A.I.F.

Lieutenant
Rupert Grenville
KNIGHT.

During the operations east of YPRES on 4th Oct., 1917 he was responsible for the construction of a Strong Point near MOLENAARELSHOEK. To reach the point he had to lead his party a distance of 3000 yards in the open from the position of assembly under the heaviest of enemy barrage fire and it was due to his dogged devotion to duty under dangerous circumstances, and to his able leadership, that the correct site for the strong point was located and an invaluable defence work constructed. His action set a splendid example to all ranks.
