	P.A.L.H. Pict Amb.	6051	Private SEPTIMUS FLINT	During the action at TEL KHUWEILFEH on 3/11/17, Private FLINT in conjunction with Private BOTLER, had to gallop with their sandbag containing wounded across an open stubble, possibly some 500 yds under heavy rifle & machine gunfire. After proceeding some 200 yds, three of the horses were wounded otherwise could not proceed. Private FLINT with much difficulty was able to free his horses which were kicking & struggling. He then assisted them to the sandbag round so that the wounded would have less chance of being hit. He then later crawled behind a dead line & finally had to expose himself once again to the wounded as the cart was still under fire though put out of action. He was completely unaware of his death.
