ligature must be tightened until the veins stand out, but not to stop them pulse at wrist or ankle. It should be released for one minute every 30 minutes. Wash the area of the bite with plain water without rubbing. Immobilize the bitten part by applying a splint as for a fracture and keep it hanging down below the level of the heart if possible. Give mouth to mouth or mouth to nose artificial respiration if breathing stops. Move the individual to the nearest medical installation (with the dead snake if available). If necessary give aspirin, 1 or 2 tablets, for pain but do NOT give alcohol or morphine. If available, apply an ice bag to the surface of the bitten area but do not immerse in ice or iced water. Do not delay treatment or evacuation to catch snake or search for ice.

SHOCK is a condition induced by severe injury, pain, and loss of fluid (blood, plasma from burns, or fluid through sweating, vomiting, etc.). Treatment is to give the appropriate first aid to prevent further damage; give codeine or aspirin, and fluids to drink to replace fluid loss. All shocked patients should be lying down with feet elevated during transportation. Always keep head low and turned to one side. Be prepared for vomiting. Treat an unconscious patient the same but give nothing to drink. If he vomits swab out mouth and make sure he has a clear airway at all times.

INTELLIGENCE REPORT 1/71

1. The general idea is contained in Reference B.
2. The enemy force in the Bde Area of Operations is known to be of battalion strength. This battalion has been identified as the Kangar Provincial Battalion consisting of three companies, the C1 - Kluang Coy, the C2 - Jemaluang Coy and the C3 - Kota Tinggi Coy.
3. An NTB force of unknown size is expected to move through the 6 RAR area within the next seven to ten days. This force is expected to be travelling north into GANASIA for regrouping following their losses in operations near JOHORE BAHRU and KOTA TINGGI. The force is not expected in the Kahang Area much before 21 Nov 71. It is thought that the local force C2 Coy will assist the NTB Main Force in the movement of men and equipment through the area.
4. In the past, C1 Coy has operated mainly around KLUANG, C2 Coy in the Bt Gantang Ambin (GR 8870) area and C3 Coy around the Bt Muntabak (GR 0328) area. The Kangar Provincial Battalion Headquarters has been known to operate in all three of the above areas. The headquarters was thought to be in the KOTA TINGGI area ten days ago.
5. C2 Coy less a platoon is thought to be currently located in the Hutan Simpan Lenggong area on the high ground to the South of the JEMALUANG - KLUANG road. A platoon is possibly located in the area GR 9466 and a platoon also possibly located in the area of 870 feature GR 8669 and 772 feature GR 8672. It is probable that the NTB force mentioned previously will withdraw through this area. A platoon of C2 Coy is thought to be located further South acting as guides for the NTB withdrawal.
6. A list of known personalities is shown at appendix 1.
7. The orbat for the Kangar Provincial Battalion is shown at appendix 2.

GARRISON ORDERS

124. SECURITY OF ARMS, AMMUNITION AND EXPLOSIVES - PRIVATE WEAPONS

1. The illegal carriage or possession of private or unauthorised small arms, ammunition or explosives is a most serious offence in SINGAPORE, and carries a maximum punishment, when tried by a Civil Court, of penal servitude for life.
2. The expression "small arms" or "arms" includes all firearms, air guns, air pistols, automatic guns, automatic pistols, shot guns and other types of weapon from which any shot, bullet, or other missile can be discharged; together with the ammunition. (Bayonets, swords, daggers, spears, etc can be kept as curios without a licence).

LICENCES

3. a. No person may possess or import private Firearms, ammunition or air guns in or into SINGAPORE without a current licence from the Police Licensing Officer, Arms and Explosives Branch, Hill Street Police Station, SINGAPORE.
- b. Licences issued abroad or in the Federation of MALAYSIA are NOT valid in SINGAPORE.
- c. Personnel bringing private arms and ammunition into SINGAPORE are to surrender them as follows:
 - (1) Owners travelling by sea, before disembarkation, to the police officer who comes aboard when the ship docks.
 - (2) Owners entering by other means: to an authorised police officer or in default to the Customs Authorities.
- d. All such private small arms and ammunition are to be kept in Hill Street Police Station for safe custody pending the issue of a firearms licence or the appropriate permit for sale or export. There is a six months time limit on the storage of weapons in Hill Street Police Station. If no licence has been obtained by the end of this period the weapons are forfeited to the Government of Singapore.
- e. Licence holders are to note expiry date and renew their licences in good time.

EXPORT

4. a. Owners wishing to take private small arms out of SINGAPORE whether stationed here or in transit, must first obtain an export permit from the Licensing Officer. In the case of owners proceeding to MALAYA, permission to import must first be obtained from the Chief Police Officer of the State concerned.

.../b.

RESTRICTED

RESTRICTED

- 3 -

- b. Personnel stationed in SINGAPORE or on normal transit to MALAYA are to apply to the Chief Police Officer of the State in which they will be residing for an import permit. This permit will then be produced to the SINGAPORE authorities to obtain an export permit. Import permits into MALAYA are normally only effective for two weeks from date of issue.
- c. If there is insufficient time to carry out the procedure at para 4b above, private weapons will remain at Hill Street Police Station to be forwarded through police channels to the state where they will reside when an import licence is issued.
- d. Owners wishing to export private arms overseas will normally be given an export licence within 24 hours.

CUSTODY

- 5. a. All private small arms and ammunition are to be kept in Unit armouries when not in use, except as provided for in sub-para b below, and licences are normally issued on this condition.
- b. In exceptional cases, provided the approval of HQ ANZUK Spt Gp has been obtained, the Licensing Officer may agree to individuals retaining their own weapons. Owners will then be held personally responsible for safe custody and possible loss.
- c. Procedure for seeking permission to retain personal small arms in private custody is as follows:
 - (1) Applications are to be made to Bn HQ explaining the special circumstances for the CO's consideration.
 - (2) Applicants will certify that arms and ammunition will be kept locked up, when NOT in use, each in a separate place, and that fully responsibility for safe custody is accepted.
 - (3) Applications will be forwarded by Bn HQ to HQ ANZUK Spt Gp and once approval has been given, applicants are to apply to the Licensing Officer.

125. TRAFFIC OFFENCES - TOWING OF TRAILERS

- 1. It is a Civil Police requirement in the Republic of Singapore for vehicles towing trailers of any description to carry a passenger or co-driver. The Assistant Commission of Police advises that although a degree of leniency has been expressed towards Service vehicles, this will no longer be the case. Offenders are liable to a fine of up to fifty dollars.
- 2. All Service vehicles towing a trailer of any kind are to carry a co-driver or passenger.

.../126

RESTRICTED

126. ENTRY INTO MALAYSIA

1. Australian Service personnel and their dependants based in Singapore are permitted to enter Malaysia on production of their Service Identity Cards or British Service Identity Cards (BSIC).
2. Completion of Disembarkation/Embarkation Cards is not required.

127. CUSTOMS CONCESSIONS ON RTA

1. Current Australian Customs Regulations permit all persons to import their household effects into Australia, providing such effects have been owned and used overseas for a period of not less than twelve months. Australian customs duty on such items will be waived.
2. Servicemen have no statutory right to exemption from this rule, but Customs will normally give sympathetic consideration to individual cases where a member's tour of duty overseas is cut short due to circumstances beyond that member's control. It is stressed that each case is considered individually on its merits.
3. In the case of early return to Australia (RTA), Customs will only give sympathetic consideration to the entry of a member's household effects. Customs are emphatic that no consideration of this nature will be given in respect of motor vehicles, boats, etc.
4. Any member who is concerned about his personal situation on RTA, due to the curtailment of his normal tour of duty, is advised to submit the following information to Bn HQ in order that his case for exemption may be submitted through the most appropriate channels:

FORD MOTOR VEHICLES

1. The following information regarding preferential prices available to AS personnel has been received from Ford Motor Company of Australia :

"Introduction.

Ford Australia have developed a plan to enable Australian troops serving overseas to place orders through the Australian Services Canteen Organization (A.S.C.O.) for Ford Vehicles at preferential prices.

The plan will enable troops to make progressive payments for their vehicle during their tour of duty overseas, and take delivery from any Ford Dealer they nominate upon return to Australia.

Basin of Plan.

Ford Australia will provide the Australian Services Canteen Organization (hereafter referred to as ASCO) with Retail Order Forms, Price Lists, Brochures etc., covering the Ford Passenger model range. Trained Ford personnel will accept signed retail orders from the troops in Vietnam and other overseas location, to purchase a vehicle either for cash or under hire purchase. ASCO will also

arrange to accept regular payments from the purchaser during his tour of duty which will be tailored to constitute either the full cash payment or a minimum deposit of 33 percent by the time he is due to return to Australia.

As Ford Australia cannot hold public deposits, ASCO will hold payments received from the troops until delivery of the vehicle is to be effected. Money paid to ASCO will be transferred to delivering dealer who will finalise the H.P. or financing contract if sold under hire purchase.

The purchaser will nominate on the order form at date it is completed, the Ford Dealer in Australia from whom he wishes to take delivery of his vehicle.

Ford Australia will, upon confirmation from ASCO that the order is still firm, and 33% cumulative deposit received, six weeks prior to the serviceman's return home, arrange to build the vehicle and advise the delivering dealer the required delivery date and details of the transaction.

Eligible Participants.

The benefits of the plan are available to members of the Australian Armed Forces serving overseas. Should a soldier serving overseas have full cash funds available, he may purchase a car at the preferred rates and arrange for his wife to take delivery on his behalf prior to his return to Australia. This facility would be available to wives only and would not include other relatives or friends. Under this method he is precluded from using hire purchase due to his inability to complete the necessary documentation in Vietnam/Singapore".

2. Members requiring further information are advised to contact Major N. Grose, ASCO representative NAAFT.
