AVERY. HENRY. ESAU	Major	N.2.A. Divisional Train	GALLIPOLI Nov. 26 th -30 th December 19 th & 19 th 1915	During a period of very bad weather when roads were nearly impassable for mules it was only by constant supervision and the most careful arrangement ^{on the part of this officer} that a supply of water and food was maintained. Also during the Evacuation of the ANZAC position Major Avery, though thrown on his own resources, by his skilful manipulation of the means at his disposal and his untiring efforts kept the troops of the Division fully supplied up to the end. This officer has done very good work ever since he took up the duties of Senior Supply Officer and is deserving of Special Mention		I recommend this officer for reward
