Captain Richard  
George MOSS

Near VILLERS BRETONNEUX on the 4.7.18 this Officer commanded his company in the attack with determination.

In the face of heavy enemy opposition he led at one point portion of his command and filled up a gap, causing the enemy to withdraw.

Meeting strong opposition, by skilful handling of his company, he overcame the enemy and captured 60 prisoners.

During the consolidation of the final objective he made a daylight reconnaissance 200 yds. ahead although continually fired at by enemy machine guns and snipers, and moved part of his line to a more commanding position.

He displayed great courage and initiative.
