97372	1st Australian Tunnelling Co. Australian Engors.		Major JAMES DOUGLAS HENRY Australian Engineers	For distinguished service and devotion to duty during the past seven months whilst in charge of mining operations in connection with the recent offensive. This officers leading and judgement have been instrumental in inspiring the Company under his command to make such strenuous efforts in the face of danger, that the enemy's attempts underground to destroy our line and workings have been entirely frustrated, thereby ensuring that two offensive mines were available on the day of attack when they were successfully exploded.	<i>A.
