"WOUNDED"

Has had his left leg taken off quite near the thigh, in France, about 6 weeks ago. Looks thin and pale, but cheered up wonderfully in talking and seemed pleased to have an Australian visitor. I believe he has to have another operation in the leg to remove a piece of thestump from which the skin has receded.

Re Pte.Stanley Robinson 21009 47th Btty.F.A. He is to be transferred to-day to Southall. I saw him this afternoon. He was lying on his bed, dressed ready to go, and rather exhausted from getting into his uniform again, but he is really much better, and brighter in his spirits. He is a little anxious about the operation that is hanging over him.

2100 Stanley Robinson 47th Battery A.7.A.
in Ward 41, New End Hospital, Hampstead

I saw this man last Monday the 13th.
He had his left leg taken off in France quite near the thigh about 6 weeks ago, & was brought to New End last week.
He looks thin & pale & as if he had gone through much suffering - but he cheered up wonderfully in talking, & seemed pleased to have his own Australian visitor to see him.
I believe he has to have another operation on the leg, to remove a piece of the stump from which the skin has receded. His chief anxiety was that he heard he was to be sent to Harefield, & he would so much prefer being left where he is.
I will see him again to-morrow or Friday & send any further report I can.
Have I permission to buy some fruit

for him? The Hospital does not supply this, & our sick Australians simply crave for it – Oranges & Bananas. I should like to take him 6 of each if I may – about 3/ worth –
