

37th Bn 1217 Lance Corporal

WALTER

K A Y

AD/1/80

On the 7th, 8th, and 9th June 1917, during operations south of BESSINES this N.C.O. did excellent work in the supervision and conducting of carrying parties to the GRENCH LINE after his senior N.C.O.s had become casualties. During the entire period he showed great leadership and resource, and displayed great courage whilst under heavy enemy shell fire. His action ensured the supply of fighting material for the advanced troops.
