H.M.A.S. PENGUIN - REPORT OF PROCEEDINGS FOR THE QUARTER ENDED 31st MARCH, 1964.

Reference: R.I. Appendix 29 A.

The following report is submitted:

2. GENERAL AND SOCIAL

February 28th Mess Dinner in H.M.A.S. PENGUIN Wardroom.

March 10th Captain A.N. DOLLARD, D.S.C., A.D.C., R.A.N. assumed command from Commander (SD) G.T. GAFFORD (G)(G) R.A.N., who assumed the duties of executive officer on relief.

March 11th Captain Dollard paid an official call on the Flag Officer-in-Charge, East Australia Area.

March 12th Admiral Sir David Luce G.C.B., D.S.O.*, O.B.E. visited H.M.A.S. PENGUIN to pay an informal visit to the Fourth Submarine Division. He was accompanied by Lady Luce and Rear Admiral G.G.O. GATACRE, C.B.E., D.S.O., D.S.C.* and Mrs. Gatacre.

After Admiral Luce had inspected the personnel of the Fourth Submarine Division the official party were entertained by the Captain and Commander S.M.4.

March 13th The Flag Officer Commanding Her Majesty's Australian Fleet, Rear Admiral O.H. BECHER, C.B.E., D.S.O., D.S.C.*, after returning the call of the Captain, H.M.A.S. TRUMP alongside the jetty, lunched informally with the Captain, H.M.A.S. Penguin.

March 14th The Sea Rangers held their annual regatta at H.M.A.S. PENGUIN. The organisation of the regatta was excellent as was the conduct of the girls, their relatives and friends.

March 19th The Quarterly Inspection of 1st Military Corrective Establishment, Holsworthy, was carried out. Penguin letter BND 68/1 of 3rd April, 1964 refers.

March 20th A cocktail party was held in the Wardroom for approximately 100 guests.

March 28th/31st The Flag Officer Submarines, Rear Admiral H.R. LAW, C.B., O.B.E., D.S.C., accompanied by his Chief Staff Officer (Material) Captain G. GAY, M.B.E., D.S.C., R.N. visited H.M.A.S. Penguin on 31st March, 1964. He was later entertained at a cocktail party given by the Commander and Officers of the 4th Submarine Division, in Penguin Wardroom. On the following evening the Admiral was entertained in the Chief Petty Officers Mess.

3. SEA CADETS

A Sea Cadet Officers indoctrination course of Seven Officers was conducted during the period 8th - 15th March, 1964. Penguin letter BND 159/1 of 3rd April, 1964, refers.

A weekend training camp was held in Penguin from 13th - 15th March for the Sea Cadet drum and bugle band of T.S. SIRIUS.

4. VOYAGER SURVIVORS

From 1000 11th February injured survivors from H.M.A.S. VOYAGER were received in H.M.A.S. PENGUIN, by helicopter. Other survivors commenced arriving by bus from 1315.

A special dinner was provided for the main body of men who arrived

AUSTRALIAN WAR MEMORIAL RCDIG1074456

early afternoon. Arrangements were made for relatives who were waiting for their arrival to be provided with light refreshments in the West Cafeteria.

After lunch the survivors were sent to the Clothing Store for such kit as was available at the time. The Royal Edward Victualling Yard made a special delivery at short notice and each man was given at least enough kit to enable him to travel home on survivors leave and be reasonably well dressed for the period of leave. A group of Wrans volunteered to sew on badges and their services were much appreciated.

At the Clothing Store a Supply Officer was also in attendance to deal with pay matters. On instructions from the Command Supply Officer each man was to be paid what he stated was his normal fortnightly pay. Very few in fact asked for large sums and there were a large number who only wished to receive "a fiver to see me home".

The Commonwealth Savings Bank, Sydney Branch, telephoned information that they would send an officer out to Balmoral Naval Depot on the following day to attend to any banking business for the survivors.

The survivors were despatched on 7 days survivors leave as soon as they were fit for travel. Penguin letter BND 170/1 of 24th February, 1964, refers.

5. MAIN JETTY

The main jetty of H.M.A.S. PENGUIN is currently under repair by Department of Works contractors. Nine piles and 12 bearers have been replaced and portions of the edging pieces renewed. Areas of decking were lifted to enable access to the piles and bearers.

The Damage Control Equipment Committee meeting was held at the School on Friday 6th March.

Mr. Gawood, Technical Director, of Nu-Swift Ltd. visited the school on Wednesday 26th February, to demonstrate to the school and officers of the Fleet the latest equipment manufactured by that firm.

Two, 2 day Fire-fighting and Repair courses were given to members of the Royal Army Engineers on the 13th, 14th February, and 16th 17th March. The latter were 12 Officers undergoing the long Transportation course.

R.A.N.R. Training in A.B.C.D. has been carried out on Thursday evenings.

7. WRANS

The present strength of the Unit is One Officer, one Chief Wran, three Petty Officer Wrans, thirteen Leading Wrans, fifty-four Able Rates and five Recruit Wrans.

During the Quarter one Petty Officer was advanced to Chief Wran, one Leading Wran was advanced to Acting Petty Officer Wran, one Leading Wran was confirmed in her rate, one Wran was advanced to Acting Leading Wran and nine Recruit Wrans were advanced to Able Rate. One Leading Wran re-engaged for a period of two years and there were six discharges.

SPORT Inter-Service Swimming was held on 20th March, 1964 and the Wrans Team was placed second. Members of the team from H.M.A.S. ALBATROSS and H.M.A.S. HARMAN were accommodated in the Wrans Quarters for one week prior to the Swimming.

Three Petty Officer Wrans and three Wrans were employed on the Navy Stand at the Royal Easter Show. Three Wran Radar Plotters were employed as scorers for the Equestrian events.

Morale and Discipline are satisfactory.

8. BALMORAL NAVAL HOSPITAL

The C.D.A. Section of Balmoral Naval Hospital was transferred from the condemned wooden huts to the top floor dormitory in the "National Service" building, ~~the movement being accomplished~~ on 6th January, 1964.

On 2nd February, 1964 Surgeon Captain K.C. ARMSTRONG, Q.H.P. R.A.N. took up his appointment as Medical Officer-in-Charge, Balmoral Naval Hospital, relieving Surgeon Captain R.M. COPLANS, R.A.N.

A total of seventeen injured survivors from H.M.A.S. VOYAGER were treated as inpatients in Balmoral Naval Hospital.

9. ENGINEERING ELECTRICAL AND TRANSPORT DEPARTMENT

Boilers New boiler fronts have been fitted with a few minor adjustments still to be made.

Emergency Generating Plant Trials were carried out on 17th March, with both diesel generators on depot load to determine if they could be run with the doors of the compartment closed. After three hours of running the diesel generators overheated and the doors had to be opened. Penguin letter BND 130/23 of 8th April, 1964 refers. The County Council Electricity department carried out repairs to their transformers during this trial.

AUSTRALIAN WAR MEMORIAL RCDIG1074456

(Copy to: The Commanding Officer,
H.M.A.S. PENGUIN.)

Forwarded for the information of the Naval Board.

2. The matter mentioned in paragraph 7 of Minute I regarding the Emergency Diesel Generator Sets has been resolved. It has been decided not to change the radiator cooling fans, and to open the doors of the generator house in case of need.

3. The fire of June 26th was caused by a contractor who has been requested to make good defects. Report on this fire has been forwarded under separate cover. The fire was handled with promptness by the medical staff which prevented a major fire from developing.

4. With reference to paragraph 12, T.R.V. 2, was damaged on the afternoon of 6th May as a result of a heavy bump in the recovery of a torpedo in difficult sea conditions; there were no immediate indications of damage. Although an increase in the depth of bilge water was observed when the boat returned alongside, no action was taken by either the Senior Engine Room rating or the Coxswain when it was reported to them as it was the opinion of the Senior Engine Room rating that this was the result of normal leakages, etc. aggravated by the heavy seas experienced during that day. The crew left the boat at 1630.

5. The boat was checked during rounds on the night of 6th/7th May but nothing unusual was observed and it was not until 0730 on 7th May that it was reported that the T.R.V. was low in the water and down by the bows. Early action was taken to place the T.R.V. in the hands of Garden Island Dockyard for repairs.

The following inspections and trials were carried out:-

H.M.A.S. DERWENT

Fire Fighting Equipment Trial	5th May
Final Pre-wetting Trial	5th May
Final Darken Ship Trial	7th May

Annual Inspections East Australia Area.

The following annual A.B.C.D. Inspections were carried out:-

H.M.A.S. CRESWELL	8th April
H.M.A.S. WATSON	30th April

Other Activities

R.A.N.R. Training in A.B.C.D. has been carried out on Thursday evenings.

Construction of the extensions to the Damage Control Unit are progressing well. It is hoped that it will be operational by the beginning of August.

6. W.R.A.N.S.

The present strength of the Unit is One Officer, One Chief Wran, four Petty Officer Wrans, fourteen Leading Wrans, fifty five Able Rates and Seven Recruit Wrans.

During the Quarter, two Leading Wrans were advanced to Acting Petty Officer Wrans, two Leading Wrans were confirmed in their rate, five Wrans were advanced to Acting Leading Wrans, and two Recruit Wrans were advanced to Able Rate. There were three discharges.

Sport Inter Service Softball was held on 20, 21, 22 May, 1964 at Victoria Barracks. The Wrans team was placed second having defeated the Air Force 17-23 and being defeated by Army 9-7. The team was made up of five PENGUIN Wrans, two HARMAN Wrans, and two ALBATROSS Wrans. The Visitors were accommodated in the Wrans Quarters.

Entertainment A Cabaret was held on the 29th April, in the West Cafeteria to celebrate the WRANS 23rd Birthday. It was an enjoyable and successful occasion.

Morale and discipline of WRANS has been satisfactory.

7. Engineering, Electrical and Transport Department.

Boilers The new boiler fronts have been fitted and a few minor adjustments are still to be made.

Emergency Generating Plant As reported in my previous Report of Proceedings and Penguin letter BND 130/23 of 8th April, 1964 trials were carried out on the 17th March with both diesel generators on depot load to determine if they could be run with the doors of the compartment clased. After three hours of running the diesel generators overheated and the doors had to be opened.

Following these trials the dockyard decided to change the angle of the fan blades, so as to reverse the flow of the air to the rear of the engine where it could be more easily dissipitated. F.O.I.C.E.A.'s letter N33/11/194, 30th April, 1964 refers.

After one of the fans had been forwarded to Garden Island Dockyard Engineers decided that this modification could cause damage to the engine. This theory is still under investigation. The fan has been returned unchanged and replaced on No. 1 Diesel which has just completed a top overhaul.

Electrical Re-wiring of main ratings block has been completed excepting for a few minor items, which require additional finance.

Motor Boats Minor maintenance has been carried out daily and motor boats continue to operate satisfactorily. F.M.B.1201 having been on loan to H.M.A.S. ANZAC has now been returned and A.W.B. 425 has been sent to Garden Island for Annual survey.

AUSTRALIAN WAR MEMORIAL RCDIG1074456

Transport Continues to operate satisfactorily. There has been an unacceptably high frequency of minor accidents during the quarter. Action is being taken to curb this trend.

Air Conditioning & Cool Room Units

A new air conditioning unit has been fitted in the Surgical Hospital loft for the operating theatre. The work has been completed. Two new Cool Room units are being fitted in the main galley by A.G. Pearsons Ltd. - The contract is near completion.

Hall Scott Test Bay

Maintenance is being carried out by Dockyard Staff. The fresh water cooling tank exhaust pipes are being lagged, two in No. lengths of water jacketed exhaust pipe to be manufactured, and installed by Garden Island. All existing electric fuel feed pumps are to be replaced with hand operated Wobble pumps as currently fitted in S.A.R.'s.

The Engineroom and Electrical Department functions satisfactorily despite frequent changing in staff. During the quarter the Depot Engineer Officer was appointed to shore on retirement without relief and the Engineer Officer appointed for A.B.C.D. School is now carrying out the dual duty. This is an unsatisfactorily situation which has been represented to theComplements Committee.

8. Medical

During the quarter under review the upper floor of the upper hospital has been painted. This necessitated closure of the operating theatre for one week leading to an extremely busy period afterwards.

AUSTRALIAN WAR MEMORIAL RCDIG1074456

Other Sports — There is also minor interest in the Establishment in Australian Rules, Skiing and ten pin bowls.

12. Works & Property

Gas — Gas Main Service has been installed by the North Shore Gas Company to all galleys prior to the installation of the new ranges.

Sanitation — The water service to the toilet flushing system is currently being renewed with copper piping by a Department of Works contractor. The Medical Hospital, Administration Block, Chiefs and Petty Officers Block, Wardroom and Guardhouse have been completed. The main ratings block and Surgical hospital are in hand.

Painting — Internal painting of the Surgical hospital is in hand by Department of Works and progressing well. A bulk contract has been let for the external painting of the Medical Hospital and Main ratings block and work has commenced.

Boats — On the night of 6th/7th May TRV 2 was flooded alongside Penguin wharf following damage from a torpedo on the preceding day (BND 038/1/1 of 28th May, 1964 refers).

13. E.A.A. Band

The E.A.A. Band, augmented as necessary by the band's of the Fleet & H.M.A.S. Albatross has carried out a heavy schedule of engagements with credit. The Reserve Band from H.M.A.S. Rushcutter carried out annual continuous training during the quarter.

14. Sea Cadets

One officer and fifteen cadets from T.S. TOBRUK attended a weekend camp at H.M.A.S. Penguin on 10-12th April, 1964.

One officer, two petty officer instructors and nineteen cadets from Training Ship Canberra and SIRIUS attended a ten day camp from 8th-18th May, 1964 in H.M.A.S. Penguin.

Two Officers, one petty officer instructor and twenty cadets from T.S. Condamine and Warrego attended a training weekend from 19th to 21st June, 1964.

The Sea Cadet Band of T.S. Sirius were accommodated in Penguin for one week. They responded well to instruction.

5. W.R.A.N.S.

The present strength of the Unit is One Officer, One Chief Wran, Five Petty Officer Wrans, Sixteen Leading Wrans, Fifty One Able Rates and Six Recruit Wrans.

During the Quarter One Petty Officer Wran was confirmed in her rate, One Leading Wran was confirmed in her rate, Four Wrans were advanced to Acting Leading Wrans and Three Recruit Wrans were advanced to Able Rate. There were Four discharges.

Sport: Inter Service Hockey, Basketball, Tennis and Athletics were held during the quarter. The Wrans Teams were drawn from HARMAN, ALBATROSS and PENGUIN, the visitors being accommodated in the Wrans Quarters. The Wrans were placed second in the Hockey, Basketball and Tennis and were successful in winning the Athletics for the first time.

Entertainment: A Theatre Night was arranged for a group of Wrans to attend "Stop The World I Want To Get Off" on July 31st, 1964. A Bar b Que was held in the Scout Hall H.M.A.S. Penguin on 20th August, 1964. This was arranged by the Ship's Company and Wrans and proved to be a most successful evening.

Royal Brisbane Show: Four Wrans were employed on the Navy Stand at the Royal Brisbane Show from the 5th to 14th of August, 1964.

Visit of U.S.S. Enterprise: Eight Wrans worked as Liaison Officers working on the Telephones and information booth during the visit of the Enterprise.

The Morale and discipline of the Wrans is satisfactory.

6. ENGINEERING, ELECTRICAL AND TRANSPORT.

Engineering: "Boilers" - The new boiler fronts with automatic operation have now been accepted from the contractors and are performing satisfactorily.

The Emergency generating plant has been run on two occasions when main power in PENGUIN has failed and performed satisfactorily. A top overhaul has been carried out on No. 3 Diesel.

Electrical: The electrical services have operated satisfactorily.

Motor Boats: AWB-425 completed annual survey and refit. Maintenance routines have been carried out on AWB-405, AWB-425, and FMB-1201.

Transport: The minor accident rate has decreased during the quarter. An urgent requisition has been made for replacement of two ambulances. A survey has been carried out but the recommendations are still awaited. Transport continues to run satisfactorily.

Air Conditioning & Refrigeration Units: All units have been accepted from contractors and are performing well.

Hall Scott Test Bay: Dockyard work is almost completed.

Engineering and Electrical Complement: The number borne varies with Fleet requirements and personnel appropriated Penguin (Medical) but in general the requirements of the establishment have been met by all departments.

7. MEDICAL.

Balmoral Naval Hospital has been very busy during the quarter, with a bed average of 70, reaching a peak of 86 in mid August.

Due to the Sick Berth Staff being continually one third below complement, they have been employed in two watches during this period.

A Clinical Meeting was held in the Medical Training School on 11th August, the lecturer being Dr. L.D. WHEELER, Consultant Urologist.

There has been a general shortage of Medical Officers both in Penguin and available from the Command as Medical Guard in B.N.H.

9. During the quarter 16 punishment warrants were read in H.M.A.S. Penguin including 5 for Penguin personnel and 11 for personnel of other ships appropriated to Penguin for disciplinary action. 13 of these warrants were for desertion.

10. SPORTING.

Keen interest in sports continues to be displayed.

Judo Judo instruction continues to be given in the gymnasium to officers, ratings and Wrans by Colonel Laughlin, Chief Instructor Transportation Centre Georges Heights.

Golf Penguin Golf Club completed the weekly series of the East Australian Area W.D. & H.O. WILLS Trophy, Competition and finished in 5th place. Weekly social games continue to be held on local courses and are very popular.

Rugby Penguin in association with Kuttabul and F.O.I.C.E.A. Ships completed the season in the Dempster Cup series finishing in 5th place. Some social matches have been played by Penguin, travelling on two occasions to Canberra for weekend games. Penguin provided the "Curtain Raiser" games for the Final and Grand Final of the Dempster Cup series at the Vimera Oval Eastwood.

Soccer S.M.4's soccer team completed the Admiral Showers Trophy competition finishing in first place.

Other Sports There is also minor interest in the establishment in Australian Rules, Skiing, Ten Pin Bowling, Badmington, Squash and Tennis.

Swimming The Penguin Swimming Pool opened on 22nd September, 1964.

11. WORKS AND PROPERTY

The renewal of Flushette system throughout the Main buildings by contractor has now been completed.

Painting: Internal painting of the Surgical Hospital and the external painting of the Main Rating's Block, Post Office, Chief's & Petty Officer's Block and Verandahs of A.B.C.D. Block has been completed.

The removal of the poplar trees at the rear of the Main Rating's Block to facilitate renewal of a sewerage line has commenced.

12. EAST AUSTRALIA AREA BAND

The East Australia Area Band (H.M.A.S. Penguin and Albatross) carried out the following programme during the quarter:-

July 7th	Bands commence rehearsals for R.A.N.C. Passing Out Parade, and forthcoming Northern Queensland and Brisbane Tour.
July 17th	Passing Out Parade at R.A.N.C.

AUSTRALIAN WAR MEMORIAL RCDIG1074456

July 20th	Continue rehearsals for Tour.
July 24th- Aug. 15th	Queensland Tour and Brisbane Exhibition.
Aug. 24th	Funeral Service at H.M.A.S. Watson.
Aug. 25th	Commence rehearsals for Newcastle and Hunter River Valley Tour.
Sept. 3rd- Sept. 12th	Newcastle and Hunter River Valley Tour.
Sept. 18th	Rehearsals for British Tournament and Tattoo.
Sept. 22nd A	Admiral's Inspection H.M.A.S. Penguin.
Sept. 25th- Sept. 30th	British Tournament and Tattoo.

I accompanied the band on their North Queensland Tour and was most impressed by the excellence of their performance, often under adverse conditions, and by the surprisingly cordial welcome extended, without exception, by the people. I was left in no doubt that the Navy was highly regarded and welcome in this area, and that this appreciation was enhanced by the fine bearing, conduct and professional performance of the band. As a goodwill venture the tour undoubtedly paid dividends. It is estimated that a total of 60, 000 school children and 120,000 adults attended the various performances on this tour.

Great care and attention had obviously gone into the organisation of the tour which proceeded without serious incident except for the mid-tour cancellation of the Charter aircraft. More flexibility is needed in the arrangements to cope with such occasions.

The tempo of activities of the band throughout the quarter has been excessive and thought should be given in future to a long range planned programme providing for adequate periods of rest and relaxation. The Command Band Officer is aware of this need.

13. SEA CADETS.

There were no Sea Cadet activities in H.M.A.S. Penguin during the quarter.

14. Morale and discipline remains at a satisfactory standard.

A.N. DOLLARD,
CAPTAIN.

During the visit to Sydney of the French Naval Ship DOUDART de LAGREE 19th October - 23rd October, facilities of the Fire Ground were made available to them.

Saturday, 21st November, Police Boys Club - Belmore.

P.M., Fire Fighting Demonstration.

5. W.R.A.N.S.

The present strength of the Unit is One Officer, One Chief Wran, Four Petty Officer Wrans, Sixteen Leading Wrans, Forty Eight Able Rates and Nine Recruit Wrans.

During the Quarter, two Petty Officer Wrans were confirmed in their rate, Three leading Wrans were confirmed in their rate, two Wrans were advanced to Acting Leading Wrans and six Recruit Wrans were advanced to the Able Rate. There were eight discharges.

Entertainment.

The Wrans have combined with the Ship's Company in forming a Depot Entertainments Committee, and have successfully held two Bar-B-Ques and two Dances, one being the Christmas Dance. These functions were well attended and enjoyed by all present.

The Military Tattoo and British Trade Fair.

Three Wrans were employed on the Navy Stand at the recent British Trade Fair and acquitted themselves well.

United Charities Competition.

A Wran represented the Naval Association in the recently held United Charities Competition. Approximately £1000 was raised at various functions which were attended by our representative.

Morale and discipline are satisfactory.

AUSTRALIAN WAR MEMORIAL RCDIG1074456

6. ENGINEERING, ELECTRICAL & TRANSPORT.

Engineering.

The Electric Controllers for the burners of the Main boilers are giving continuous trouble. Due to these defects there have never been two boilers operational at one time. The Works Department are investigating this recurring defect.

Electrical.

The C.P.O.'s and P.O.'s building has been rewired by Contractors and work on rewiring the Wardroom is progressing. Electrical equipment in the Depot generally functions satisfactorily.

Motor Boats.

The loss of A.W.B. 405 restricts the boat routine to some extent. Although a Motor Cutter and Motor Whaler have been added to the boat complement their size limits the carrying capacity.

Transport.

Towards the end of this quarter the bus complement has been reduced to two in number due to one vehicle being beyond repair, one other waiting financial approval for work and a major defect being discovered in a third. This reduction of vehicles together with the A.W.B. being unserviceable for a period gave rise to disorganisation entailing the assistance of Dept. of Supply Vehicles to maintain the Transport schedule.

Out-drafting of Male drivers also gave rise for concern but temporary in-drafting of three drivers has overcome the situation.

Air Conditioning and Refrigeration Units.

All units are running satisfactorily.

Hall Scott Test Bay.

Work on the Exhaust Pipe System is complete and the Bay has been working at full capacity for the last month, testing Hall Scott Engines.

Complement.

The numbers borne for the Electrical and Engineering Departments varies with Fleet Requirements and Personnel appropriated PENGUIN (Medical), but the requirements of the Establishment have been met by all Departments.

7. MEDICAL.

The average daily number of patients in Balmoral Naval Hospital was 65 during the quarter, and as there has been no improvement in the number of Sick Berth ratings borne, they continue to be employed in two watches.

The ambulances are becoming increasingly unreliable and are quite unsuitable for conveyance of the sick.

During the quarter 22 punishment Warrants were read in H.M.A.S. PENGUIN including 11 for PENGUIN personnel and 11 for personnel of other Ships appropriated to PENGUIN for disciplinary action. Eight of these warrants were for Desertion.

10. SPORTING.

Judo.

Judo instruction continues to be given in the Gymnasium to Officers, ratings and Wrans.

Golf.

Golf continues to be a popular sport. Weekly social matches being played by the PENGUIN Club. One member having represented in the Inter Service matches held this quarter.

Cricket.

PENGUIN, in association with KUTTABUL, are fielding a Team in the I ZINGARI competition.

Volley Ball.

A very successful lunchtime, inter part competition was held. This proved very popular among the Ship's Company.

Swimming.

The swimming pool is continually in use, being used by Male and Female personnel. This proves to be a very popular facility. Unfortunately, PENGUIN, through lack of players, was forced to withdraw from the Lorraine Crapp Inter Ship Water Polo competition.

Other Sports.

There is also minor interest in the Establishment in Fishing, Skiing, Ten Pin Bowling, Badminton, Squash, Lawn Bowls and Tennis.

11. WORKS & PROPERTY.

Electrical re-wiring of C.P.O.'s and P.O.'s Block and Wardroom commenced early November and is progressing satisfactorily.

Approximately 200 ft. of the Boundary Fence in the Fire Practice Area renewed and the gates repaired.

Painting of the Internal Steel Trusses in the Work Shops commenced late November and is progressing satisfactorily.

HMAS PENGUIN,
BALMORAL....NSW.

23 APR 1965

Sir,

I have the honour to report the proceedings of HMAS PENGUIN for the three months ending 31st March, 1965. A diary of events is at Enclosure 'A'.

On the 4th January, Captain R. J. SCRIVENOR, RAN, assumed Command vice Captain A. N. DOLLARD, DSC., RAN.

2. I had the pleasure of entertaining His Excellency the High Commissioner of Malaysia Tun Lim Yew Hock and his wife, together with FOICEA, Rear Admiral O. H. Becher, CBE., DSO., DSC and Bar, and Mrs. Becher to lunch in my quarters on the 12th February, prior to the presentation of a Ceremonial Tiger Skin to the East Australia Area Band by His Excellency, the High Commissioner of Malaysia.

The Tiger Skin was accepted on behalf of the Band by Rear Admiral O. H. Becher, CBE., DSO., DSC and Bar, during a short Ceremony held in PENGUIN. The Skin was then paraded by the Drums of the Band.

3. During Open Day held on the 27th February, in conjunction with CHURCHILL Week, approximately 1,000 persons visited the establishment.

TRAINING.

Seamanship. Training has continued steadily throughout the quarter. Out of a total of 55 ratings, 47 successfully completed courses.

A.B.C.D. The total numbers trained in the A.B.C.D. School during the quarter is 306.

Respirators were fitted, tested and repaired for the Ship's Companies of HMA Ships GASCOYNE, PARRAMATTA, RUSHCUTTER and SUPPLY.

The 26th meeting of the Damage Control Equipment Committee met at the A.B.C.D. School on Wednesday 24th March, 1965.

W.R.A.N.S.

The present strength of the Unit is one Officer, one Chief Wran, four Petty Officer Wrans, eighteen Leading Wrans, fifty-two Able Rates and eight Recruit Wrans.

During the Quarter, one Leading Wran was advanced to Acting Petty Officer, three Leading Wrans were confirmed in their rate, three Wrans were advanced to Acting Leading Wran and eleven Recruit Wrans were advanced to the Able Rate. One Leading Wran re-engaged for a period of two years and there were nine discharges.

WORKS AND PROPERTY.

A total of £24,942 having so far been approved for Works and Property in the current year and to date work to the value of £11,453 has either been commenced, completed or let to private contractors. A summary of works already taken in hand is given in Enclosure 'B'.

The major items approved to be undertaken, but for which tenders have yet to be called, are:

(a) Painting of Married Quarters;

(b) Surfacing of the roads, repairs to Flat Roofs.

ENGINEERING, ELECTRICAL AND TRANSPORT.

The motor transport, boats and electrical equipment continues to function satisfactorily. Main Boilers have now been functioning satisfactorily for some time.

Transport, particularly the 4th Submarine Squadron and Band Commitments continues to cause concern due to shortage of MTDs and this matter has been raised in my signals 090538Z December 1964 and 150412Z April 1965. MTDs borne PENGUIN temporarily ease the situation from time to time but seldom for any lengthy period.

MOVEMENTS.

A total of 1,518 movements have taken place during the quarter. A break down of this number is shown in Enclosure 'B'.

SPORTS AND WELFARE.

An active interest is displayed by all members of the Ship's Company in a number of sporting activities. Outside working hours there has been a keen support for Volley Ball, Judo/ Karate and swimming. A very good Judo display was given on PENGUIN's Open Day during CHURCHILL Week.

The Welfare Committee has met regularly and the Ship's Welfare Fund and Canteen are in a healthy financial state.

DISCIPLINE.

During the quarter 26 punishment warrants were read in PENGUIN, of these 25 were awarded for desertion. A break down of this figure relating to Ships and Establishments is given in Enclosure 'B'.

AUSTRALIAN SEA CADETS.

The following Training was carried out by the SCC.

Continuous Training 10th to 22nd January 1965 - 1 Officer, 1 PO and 32 cadets.

Weekend Training 19th to 21st February 1965 - 2 Officers, 2 POs and 30 Cadets.

On the 20th February, 1965 the NSW Division of the Australian Sea Cadet Corps held its annual swimming carnival in HMAS PENGUIN Swimming Pool.

Prizes were presented by Rear Admiral H. A. Showers, CBE., (Retired).

EAST AUSTRALIA AREA BAND.

The East Australia Area Band has had an extremely busy programme throughout the quarter and have fulfilled their tasks with credit. A detailed diary of the Band's programme is at Enclosure 'C'.

3. I am most concerned about the situation reported in paragraph 26. Emergency action was taken to meet a crisis as reported in paragraph 25. However, this is not always possible, nor is it possible to work Balmoral Naval Hospital staff long hours in two watches for protracted periods. This can only lead to an unacceptably lowered standard of efficiency and acrimonious comparison with other branches of the service making the recruiting to the S.B.A. Branch worse than at present. It is essential that the hospital staff be augmented as early as possible by increased recruiting of W.R.A.N.S. and/or sisters and even reduction of the recruit time of S.B.A.'s to alleviate the situation. This matter was previously represented to the Naval Board in my letter N73/12/13 of 9th June, 1965.

HMAS PENGUIN,
BALMORAL...NSW.

27 JUL 1965

Sir,

I have the honour to report the proceedings of HMAS PENGUIN for the three months ending the 30th June, 1965. A diary of events is at enclosure A.

2. On the 24th May, 85 Ordinary Seamen (various) commenced to join PENGUIN from CERBERUS to await the return of HMAS SYDNEY from overseas. In general these sailors were employed within their designated departments.

3. Working parties were organised for limited periods to assist HMAS SUPPLY (20), HMAS WATERHEN (8) and HMAS RUSHCUTTER (20). Further, a guard of 54 was trained on two occasions to meet commitments in Canberra.

4. A complaint that the Navy was removing trees in PENGUIN resulted in a Ministerial enquiry late in June. In fact, no trees had been cut down; but three trees will have to be removed at the western end of the Main Block when the Submarine Support Facility accommodation extensions are commenced.

5. For some months now, the people of Mosman have complained that the Army is despoiling this area by removing the natural cover in order to erect some 17 married quarters.

TRAINING.

6. Seamanship training has continued steadily throughout the quarter. Of 58 sailors who completed seamanship courses, 51 were successful.

7. Of 27 candidates for the command test held during May, 26 passed.

8. N.B.C.D. The total numbers trained in the School during the period is as follows:

Standard N.B.C.D.	201
Advanced N.B.C.D.	191
N.B.C.D.O. Assistant	3
Officers N.B.C.D.	5
Passive Defence	1

Pre-commissioning training for HMAS VENDETTA which included:

1 day fire fighting
2 days monitoring
1 day decontamination
1 day Damage Control Headquarters exercise
1 day N.B.C.D. Unit exercise.

One day Fire-Fighting courses were conducted for the following ships:-

HMS/M TRUMP	40
HMAS SNIPE	64 = 24

...2...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

Inspection and testing of Anti-gas Respirators.

9. The following Ships Companys' have had Respirators tested, fitted and repaired:-

HMAS WATSON	275
HMAS VENDETTA	115
HMAS ALBATROSS	300
HMAS PENGUIN	213
HMAS HARMAN	130
HMAS ANZAC	190
Total	1,223

Numbers of new Anti-gas Respirators issued - 52.

Smoke nuisance from Practice Fire Ground.

10. This problem has been discussed with a representative of the Department of Supply. To date the problem has not been solved. However, efforts continue, to devise ways and means of reducing this nuisance.

Training Aids.

11. Navy Office Letter 400/201/166 dated the 13th November, 1964 approved training aids which will greatly improve the standard of instruction. Procurement of these items has been delayed due to lack of funds. FOICEA letter N98/5/478 dated the 5th March, 1965 refers.

Staff.

12. The 1965/66 course programme was produced on the basis of the school being staffed according to complement. The death of Lt. Ctercteko has resulted in a serious loss to the Instructional staff and unless replaced difficulty will be experienced in fulfilling the task and rendering assistance to Ships of the Fleet.

13. Australian Sea Cadet Corps. An Indoctrination Course for six Sea Cadet Officers was arranged for the period 9th to 16th May. Also in May 10 out of 16 cadets qualified for a Boat Charge Certificate and on the 26th June a seamanship board for higher rank was convened to examine 19 cadets. A letter from the Senior Officer of the NSW Division, in appreciation, is at enclosure E.

WRANS.

14. The strength of the unit has remained fairly constant at one officer and one chief Wran, five Petty Officer Wrans, fifteen Leading Wrans and fifty Wrans. There are four recruit Wrans.

15. The RAN Stand at the Royal Easter show was manned by Wrans throughout and scorers were provided for the three days of the equestrian events. Throughout the visit of U.S. Naval Ships for the Coral Sea celebrations, the information booth at Garden Island was manned by Wrans.

EAST AUSTRALIA AREA BAND.

16. A diary of performances given by the East Australia Area Band is at enclosure B.

WORKS AND PROPERTY.

17. During the past three months contracts to the value of £13,698 have either been commenced, completed or let to private contractors, the major works being the construction of new roads and the painting of eight married quarters. No official notification of a contract being let for the demolition of the temporary buildings No.28 (CDA Huts) has been received but I understand that a contract for this task has been let.

18. Extensions to the Wardroom and Main Block. Commonwealth Department of Works surveyors and architects have visited PENGUIN periodically during the quarter to check foundations and service lines for the extensions.

19. Female Officers' Accommodation. A recommendation that female officers' accommodation in PENGUIN be brought into line with the services Scales and Standards be considered jointly in the plans for extending the Wardroom for Submarine accommodation, was forwarded in my letter BND.130/12 dated the 14th July, 1965.

20. The problem of providing satisfactory female officers' accommodation will become more acute if proposals, forwarded in my letter BND.37/14 dated the 17th June, 1965, to increase the complement of nursing sisters by five, are agreed.

21. A detailed summary of contracts let, started or completed, is given in enclosure F.

ENGINEERING, ELECTRICAL AND TRANSPORT.

22. The motor transport, boats and electrical equipment continues to function satisfactorily. Work on the boilers is in hand by contractors as follows:

No.1 Boiler - 5 tubes to be replaced and the electric circuits overhauled.

No.2 Boiler - complete rebricking and overhaul of the electric circuits.

23. The shortage of MTDs is a continual problem and the situation still remains as reported for the first three months of the year.

BALMORAL NAVAL HOSPITAL.

24. The fact that Balmoral Naval Hospital is critically undermanned, primarily in the Branch of Sick Berth Attendants, was the subject of my report BND.37/14 dated the 3rd June, 1965.

25. Some relief was gained by the posting of three Sick Berth Attendants and one Wran Sick Berth Attendant, (FOICEA DTG 310150Z/May), from ALBATROSS and at the same time use was made of five Ordinary Seaman (SBA) whilst borne in PENGUIN to await SYDNEY. In addition, one Leading Sick Berth Attendant was borne from the 1st June - 7th June, 1965.

...4...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

26. Currently BNH is organised in two watches and SBAs are on duty in the hospital 128.1/2 hours per fortnight and are required onboard, on call, for a further 51 hours each fortnight.

27. Accident Cases. During the first six months of the year, 123 accident patients have been admitted to BNH, of which approximately one third were the result of accidents in private motor vehicles.

28. The direct cost to the Service in the loss of a man's time is considerable and one which we can ill afford; but indirectly, the compilation of accident reports and Commonwealth Employees' Compensation Claims has resulted in a marked increase in the administrative work load.

29. A breakdown of the number of accident patients since 1st January is as follows:

39 - Private Motor Vehicles.
25 - Sporting injuries.
59 - Other accidents.

MOVEMENTS.

30. A total of 1,662 (1,518 last quarter) have taken place during the quarter. A breakdown of this number is given in enclosure C.

SPORTS AND WELFARE.

31. The Wrans won the Inter-Service Softball which was played on Balmoral Oval 19th to 21st May. Their hockey team entered in the North Sydney Association is meeting with limited success.

32. An active interest is taken by the Ship's Company in a number of sports. Outside working hours there is keen support for Volley Ball, Judo/Karate and Tennis.

DISCIPLINE.

33. Twenty punishment warrants were read in PENGUIN in the past three months, of these seventeen were for desertion.

34. A detailed explanation of all Naval offenders received at the First Military Corrective Establishment, Holsworthy, for the period under report is given at enclosure D.

Letter of appreciation from the Senior Officer Australian Sea Cadet Corps (NSW Division)

The Captain,
HMAS PENGUIN,
BALMORAL....NSW.

Dear Sir,

A.S.C.C. - BOAT CHARGE CERTIFICATE COURSE - HMAS PENGUIN
MAY 14TH TO MAY 24TH, 1965

I should like to express my appreciation of the facilities extended by you which gave Sea Cadets the opportunity to obtain a Certificate of Competency as a Coxswain.

Your Officers and Instructors went to no end of trouble to ensure every possible aspect of boat work was covered and I am confident that all Cadets even those who failed, are richer in knowledge both by learning and practical experience than they could ever hope to achieve within the confines of their normal Unit training.

Again my sincere appreciation,

Yours faithfully,

L. MACKAY-CRUISE
Lieutenant Commander, R.A.N.R.
Senior Officer

HMAS PENGUIN,
BALMORAL...NSW.

25 OCT 1965

Sir,

I have the honour to report the proceedings of HMAS PENGUIN for the three months ending the 30th September, 1965. A diary of events is at enclosure A.

2. Vice Admiral Sir Frank TWISS, K.C.B., D.S.C., Commander Far East Fleet, inspected the 4th Submarine Squadron at Divisions and also their facilities in PENGUIN on the 24th September, 1965. He was accompanied by Captain S. F. BERTHON, R.N.

3. Departmental inspections by East Australia Area Staff Officers were carried out during September, prior to the Annual Inspection of HMAS PENGUIN on the 30th September, 1965, by Rear Admiral O. H. BECHER, C.B.E., D.S.O., D.S.C., and Bar, Flag Officer in Charge, East Australia Area. (FOICEA DTG 300503Z/September, copy attached, is relevant.)

4. Joint RAN/RAAF Legal Conference was held in HMAS PENGUIN over the weekend 21st - 24th August. Sixteen RAN, thirty-five RAAF and four AMF officers attended. (Navy Office file 8/3/110 is relevant).

TRAINING.

5. Seamanship has continued throughout the quarter and the number trained has been fairly constant. Of fifty-six sailors (fifty-eight previous quarter) who completed seamanship courses, fifty-four (fifty-one previous quarter) were successful and ten candidates for command test held during August, passed.

6. A helicopter winching demonstration was arranged on Wednesday the 8th September and proved to be of good training value. I hope to include this demonstration on a regular basis for Seamanship classes.

7. NBCD. The numbers trained in the School were:-

	Quarter under Review	Previous Quarter.
Standard NBCD	207	201
Advanced NBCD	154	191
NBCD (O) Asst.	-	3
Officers A5 Course	5	5
Midshipmen A5 Course	32	-
Monitoring Officer, A6 Course	1	-
Passive Defence	-	1
RAE (Water Transport) (note 1)	23	-
RAE (Officers transportation Course)(Note 1)	5	-
Total	407	401

Note 1. Two days Fire Fighting and Damage Control.

RECEIVED 26 OCT 1965 CENTRAL REGISTRY GARDEN ISLAND

...2...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

8. Inspection and testing of Anti-gas Respirators was undertaken for the following Ships' Company.

HMAS ALBATROSS	300	
HMAS HARMAN	130	
Total	430	(1,223 previous quarter)

The number of new Anti-gas Respirators issued was seventy-two as compared to fifty-two the previous quarter.

9. Although the total number trained is approximately the same as the previous quarter, the number of courses have been increased as follows:

Advanced A2 NBCD from 6 to 10
Standard A1 NBCD from 6 to 8.

10. Australian Sea Cadet training was carried out over the weekend 17th to 19th September by two Officers, two Petty Officers and twenty-six Cadets.

WRANS.

11. The RAN Stand at the Royal Brisbane Show, 3rd to 15th August, 1965, was manned by three Wrans from PENGUIN.

12. The strength of the unit has remained fairly constant. During the quarter there were one re-engagement and four discharges.

EAST AUSTRALIA AREA BAND.

13. A diary of performances given by the East Australia Area Band is at enclosure B. The main commitment during the quarter being a prestige tour of Victoria and South Australia.

WORKS AND PROPERTY.

14. Since the last quarterly Report of Proceedings was submitted, contract work to the value of £23,420 has been completed, but not yet wholly accepted, work to the value of £4,764 has been started and work to the value of £6,620 has been approved for the 1965/1966 Financial year.

15. Details of work completed, commenced or approved, are as follows:-

(a) Workshops sewerage pump system, commenced February, 1965, completed. Cost £8,500 not yet accepted.

(b) Depot roads, commended May, 1965, completed. Cost £11,500 not yet accepted.

(c) Depot cottages (8 in No.) painting commenced July, 1965, progressing. Cost £3,080.

(d) Furniture, Depot general, repairs commenced June, 1965, progressing. Cost £1,684.

(e) Main Signal Office. Commenced by Department of Works in January, 1965. Cost £3,870. Some items hot up to required standard thus delaying the installation of equipment.

(f) Demolition of old CDA Buildings started by contractor, not yet completed.

...3...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

(g) Rehabilitation of P.A. System, approved for 1965/66 at a cost of £2,300.

(h) Tile floors for sailor's washrooms and showers, approved for 1965/66 at a cost of £3,500.

(i) Gas fired boiler, hot water service for Wrans Quarters approved for 1965/1966. Cost £950.

(j) Replace tiles in Galleys approved for 1965/1966. Cost £5,600.

16. There have been further investigations by Department of Works Architects and Surveyors to do with additional Submarine accommodation and also Architects investigating the installation of the thermal alarm system in the Main Sailor's Block, Chief and Petty Officers' Blocks and Wardroom.

17. Department of Works Surveyors have surveyed the area at the Western end of the Administration Block for the car park to accommodate additional service transport to do with Submarine accommodation.

ENGINEERING, ELECTRICAL AND TRANSPORT.

18. The motor transport, boats and electrical equipment continues to function satisfactorily, although more frequent maintenance is required on the vehicles due to old age.

BALMORAL NAVAL HOSPITAL.

19. Over the last half of the quarter the daily average number of in-patients has decreased to approximately forty (normal daily average sixty). However, out-patients for Specialists Consultation and examination, although decreased, have not been so, to the same extent.

20. This factor, and the fact that the hospital is now manned at Reduced Peace Complement, has allowed the Sick Berth Staff to be placed in three watches for duty and leave.

21. The following numbers were treated in hospital as a result of accidents:

Motor car	7
Sport	9
Assault	5
Diving incident	1
Falling objects	1
Handling of tools	3
Collision with standing objects	2
	28

22. On the 1st September, the transfer of all Medical Stores to Naval Stores became effective vide ANO 365/65. Although the changeover has been processed it is anticipated further difficulties will arise but it is considered these can be adequately dealt with by local administration.

23. The Medical Hospital remains acutely in need of internal painting. The floor tiles outside the physiotherapy department are urgently in need of replacement. Some tiles are missing, others are torn or bubbled; these present a particular hazard to patients on crutches or with leg injuries. Requisitions covering these requirements have been raised since 1963. Approval for the painting of the Medical Hospital (internally) was approved 1963/64 for the financial year 1964/65 but was cancelled.

MOVEMENTS.

24. A total of 1,755 movements (1,662 last quarter) have taken place during the quarter. A break down of this figure is given in Enclosure C.

DISCIPLINE.

25. Twenty-five Punishment Warrants (twenty last quarter) were read in PENGUIN in the past three months, of these twenty-four were for Desertion (seventeen last quarter).

26. A detailed explanation of all Naval Offenders received at the First Military Corrective Establishment, Holsworthy, for the period under report is given at Enclosure D, together with a Summary of Punishment Warrants read in HMAS PENGUIN.

SPORTS AND WELFARE.

27. PENGUIN, in association with RUSHCUTTER and WATERHEN, took part in the EAA Dempster Cup Rugby Competition.

28. PENGUIN representation in Inter Service Sports for the quarter was:-

Golf	1 Officer, 1 CPO.
Tennis	1 Sailor
Athletics	1 Sailor, 3 Wrans.
Aust. Rules Football	1 Sailor
Rugby Football	1 PO.
Softball	3 Wrans.

29. An active interest is taken by the Ship's Company in a number of sports. Outside working hours there is keen support for Judo/Karate and Tennis.

NAVY MAN COMMENDS CLUB WORK

Clubs like Port Hacking Royal Motor Yacht Club provided excellent training in seamanship, Captain R. J. Scrivenor said on Saturday.

Captain Scrivenor is Commanding Officer of HMAS Penguin.

He said the clubs provided the nucleus during the war years of the Volunteer Coastal Patrol which later became the RAN Auxiliary Patrol.

Captain Scrivenor officially opened the Port Hacking club's 1965-66 season.

He also took the salute.

About 300 guests who watched the review were welcomed by the club's three Flag Officers and their wives, Commodore and Mrs. S. G. Tingle, Vice-Commodore and Mrs. H. S. G. Robinson and Rear-Commodore and Mrs. H. J. Rogers.

28 JAN 1966

Sir,

I have the honour to report the proceedings for the three months ending 31st December, 1965. A diary of events is at Enclosure 'A'.

TRAINING.

2. The task continues to increase and the schools have been operating almost to capacity. Nominations for courses during 1966 are already high in number.

3. The number of instructional staff below complement if maintained will inevitably affect the standard of instruction and training. Currently the instructional staff is under complement by:

1 Lieutenant (SD)	Seamanship Training
1 Chief Petty Officer	" "
2 Able Seamen	" "
1 Engineer Officer	NBCD School
1 CE(P)	" "
1 LME	" "
1 EMWE	" "
1 ME	" "

4. The numbers trained during the quarter are:

(a) NBCD School 624 (454 previous 3 months)
Total number for the year 1,291.

(b) Seamanship Training 59 (88 previous 3 months)
Total number for the year 268.

5. The RANR make considerable use of the establishment and an evolution day was held on 20th November. Training figures for NBCD 1 day courses for the quarter is 327.

6. A breakdown of training is given in Enclosure 'B'.

7. It is emphasised that although totals are substantially increased, less training time was available this quarter because of the Christmas Leave period.

8. Respirator checks totalled 531 (430 previous 3 months) for the quarter.

...2...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

WRANS.

9. The strength of the Wrans has remained fairly constant. Six Wrans were discharged during the quarter.

10. Fifteen Wrans were included among twenty volunteers from PENGUIN to pack food parcels at the Smith Family Centre. Also, as in the past, Wrans manned the information bus at Garden Island during the visit of RN Ships to Sydney.

EAST AUSTRALIA AREA BAND.

11. A diary of performances given by the East Australia Area Band is at Enclosure 'C'.

WORKS AND PROPERTY.

12. Since the last quarterly Report of Proceedings was submitted, work to the value of £5,539 (previous quarter £23,420) has been completed. No contract work was commenced during the period under report. Contracts have been let to the value of a further £141,689, the major works being connected with the RAN Submarine Base Project.

13. Details of work completed, commenced or approved are given at Enclosure 'D'.

14. Work is expected to commence on the additional Submarine accommodation in January, 1966.

ENGINEERING, ELECTRICAL AND TRANSPORT.

15. The motor transport, boats and electrical equipment continues to function satisfactorily, although frequent maintenance has been required on the boilers, refrigeration machinery and motor transport.

BALMORAL NAVAL HOSPITAL.

16. The number of patients was below average for this period, but it is expected that number of in-patients will increase after the leave period.

17. The following numbers were treated in hospital as a result of accidents:

	Current Quarter.	Previous Quarter.
Burns	3	-
Motor car	15	7
Sport	2	9
Assault	3	5
Falls	10	-
Falling object	1	1
Handling tools	3	3

18. The Medical Training School has been reopened and the following are under instruction:

Wran SBA	7
Ord SBA	11

...3...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

19. The posting of a Tutor Sister (PENGUIN letter BND.37/14 dated 17th June, 1965 refers) would be of distinct advantage for the training of these SBA.

20. No major items of work have been undertaken in the hospital and the condition of the hospital generally remains as previously reported.

MOVEMENTS.

21. A total of 1,600 movements (1,755 last quarter) have taken place during the quarter. A break down of this figure is given in Enclosure 'E'.

DISCIPLINE.

22. Twenty punishment warrants (24 last quarter) were read in PENGUIN in the three months, eighteen of which were for desertion compared to twenty-four warrants for desertion in the previous quarter. A summary of punishment warrants read in HMASPPENGUIN is included in Enclosure 'F'.

23. Details of all Naval Offenders received at the First Military Corrective Establishment, Holsworthy, for the period under report, are given at Enclosure 'F'.

SPORTS AND WELFARE.

24. PENGUIN, in association with SM/4, took part in the EAA competitions in the following sports:

Water polo
Cricket

Inter service sports representation by PENGUIN was for

Rifle shooting - 2 sailors.

25. An active interest is taken by the Ship's Company and WRANS in a number of sports. During the lunch period a Volley Ball competition was held. Outside working hours there continues keen support for Judo/Karate, Tennis and swimming.

HMAS PENGUIN,
BALMORAL....NSW.

7 APR 1966

Sir,

I have the honour to report the proceedings for the three months ending 31st March, 1966. A diary of events is at Enclosure A.

TRAINING.

2. The training capacity of the NBCD, Seamanship and Medical Schools has been filled to a high level throughout the quarter. A total of 798 (701 previous quarter) have undergone training in the schools. A breakdown of this figure is given at Enclosure B.

3. The situation has improved in regard to training staff and all three schools are now up to complement in regard to Senior Sailor Instructors. The problem of Officers still exists. The lack of an Engineer Officer is felt particularly in NBCD Officer instruction and in the maintenance and running of the DC Unit.

4. NBCD. An examination of the training load during the current year 1965/66, has shown that the demand for the Advanced Course remains fairly constant at about 20 per course. The maximum size a class being 24 students. The requirement for the Standard course is increasing and by a re-arrangement of the forecast programme the number of Standard courses will be increased from 22 to 29 courses in the current training year. (PENGUIN Letter BND.74/145 dated 21st March, 1966 is relevant).

5. The first Underwater Repair Course (ANO 603/65), 21st to 25th February, was satisfactory as a pilot course. My comments in this regard were forwarded in BND.74/180 dated 14th March, 1966.

6. A total of 694 (624 previous 3 months) were trained in the NBCD School this quarter.

7. SEAMANSHIP. The Seamanship School has been without a training officer since 17th December, 1965 and it may be noted that a relief has not yet been posted. This quarter 82 sailors have undergone course compared to 59 previously.

8. A 12 week course for Survey Recorders is planned to commence early in April.

9. MEDICAL SCHOOL has provided adequate instruction for 14 SBAs and 8 WRSBAs during the past three months. The standard of instruction would improve if a full time Tutor Sister is appointed as requested in my letter BND.37/14 dated 17th June, 1965.

WRANS.

10. The Wrans accommodation has been fully occupied throughout the quarter primarily due to classes of WRMTD and WRSBAs. A total of one Officer and 90 Wrans are at present borne.

11. The Inter-Service swimming sports held at RAAF RICHMOND was won by the WRANS. As in the previous years, Wrans assisted with the Navy Stand at the Melbourne Trades Fair and in providing staff on the Information Bus when required, at Garden Island.

EAST AUSTRALIA AREA BAND.

12. The band continues to meet a heavy programme, the more important events being radio and television appearances, recording for EMI and providing the band for the arrival of the Governor of NSW. A detailed diary of events is given in Enclosure C.

WORKS AND PROPERTY.

13. The extensions to the overall accommodation required in PENGUIN for Submarine accommodation is now well underway. A survey of the Wharf and Slipway has been completed during the quarter but the reports of these surveys have not yet been received.

14. In the current year 1965/66

(a) B Requisitions:- 112 have beem submitted, 54 have been approved, 42 have been completed.

(b) C Requisitions:- 131 have been submitted, 79 have been completed.

15. Stores to the value of approximately $570.00 have been expended by Ship's Staff on general maintenance and repair.

16. Engineering, Electrical and Transport. The motor transport, boats and electrical equipment continues to function satisfactorily, although the boilers, refrigeration machinery and motor transport require frequent maintenance.

BALMORAL NAVAL HOSPITAL.

17. The daily average number of in-patients is about 60. Thirty six patients have been treated in hospital as a result of accidents, being one less than the previous three months. Motor accidents and falls are the cause of approximately two thirds of the accident cases. This is a similar pattern as has been the case previously.

SUPPLY AND SECRETARIAT.

18. The takeover of Medical Stores, ANO 365/65, has been completed and a 100% stocktaking carried out. The Medical Store Section of the Naval Store building has been isolated, by means of a chain wire screen, by the Department of Works. Difficulty has been experienced in the accounting of medical stores due to posting of staff, and the technical aspects of the stores involved. To date four stores sailors have been involved in the accounting for medical stores and all posted.

...3...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

19. GALLEYS. Equipment in all galleys is operating satisfactorily. Alternative arrangements for the supply of meals to the Surgical Galley have been made when the galley is shut down in the near future, to enable the deck to be retiled. The Department of Works have not yet commenced re-tiling the deck in the Main Galley.

MOVEMENTS.

20. A total of two officers postings have taken place. Lt. Cdr. HINCH posted to WATSON on the 24th January, 1966 and Supply Sub Lieutenant SHUGG received 28th February, 1966 and posted to KUTTABUL 22nd March, 1966.

21. A total of 1,929 movements (1,600 last quarter) have taken place. A breakdown of this figure is given at Enclosure D.

DISCIPLINE.

22. Thirty punishment warrants (20 the previous quarter) were read, twenty one of which were for desertion compared to eighteen for the previous quarter. A summary of warrants read in PENGUIN is given at Enclosure E.

23. First Military Corrective Establishment. There were 47 (35 previous quarter) Naval Offenders received in the First Military Corrective Establishment, Holsworthy for the period under report. Details are given at Enclosure E. It may be of interest to note the comparison of the number of Offenders from each Service received in First Military Corrective Establishment during 1965.

SPORTS AND WELFARE.

24. An active interest has been taken by the Ship's Company and WRANS in all the summer sports. Outside working hours there continues keen support for Judo/Karate, Tennis, Swimming and Badminton.

HMAS PENGUIN,
BALMORAL....NSW.

22 JUL 1966

Sir,

I have the honour to report the proceedings for the three months ending the 30th June, 1966. A diary of events is at Enclosure A.

TRAINING.

2. There was a reduction in the training load primarily due to the mid-winter leave period. A total of 457 (798 previous quarter) have undergone training in the Schools. A breakdown of this figure, together with training statistics, is given in Enclosure B.

3. NBCD. Allowance for an increased number of Standard NBCD Courses was made in anticipation of the issue of ANO 310/66 (Sailors Course Programme). To meet MELBOURNE's requirements, an additional standard NBCD Course has been arranged at the end of July. Of the 15 Standard courses planned for the remainder of the year, 12 are fully booked and there are no vacancies until October. Of the 16 Advanced courses planned, 6 are fully booked, including 2 courses for midshipmen.

4. SEAMANSHIP. The Seamanship School has been without a training Officer since 17th December, 1965, but recent postings to PENGUIN will enable an officer to take up this task in August.

5. Discussions have taken place with HMAS WATSON with a view to replacing Standard Seamanship courses for UC sailors by Advanced Seamanship Courses carried out by other seamen.

6. The Survey Recorders training has got off to a good start and the first course for LSSR will complete on the 22nd July.

7. Medical School has provided adequate instruction for six Wran SBAs; but a full time Tutor Sister (BND.37/14 dated 17th June, 1965) is necessary if the high standard of training required by SBAs is to be maintained.

WRANS.

8. Seventy four Wrans and one Officer are at present borne.

9. During April six Wrans were employed with the Naval Display team at the Royal Easter Show.

...2...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

10. Keen interest has been shown by the Wrans in sporting activities in which they have gained some success. The Inter-Service Softball played at RAAF Richmond in May resulted in the Navy retaining the trophy. The Wrans hockey team playing in the North Shore Association is, as yet, undefeated. Fifteen PENGUIN Wrans have been selected for the Inter-Service hockey and basket ball teams.

EAST AUSTRALIA AREA BAND.

11. The band continues to meet a heavy programme cheerfully and with enthusiasm. A detailed diary of events is given in Enclosure C.

WORKS AND PROPERTY.

12. The extensions to the overall accommodation required in PENGUIN for Submarine Squadron is progressing satisfactorily. Currently 61 'B' Requisitions and 81 'C' Requisitions are outstanding. Ship's staff have made good 69 defects expending material to the estimated value of $468.00. A summary of works is given in Enclosure D.

13. Engineering, Electrical and Transport. The motor transport, boats and electrical equipment continue to function satisfactorily, except the MSO air conditioning unit appears to require an excessive amount of servicing and it continues to be extremely noisy in operation. This matter is the subject of PENGUIN's letter BND.130/2 dated the 6th May, 1966.

BALMORAL NAVAL HOSPITAL.

14. The situation in regard to the Sick Berth staff continues to improve as more trainees complete their instruction and can then be given more responsibility. Routines are continuously under examination with a view to reducing the hours worked by the SBAs, (currently an average of 53 hours per week). The various routines considered, in the main, would tend to build up the strength of the domestic staff and therefore total numbers required would be in excess of those requested in PENGUIN's letter BND.37/14 dated 19th May, 1965.

15. Thirty-nine patients (36 last quarter) have been treated in the hospital as a result of accidents. Two-thirds of the accidents are the result of motor cars and sport. Details of the types of accidents cases are given in Enclosure E.

SUPPLY AND SECRETARIAT.

16. Equipment in all galleys is operating satisfactorily and work is in hand on tiling the decks of the Main and Surgical galleys.

17. Medical stores listed in ANO 198/66 have been returned to the custody of the Medical Officer.

...3...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

MOVEMENTS.

18. Postings both in and out total 2,296 for the quarter compared to 1,929 in the previous three months. A break down of this figure is given in Enclosure F.

DISCIPLINE.

19. Thirty punishment warrants (thirty last quarter) were read in PENGUIN in the three months, 22 of which were for desertion compared to 21 warrants for desertion in the previous quarter. A summary of punishment warrants read in HMAS PENGUIN is included in Enclosure G.

20. Details of all Naval offenders received at the First Military Corrective Establishment, Holsworthy, for the period under report are given at Enclosure G. It may be noted that a total of 92 offenders were received at 1 MCE during the first six months of this year, 31 more than the equivalent period in 1965.

SPORTS AND WELFARE.

21 An active interest has been taken by the Ship's Company in a number of sports. Outside working hours Judo/ Karate, tennis, badminton, softball and hockey have a good following.

REPORT FOR THE QUARTER ENDING 30TH SEPTEMBER, 1966.

Sir,

I have the honour to report the proceedings for the three months ending the 30th September, 1966. A diary of events is at Enclosure A.

Training

2. The training load continues to increase. A total of 101 more Sailors/WRANS have completed courses of more than a weeks' duration in the period January - September, 1966 than in the corresponding period of 1965. The planning of course programmes for 1967 has now been completed after discussion with NIRIMBA, WATSON and RUSHCUTTER. A total of 69 NBCD Courses and 36 Seamanship Courses are provisionally scheduled for next year.

3. The following trials were completed during the quarter:

(a) Evaluation of USN Foam - making equipment.
(b) Evaluation of USN CO2 Extinguishers.

) HMAS PENGUIN
) letter BND.161/3 of
) 18th August, 1966.

4. The following trials are being progressed:-

(a) Recharging of CO2 Extinguishers.
(b) Evaluation of Dry Chemical Extinguishers.
(c) Evaluation of High Expansion Foam.
(d) Trial in the D.C. Unit of Spotlite GLO-TAPE.
(e) Furniture Fire-proofing.
(f) Evaluation of a MINI-MOKE Fire Tender.
(g) Evaluation of leather fire fighting boots.
(h) Life Jacket Trials as required by the Standards Association of Australia.

5. Other activities have included an Industrial Mobilisation Course Symposium, an Officers Management Course and a continuing requirement of RANR Seamanship and NBCD training. A breakdown of the training figures is given in Enclosure B.

WRANS

6. Chief Officer J. Streeter, OBE, WRANS carried out her annual inspection of the WRANS in the Sydney area between 12th and 16th September.

7. The WRANS athletic team won the Interservice athletics on the 29th September, defeating both the WRAACS and WRAAF by a good margin.

../2

AUSTRALIAN WAR MEMORIAL RCDIG1074456

East Australia Area Band

8. The band continues to meet a heavy programme cheerfully and with enthusiasm. A detailed diary of events is given in enclosure C.

Works and Property

9. Major Works. In general the major works have been progressed satisfactorily, structural work in the Wardroom has been completed and extensions to the Main Block are now up to the first floor. The structural alterations to the Petty Officers Mess have been completed, the first floor cabins are now ready to occupy and fitting out has commenced on the second floor.

Unusual Maintenance Problems

10. Freshwater Service. There is a continual problem of leaking taps and ball cocks caused by excessive pressure (100 psi in working hours rising to 120 psi in the silent hours) and by corroded piping, deposits from which are continually breaking away, fouling valve face seating.

11. Floor Tiling. In some areas existing linoleum and vinyl tiling has lifted, caused by the underlay of rubbertex compound breaking down.

12. The Department of Works is investigating both of these problems.

13. Ship's staff have made good 70 defects during the quarter using material to the approximate value of $380. Statistics of B and C requisitions are given in enclosure D.

Engineering, Transport and Electrical

14. The motor transport, boilers, boats and electrical equipment continue to function satisfactorily although lack of experienced personnel means that maintenance is barely adequate in respect of boats, vehicles and mowers.

RAN Hospital PENGUIN

15. Sixty-one patients (39 last quarter) have been treated in the hospital as a result of accidents. There has been a marked increase in the number of accidents due to falls, 21 this quarter as compared to 6 and 11 for the previous two quarters. Details of the types of accident cases are given in enclosure E.

Movements

16. Postings both in and out total 2,823, some 530 more than the previous quarter. The figures for the period 1st January to 30th September this year show a remarkable increase over those for the corresponding period of 1965, 7,048 as to 4,935. A detailed breakdown of this quarter's figures is given in enclosure F.

Discipline

17. Twenty punishment warrants (30 last quarter) were read in PENGUIN, 16 of which were for desertion compared with 22 in the previous quarter. A summary of punishment warrants read in HMAS PENGUIN is included in enclosure G.

18. Details of all Naval offenders received at the First Military Correction Establishment, Holsworthy, are given in enclosure G. It is of interest to note that a total of 128 Naval offenders have been received at Holsworthy so far this year compared to 84 offenders for the equivalent period in 1965.

Sports and Welfare

19. The Welfare Committee has met regularly and the ship's Welfare Fund and Canteen are in a healthy financial state. An active interest has been taken by the ship's company in a number of sports and the ship has been well represented in a number on Inter Service teams.

HMAS PENGUIN,
BALMORAL....NSW.

22 DEC 1966

The Flag Officer in Charge,
EAST AUSTRALIA AREA.

Sir,

I have the honour to report the proceedings for the period 1st October, 1966 to the last day of my command - 11th December, 1966. A diary of events is at Enclosure A.

TRAINING.

2. The training section of this establishment has had its facilities fully utilised for the usual courses, details of which are shown in Enclosure B. In addition, a promotion board was held on 11th October when 48 candidates from Able rank to Petty Officer were examined. Pre-embarkation indoctrination was carried out on Intake H of sailors selected for submarine training in the U.K.

3. Reserve personnel have continued to undergo Seamanship, NBCD and Recruit training at weekend and evening classes, and PENGUIN is also used from time to time by the Sea Cadets such as in the weekend 9th-11th December, when one officer, two senior ranks and 29 Sea Cadets were acoommodated for Promotion Board examinations, boat training and lectures.

4. A total of 15 items of equipment have been under trial in the year ended 30th November on behalf of the Department of the Navy. In addition to those previously reported, trials are being progressed on:-

a. Telescopic Steel Shores.

b. Breathing Apparatus. (Evaluation of DRAGER equipment.)

The Officer in Charge, NBCD School, continued his round of visits to other naval establishments in the EA Area in his capacity as Base NBCDO on the staff of FOICEA.

WRANS.

5. Wrans from PENGUIN assisted at Open Days in HMAS WATSON and at Garden Island during Navy week. One Wran worked on the Navy stand at the Newcastle show, whilst two were employed in the Naval Display team at the shows in Ballarat and Hamilton, Victoria.

6. Four Wrans assisted in the Information Bus during the visit of RN Ships. The work and bearing of the personnel manning the bus were praised in a subsequent signal from FOICEA. Two organised tours of the ships were arranged for Wrans during the visit.

EAST AUSTRALIA AREA BAND.

7. The diary of events (Enclosure C) shows that the band has had a busy period, highlighted by its appearances at Fairbairn Air Base, Canberra, for the arrival and departure of the President of the U.S.A. After a long wait for President Johnson's departure on the evening of 22nd October the band was speedily transported to the Canberra Rex Hotel for the Trafalgar Day Ball. This commitment was reported to have been carried out with the customary smooth playing and cheerful demeanour.

WORKS AND PROPERTY.

8. Fitting-out in the Wardroom extensions is progressing steadily, and the brickwork section of extensions to the Main Sailors' Block has reached ceiling level at the top floor. Fitting-out of the structural alterations to the Petty Officers' Mess has now almost been completed. The internal painting of the medical hospital is finished.

9. Ship's staff made good 132 defects during the months of October and November, using material to the approximate value of $152.74. Statistics of B and C requisitions are given in Enclosure D.

ENGINEERING, TRANSPORT AND ELECTRICAL.

10. Repairs are being effected to number one boiler and for the past month number two boiler has carried the entire load satisfactorily. Minor maintenance problems have caused interruptions to services normally performed by the AWBs. A separate proposal will be made for standardisation of the two boats' electrical systems.

11. The MT vehicles have given generally satisfactory service considering the formidable mileages registered. ANO 6/66 is being implemented and it is clear that considerable time can be saved by the use of Ship's staff to carry out routines equivalent to 'B' service. Limitations are imposed by non availability of essential equipment and sufficient skilled staff and RANH PENGUIN continues to supply the major portion of the work force, especially in the Electrical Branch, per medium of medically categorised sailors.

RAN HOSPITAL PENGUIN.

12. Preliminary investigation has been undertaken by the Department of Works on extensions to the Hospital. So far a total of 27 patients have been treated as a result of accidents (61 previous quarter). Details of types of accident cases treated at the hospital are given in Enclosure E. It is noteworthy that the graph for sport accidents has made its customary nosedive on conclusion of the rugby-football-soccer season. There was only one case in October/November (two in October/December, 1965) compared with 11 in the quarter ended 30th September (nine in same quarter of 1965).

MOVEMENTS.

13. A detailed breakdown of statistics is given in Enclosure F, and it shows that totals for the past two months have been roughly equivalent to the high figures of the previous quarter.

...3...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

BND.150/5

DISCIPLINE.

14. Twenty-seven punishment warrants were read in PENGUIN during the two months as against 20 in the previous quarter and 30 in each of the first two quarters of the year. Twenty-four of the October/November warrants were for offences of desertion compared with 16 in the quarter ended 30th September and, as a matter of interest, 18 in the last full quarter of 1965. Details of punishment warrants and of all Naval Offenders received at the First Military Corrective Establishment, Holsworthy, are given in Enclosure G.

SUPPLY & SECRETARIAT.

15. Repair work in all galleys has now been finished. The new tiling is satisfactory and all five galleys are completely functional.

CHAPLAIN.

16. With the restoration of the Chapel, Church services were resumed on 23rd October. Divine Service and Holy Communion have been held regularly each Sunday. The Chaplain has made periodic visits to the First Military Corrective Establishment, Holsworthy, and has held weekly religious instruction classes for Apprentices at HMAS NIRIMBA.

SPORTS & WELFARE.

17. Although the comparatively small numbers at PENGUIN and the nature of the establishment cause difficulties in the formation of teams, there are many enthusiasts who participate at every opportunity. Volley ball and water polo are played and practised in lunch hours and the Dog watches, exponents of Judo/Karate utilise the small gymnasium almost every evening and most other sports have their devotees who train regularly and, in many cases, play in teams organised at Command level as well as in such teams as PENGUIN is able to put on the field.

2. With reference to paragraph 5, cleaners are somewhat of a problem in all establishments. Investigations are being made in an effort to improve the situation.

3. I do not entirely agree with paragraph 6. While the buildings are old they are still suitable for use and the WRANS keep them well. An accommodation building to Scales and Standards for 60 WRANS has been included in the 1967/68 New Works Proposals and this work, when completed will greatly improve conditions at H.M.A.S. PENGUIN. Subsequently, when extensions and improvements to the Upper Hospital are made, the Lower Hospital will be converted to WRANS accommodation and the situation represented by the Captain, H.M.A.S. PENGUIN should no longer exist.

H M A S PENGUIN,

5 APR 1967

The Flag Officer-in-Charge,
EAST AUSTRALIA AREA.

Sir,

I have the honour to submit the Report of Proceedings of H M A S PENGUIN for the quarter ending 31st March, 1967, including comments on the end of the last quarter from 12th December, 1966, on which date I assumed command.

GENERAL.

2. Official calls have been made on the following authorities in addition to yourself:

a. The Chief Justice, the Honourable Sir Leslie HERRON, K B E, C M G.

b. The Right Honourable the Lord Mayor of Sydney Alderman John ARMSTRONG.

c. General Officer Commanding Eastern Area, Major General J W HARRISON, C B E.

d. The Mayor of Mosman, Alderman V H PARKINSON.

3. An appointment to call on the Governor of New South Wales is not yet available and a call on the Air Officer Commanding Operational Command was considered to be paid. A good liaison has been established with Army Commanders in the Middle Head area.

4. In the week available before the December leave period and immediately after leave I carried out a gradual inspection of the establishment. Generally the buildings are in much need of painting internally and externally, as a result of lack of funds. Since that time a start has been made by contractors on painting the ceilings only of the Sailors' accommodation block and painting of the large timber NBCD Block is programmed to start soon.

5. A concentrated effort is being made to wash down old paintwork in all accommodation blocks, but the fluid posting situation in H M A S PENGUIN makes any continuity of self maintenance effort difficult. In the main, civilians employed as cleaners in the establishment are of very poor quality and their efforts towards maintenance are nominal.

6. The WRANS quarters are in a state no longer fit for female accommodation and are little more than depressing slums. An early start on new accommodation is an urgent requirement.

7. During February I spent two days undergoing refresher flying practice at R A N Air Station, Nowra. On 14th and 15th March, I was President of a Board of Enquiry at Nowra, to enquire into the circumstances surrounding the loss of a WESSEX helicopter off KIAMA, and on 16th and 17th March I attended a Fleet Air Arm Conference at R A N Air Station, Nowra.

...2...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

150/5

8. I have attended monthly meetings of the Royal Naval House Finance Committee and monthly Council meetings and have convened three meetings of the E A A Sailing Committee during the period.

OPERATIONAL ACTIVITIES.

9. During the period of the report H M A S PENGUIN's facilities have been used extensively by the Fourth Submarine Squadron. H M S TABARD has been alongside the jetty for 35 days and H M S TRUMP for 18 days.

10. Berthing parties have been regularly provided for ships at Chowder Bay.

TRAINING.

11. Seamanship Training started on the 9th January and NBCD Training on the 16th January. Two NBCD Advanced Courses started concurrently on this date to cope with the large numbers of LMEs (for MTC, H M A S CERBERUS) who required the NBCD Advanced qualification for promotion.

12. Figures ih Enclosure 4 show a slight decrease in Seamanship Training classes, but this is due to a difference in phasing courses. At the end of the month there were 52 sailors on course.

13. A review of Training figures for the previous year and courses planned for 1967 shows that the annual number of courses of one week's duration and over, exceeds 100. The personnel numbers involved are approximately 1600. The requirement for a full time Seamanship Training Officer is still as pressing as ever and is the subject of separate correspondence.

WRANS.

14. On 9th January, eighteen Wrans moved to new accommodation in H M A S WATSON.

15. Wrans from PENGUIN have entered teams in the N S W Women's Hockey Association and Manly Warringah Women's Basket ball Association but it will be more difficult to provide for these activities since the departure of the 18 H M A S WATSON Wrans from PENGUIN.

16. Accommodation has been provided for eight Wrans for detached duties for an NCS exercise from 3rd to 27th February; seven Wrans from other units for the Swimming Squad from 25th February to 3rd March and five Wrans for the Royal Sydney Show Team.

17. During the quarter Wrans have assisted in the organisation of three social evenings and a Barbeque Dance in H M A S PENGUIN.

18. On 30th March you presented the unit with the Sheila McClemans' trophy for efficiency during the year 1966.

AUSTRALIAN WAR MEMORIAL RCDIG1074456

WORKS AND PROPERTY.

19. Major Works Completed. The following work has been completed:

a. Internal painting of the eight in number married quarters attached to H M A S PENGUIN at a cost of $3,000.

b. Extensions to Main Sailors' Block and Wardroom and alterations to the Petty Officers' Mess. This project was item 34 of the 1965/66 New Works Programme and the estimated cost is $302,599.

20. Major Works Progress.

a. The Thermal Fire Alarm and Public Address System is nearing completion.

b. Repairs and painting of the ceilings in the Main Sailors' Block is progressing. The cost of this project is $8,320.

c. The Main Mast has been removed for renewal at a contract price of $2,375.00.

MOVEMENTS.

21. A detailed breakdown of statistics is given in Enclosure 6, these show a slight reduction on the numbers for the previous quarter.

DISCIPLINE.

22. Twenty-nine punishment warrants were read in H M A S PENGUIN during the quarter, of these twenty-eight were for offences of desertion. Full details of punishment warrants and of all Naval offenders received at the First Military Corrective Establishment, Holdsworthy, are given in Enclosure 7.

SUPPLY AND SECRETARIAT.

23. The officer allowed by complement for Stores duties has not been borne for the period January and February. The officer posted to assume stores duties joined 28th March, 1967.

24. During February, representatives of the Director of Estimates and Audits carried out an audit of the functions associated with public moneys and stores.

25. Members of the Joint Stores and Equipment Sub Committee of the Defence Medical Services Committee visited on 17th March, 1967 and problems related to the supply of medical stores were discussed at a meeting held in M O I C's Office.

26. The work carried out by the Supply and Secretariat Staff has been supplemented by the posting of sailors for duties with H M A S PENGUIN SM4 for H M A S PLATYPUS on commissioning.

27. A variety and choice of menu has been maintained in the General Mess and expenditure has been kept within the allowance. No food complaints have been made and it is considered that the Ships Company are well fed.

RELIGION.

28. Chaplain A BATT has relieved Chaplain P BALL in H M A S PENGUIN where regular Sunday Church services were resumed in December, 1966. However, despite continuous attempts to encourage church attendance, the small numbers, possible one sailor and one or two officers, has forced the abandonment of the Sunday service in favour of a mid-week communion service. Weekly religious instruction is given in H M A S NIRIMBA.

29. Character Leadership courses 78/67 Church of England; 79/67 Protestant Denominations and 80/67 Roman Catholic, have been held in the Establishment from 26th February until 17th March. Whilst numbers were smaller than usual it was generally felt by all concerned that the courses were most worth while.

SPORT.

30. Interdepartmental sport has continued on an increased scale in the form of soft ball and volley ball. The swimming pool has been extensively used out of working hours and swimming matches between PENGUIN and SM4 and PENGUIN and North Sydney Police both resulted in wins for PENGUIN.

31. PENGUIN combined with KUTTABUL in winning the E A A cricket competition and the Captain of the team was selected as an interservice player.

32. PENGUIN, WATERHEN and PLATYPUS have been combined to form a Rugby team in the E A A Competition. It is anticipated that they will do well during the season.

33. The Judo/Karate Club is still well supported. Instruction is given three nights per week and the number of WRAN enthusiasts is surprising.

I have the honour to be,

Sir,

Your obedient servant,

H Fleddiall

Captain RAN.

16 JUL 67

The Flag Officer-in-Charge,
EAST AUSTRALIA AREA.

I have the honour to submit the report of proceedings of H M A S PENGUIN for the quarter ending 30th June, 1967.

General.

2. On 15th June, I completed my official calls with a call on His Excellency the Governor of New South Wales.

3. Since the last report of proceedings a contract has started for the external painting of the Training Centre (NBCD Block) which in itself will make a marked improvement to the general appearance of the establishment. The work of painting ceilings in the Main Sailors' Block together with considerable self help by junior sailors has brightened this building and improved living conditions. A programme of work to try to improve the existing WRANS quarters has also been started.

4. The most significant event during the quarter was the two day Industrial Mobilisation Refresher Course on 10th - 11th May, attended by 150 students who had undergone courses between 1958 and 1962. The course was favoured with perfect weather conditions and students appeared to enjoy their visit.

5. On 13th April, I flew to WEWAK as President of a Board of Enquiry to investigate the circumstances surrounding the loss of a SCOUT helicopter in the sea, after take-off from HMAS MORESBY. The Board returned to Sydney on 17th April and finalised its investigation in HMAS PENGUIN on 19th April.

6. On 19th April, an inquest into the death of the late LEUT MLSG D. J. D. MORRIS, who died on 24th March, was opened but adjourned at the end of the day until 26th July.

7. On 13th and 14th June, I carried out two days flying practice in IROQUOIS helicopters at the RAN Air Station, Nowra.

8. As Chairman, I have attended monthly meetings of the Council and the Finance Committee of Royal Naval House, and have visited the House and its architect from time to time between meetings.

9. As Chairman of the EAA Command Sailing Committee I have attended two meetings during the quarter. In the course of the whaler replacement evaluation I have sailed with other members the HOOD 20, ENDEAVOUR and VIVACITY and inspected the O'DAY boats and TOPHAT. Other boats are to be demonstrated. A proposed boat shed at Spectacle Island for apprentices from HMAS NIRIMBA was inspected and a separate report has been made.

Operational Activities.

10. HMS TABARD and TRUMP have continued to use berthing facilities regularly in HMAS PENGUIN but this will cease on 18th July.

11. The move to PLATYPUS is at present causing a heavy bus transport commitment which is being met satisfactorily.

Training.

12. There has been a continued increase in the training effort during the quarter. Figures for the quarter and six month periods are forwarded at Enclosure 4.

13. The arrival in mid-May of LCDR GLEX P. C. S. MARTIN, R.A.N., who has been posted temporarily to the Seamanship School, has emphasised the need for a permanent officer in this post. The provision of training aids, revision of syllabi and continuity of training, which the otherwise small staff has not been able to give attention to, have been taken in hand and benefit is already accruing.

14. After the mid-winter leave period there are further heavy training commitments. These include:

a. Pre-work-up training for H M A Ships QUEENBOROUGH, VENDETTA and PERTH, 10th July - 9th August.

b. Continuation Training for nine GLEN Midshipmen, 10th July - 28th July.

c. Advanced NBCD courses for twenty-eight midshipmen (on graduation from HMAS CRESWELL) 31st July - 21st August.

15. The maximum opportunity has been taken to provide realistic ship-fitting training for Naval Shipwrights from the Fleet Maintenance Party. From 4th April - 8th June, six Naval Shipwrights have been employed refitting valves, hatches and doors in the D.C. unit - HMAS COUNTERSINK - and rebuilding the fire pits. They have had good on-the-job experience and the unit is now in an improved state of maintenance.

16. After consultation with the Fleet staff, Advanced NBCD Course were arranged for some forty Naval Shipwrights from the Fleet Maintenance Party during this period.

WRANS.

17. Although eighteen WRANS moved to HMAS WATSON in January and the complement of WRANS in HMAS PENGUIN is 48, the total number of WRANS accommodated has since risen and is now 83 including Officers.

18. Sketch plans for a new block for 60 WRANS have been examined and after revision have been approved. An examination is being made of requirements to rehabilitate the existing quarters to accommodate Senior WRANS and juniors who will not be moved into the new block. An examination is also being made of the requirement for eventual WRANS accommodation in the Medical Wing of the hospital.

WRANS Sports.

19. Sixteen WRANS attended Inter-Service selection trials in HMAS HARMAN for hockey, softball and basketball, and of these nine WRANS were selected.

20. Inter-Service softball was played at Victoria Barracks, Sydney, on 17th, 18th and 19th May. WRANS gained second place. Inter-Service hockey and basketball were played at Victoria Barracks, Sydney, on 24th, 25th and 26th May. WRANS won the Basketball for the first time in seven years and gained second place in the hockey. The WRANS team consisted of WRANS from HARMAN, ALBATROSS, WATSON and PENGUIN and was accommodated at PENGUIN for the duration of the Sports.

21. The WRANS hockey team playing the North Shore Association has continued to meet with success and is, as yet, undefeated but the WRANS basketball team playing in a local competition is not faring very well and as yet has not won a game.

22. The 26th Anniversary of the formation of the WRANS was celebrated with a dance in HMAS PENGUIN.

23. A number of WRANS who are volunteers have taken lectures and practical instruction in boat handling on Saturday mornings and Wednesday afternoons.

Works.

24. a. Works completed.

(1) Installation of the Thermal Fire Alarm system has been completed but has caused a series of false alarms at all hours, which have been answered by the Mosman fire brigade. This has been due to sensors in positions where the temperature is normally higher, being activated by steam from galleys or smoke from incinerators. Remedial action by Wormalds is under way.

(2) Wardroom. Items 38 and 42 of 1966/67 Furniture and Fittings programme, the replacement of floor coverings and carpet at a cost of $4,570.00. The fitting of a gas fired boiler has also been completed.

(3) Main Mast. A new main mast has been erected at a cost of $2,375.00.

(4) Main Sailors' Block. Item 17 of 1966/67 Furniture and Fittings programme, the fitting of blinds and curtains at a cost of $2,537.00 has been completed and epoxycrete has been laid on broken treads of the main stairway at a cost of $930.00.

(5) Flexowriter Room. Completed at a cost of $1,500.00.

b. Work Progressing.

(1) External painting of the Training Centre (NBCD Block)

(2) Painting of ceilings in the Main Sailors' Block.

(3) Fitting of gas fired boiler in the Medical Wing.

c. Support Craft.

(1) A new whaler was delivered without slings and it will be some time before these can be made and the boat hoisted on the davits.

(2) AWB 407 has completed refit and 4004 has been taken in hand for refit by contract.

Engineering Equipment.

25. Machinery and equipment associated with the Engineering, Transport and Electrical Departments has operated satisfactorily during the period with the exception of number 2 Main Boiler and the fire alarm system.

Minor maintenance has been carried out on domestic machinery and a top overhaul has been completed on M.C.813. A top overhaul is in hand on FMB 1201.

The Emergency Generators are undergoing a refit by Garden Island and completion is expected by early July.

Movements.

26. A detailed breakdown of statistics is given in Enclosure 6, these show a slight reduction of the numbers shown for last quarter.

Discipline.

27. Thirty-eight punishment warrants were read in PENGUIN during the quarter, of these thirty-two were for desertion. Full details of all Naval Offenders received at the First Military Corrective Establishment, Holsworthy, are given in Enclosure 7.

Supply and Secretariat.

28. The officer posted for stores duties was borne for only six weeks but within a week another stores officer joined. Personnel now borne for stores duties are adequate for the task.

29. Work in the Supply and Secretariat Department is still being supplemented by some of the sailors posted to PENGUIN for HMAS PLATYPUS on commissioning. This assistance has been of value particularly in the writer section where an RAN Submarine pay section has been formed to facilitate the transfer to PLATYPUS on commissioning. The Stores sailors are employed on raising demands and the setting up of the Stores section. The additional cooks made it possible for all five galleys to remain open during the leave period.

Sport.

30. The main winter sport has been Rugby Union and the Rugby team has done very well in the Dempster Cup competition, having won nine games and drawn one from a total of fourteen games played, and at present are in third place on the competition ladder.

2. FMB 1201 was built in 1948 and has been on an "essential defects only" refit basis since 1964 when she was considered to be beyond economical repair by the General Manager, Garden Island Dockyard (Survey Report dated 22nd July, 1964).

3. The continuing maintenance of this craft by the ships' staff is uneconomical and wasteful in view of her meagre employment and I am recommending her disposal by sale or transfer to the Captain of the Port in my Report of Inspection 1967.

-6 OCT 1967

The Flag Officer-in-Charge,
EAST AUSTRALIA AREA.

I have the honour to submit the Report of Proceedings of HMAS PENGUIN for the quarter ending 30th September, 1967.

GENERAL.

2. A notable change occurred in the function of HMAS PENGUIN when HMS TABARD, the last submarine to berth alongside, departed for the new base, HMAS PLATYPUS, on 17th July, 1967. The move of 4th Submarine Squadron base staff also started on that day and completed in time for the commissioning of PLATYPUS on 18th August. Whilst sailors from the Submarine Squadron are still accommodated in PENGUIN only living-in Submarine officers remain in the Wardroom and the loss of officers to PLATYPUS is noticeable.

3. Your inspection of HMAS PENGUIN took place on 7th and 8th September during and preceded by some of the worst weather of the winter.

4. Planning has been carried out in the last few weeks of the quarter, in conjunction with officers of HMAS RUSHCUTTER, for the move of the Diving School to PENGUIN. A report and sketch plans have been forwarded.

5. I have attended the usual monthly Finance and Council Meetings of Royal Naval House and with yourself and other representatives of the Council, called on the Hon. A.D. BRIDGES, MLC, to discuss the future of Royal Naval House in view of the Rocks Development Plan.

TRAINING.

6. The training commitment during the quarter has been heavy, in addition to scheduled courses P.C.T. was carried out for H M A Ships PERTH, QUEENBOROUGH, VENDETTA and SUPPLY.

7. During the latter half of the quarter the Seamanship School experienced a shortage of instructors but has managed to maintain normal instruction without disruption. This shortage will resolve itself when current postings have been effected.

8. The first POSR course finished in August and immediately on completion the graduating sailors were detached to assist in carrying out a survey in the Botany Bay area. The Hydrographic School survey boat SANDFLY was used for this purpose, being away from PENGUIN for just over three weeks.

9. Course planning for 1968 has been completed and the forecast is for an increase in the number of training classes for all categories.

10. Following an increase in the number of complaints received relating to the smoke nuisance in the Mosman area, investigations are being carried out on the feasability of transferring the firefighting Training element to HMAS NIRIMBA.

WRANS.

11. Other than commitments at the Brisbane and Melbourne Royal Shows the quarter has been a quiet one for the WRANS unit, the overall complement of which has remained reasonably constant around the eighty mark.

12. Participant sports included tennis, hockey, basketball and volleyball. It is of interest that the WRANS were in keen demand for the HMAS PENGUIN and SYDNEY Ship's Company balls.

13. Proposals have been put forward for alterations to the Medical wing of RANH PENGUIN for the future accommodation of WRANS.

WORKS.

13. a. Works completed.

(1) Surgical Wing: Exhaust ventilation system fitted in Minor Operating Theatre - $2000.00.

(2) Surgical Wing: Ultra-violet sterilizer in Major Operating Theatre - $1400.00.

(3) CPO/PO Galley: Two Bain-maries and one potato peeler fitted - $1188.00.

(4) Main Sailors' Block: Painting of ceilings - $8320.00.

(5) PO's Mess: Supply of two washing machines - $520.00.

b. Works Progressing.

(1) Training Centre: External painting - $11300.00.

(2) Replenishment Rig: Installation of D of W component - $700.00.

(3) Erection of NBCD Radiation vault - $4000.00.

c. Support Craft.

(1) AWB 4004 continues in refit due to complete 30th October, 1967. MC 813 is being repaired at GID following REDEF action.

(2) AWB 407 and AWB 436 (on loan) are operational. FMB 1201, following an extensive self refit and overhaul, is in running order.

d. Ship's Staff Defects.

179 depot defects and 7 support craft defects have been completed during the period.

ENGINEERING, ELECTRICAL AND TRANSPORT.

14. Main Boilers. Although serious interruption to the steam supply has not occurred during the quarter this has only been achieved by a considerable effort being expended by the Works department on numerous defects which should have been remedied soon after initial installation.

...3...

AUSTRALIAN WAR MEMORIAL RCDIG1074456

15. Heating Boilers. The fitting of automatic gas fired units in lieu of coke units to the three boilers has been beneficial. The new units are more reliable, cleaner and equally efficient and have permitted the release of two watchkeeping MEs to more essential depot maintenance.

16. Support Craft. No major defects have occurred and all running demands on the craft are being met. The re-introduction of two MEs to the boats party has been instrumental in improved maintenance and appearance of the craft.

17. Major repairs to the wharf crane are in hand and include the rebuilding of the three resistance banks by Ships staff. Minor electrical repair and maintenance work is being carried out by outpatients of the 'L' specialisation.

18. Motor transport has been improved with the arrival of a number of new vehicles. However, the commissioning of HMAS PLATYPUS during the quarter and transfer of vehicles consequent thereon has left this establishment with no reserve. A more rigid system of control and regulating of transport has therefore been introduced, but breakdowns have affected the ability to meet all commitments.

CHAPLAIN.

19. The commissioning of HMAS PLATYPUS has brought about some modification of the Chaplain's duties, in addition to that establishment he now covers PENGUIN, including RANH, RGH and assists at NIRIMBA. Visits by the PENGUIN Chaplain to First Military Corrective Establishment and civilian hospitals are no longer required.

20. The Chaplain attended a conference of independant school Chaplains at Canberra Grammar School from 22nd to 26th August. This has been reported separately.

21. Preliminary plans are in hand for the RAN Chaplain's Symposium to be held in PENGUIN 27th - 29th November.

SUPPLY & SECRETARIAT.

22. All PLATYPUS sailors were posted out of the establishment by the 18th August with the exception of the Writer staff who were retained for four days to implement the new pay scale.

23. The officer borne for Stores duties was posted to HMAS PLATYPUS on commissioning 18th August. He rejoins PENGUIN in January, 1968.

24. A representative of the Commonwealth Auditor General's Department, Mr. W. SPRATT, carried out a check of Public monies and Accounts on Friday 7th July. He was followed by Mr. H. A. CRANSTON, Inspector (Stores), who carried out a satisfactory inspection of Naval Stores during the month of September.

RAN HOSPITAL.

25. Complement problems are still prevalent as in addition to personnel normally provided for Target Towing, First Aid, etc., there have been a number of calls for staff for relieving duties as follows:

CPOSBA	2 weeks
POSBA	1.1/2 weeks
LSBA	2.1/2 months
SBA	Detached duties for full quarter
WRSBA	Detached duties from 11th September.

...4...

AUSTRALIAN WAR MEMORIAL

RCDIG1074456

26. The provisions of ANO 171/67 for blood grouping of personnel has placed a burden upon the laboratory facilities; PENGUIN being called upon to carry out blood grouping for the majority of ships and establishments in the area.

27. During August an inspection of the Hospital was carried out by the Medical Director General.

MOVEMENTS.

28. There was an increase in movements during the quarter, a breakdown of which is given at Enclosure 6.

DISCIPLINE.

29. Twenty punishment warrants were read during the quarter of which 12 were for desertion and 8 for other ships; this compares with 41 during the previous quarter of which 31 were for desertion. Enclosure 7 gives the breakdown of offences for which sailors were committed to detention.

SPORT.

30. Although a strong bid was made to take the Dempster Cup, the close of the Rugby Season saw the PENGUIN/WATERHEN team defeated by ALBATROSS in the preliminary finals. Overall it has been a satisfactory season except for postings, which prevented any form of stabilisation of the team.

31. The quiet period between the close of the Rugby season and start of the cricket has brought on an upsurge of inter-part sporting activities with the main accent being on a volley-ball competition in which eight teams are participating. Other sports include golf, tennis, soccer and sailing while a combined Navy/Army Judo club trains in the gymnasium on two nights per week.

23. The morale of the ship's company continues at a high level and the health and conduct has been good.

I have the honour to be

Sir,

Your obedient servant,

Gledhill

H.M.A.S. PENGUIN - REPORT OF PROCEEDINGS FOR QUARTER ENDING 31ST DECEMBER, 1967.

- 9 JAN 1968

The Flag Officer-in-Charge,
EAST AUSTRALIA AREA.

I have the honour to submit the Report of Proceedings of HMAS PENGUIN for the quarter ending 31st December, 1967.

GENERAL

2. During the quarter a number of courses have been held in HMAS PENGUIN other than the planned task of the Establishment. These include the Chaplains' Symposium, Officers' Management Course and an EDP Course.

3. The Establishment has also accommodated Inter-Service Athletic and Sports teams and provided accommodation for ships in refit or fitting out. Medicals, kitting up, documentation and travel arrangements for HMAS BRISBANE drafts were carried out in PENGUIN.

4. Provision of facilities for Sea Cadets and RANR Cadets in addition to normal courses has imposed a heavy strain on the Training School, nevertheless a considerable amount of seamanship and boat work has been arranged.

5. The greatest problem affecting the tasks and development of HMAS PENGUIN continues to be the instability of postings of both officers and sailors which has been raised separately in other correspondence.

6. The allocation of one BOSUN dinghy to HMAS PENGUIN and the loan for six months of three BOSUNs from the SYDNEY has allowed competitive sailing to be started on the harbour, also sail training and recreational sailing. Interest has been developing among Officers, sailors and Wrans. Personnel from HMAS WATSON and PLATYPUS have joined in these activities.

7. As Chairman of the East Australia Area Sailing Committee I have sailed a number of yachts with other representatives of the Committee, in the process of completing an evaluation of boats which may be suitable for sail training in the Service.

8. I have attended the monthly Finance Committee and Council meetings of Royal Naval House and have also carried out refresher flying practice during the quarter. I was president of the Board of Enquiry convened into the loss of Vampire A79-837 and President of a Ship Command Test Board.

TRAINING

9. Training for the quarter was continuous with 238 sailors qualifying in NBCD, 62 sailors in Seamanship and 6 sailors qualified in the ABSR rank.

I have the honour to submit the Report of Proceedings of HMAS PENGUIN for the quarter ending 31st December, 1957.

GENERAL

2. During the quarter a number of courses have been held in HMAS PENGUIN other than the planned task of the Establishment. These include the Chaplains' Symposium, Officers' Management Course and an MDP Course.

3. The Establishment has also accommodated Inter-Service Athletic and Sports teams and provided accommodation for ships in refit or fitting out. Medicals, kitting up, documentation and travel arrangements for HMAS BRISBANE drafts were carried out in PENGUIN.

Interest has been developing among Officers, sailors and Wrens. Personnel from HMAS WATSON and PLATYPUS have joined in these activities.

7. As Chairman of the East Australia Area Sailing Committee I have called a number of yachts with other representatives of the Committee, in the process of completing an evaluation of boats which may be suitable for sail training in the Service.

8. I have attended the monthly Finance Committee and Council meetings of Royal Naval House and have also carried out refresher flying practice during the quarter. I was president of the Board of Enquiry convened into the loss of Vampire A79-837 and President of a Ship Command Test Board.

PWT was carried out for HMA Ships SYDNEY and STALWART. A two day course for DDG sailors was introduced and 150 sailors from HMAS HOBART were trained. Sailors from the F.S. DUNKERQUOISE underwent firefighting training on two days during the quarter.

10. Facilities and instructors were made available for one day's NBC training for an AMF unit. AGRs were tested for HMA Ships ANZAC and MORESBY.

11. On 29th November, LCDR GLEX J. G. BIRD, RAN, assumed duties of Training Officer vice LCDR J. F. H. PAGE, RN.

WRANS

12. Inter-service Sports and the annual visit of the Director WRANS, Chief Officer J. STREETER, OBE, to the Sydney area from 16th-19th October highlighted an otherwise normal working quarter for the uhit, the overall complement of which has remained at about 80.

13. Wrans Sport. Inter-service tennis trials were held at Garden Island on the 26th and 27th October and the Inter-service tennis was played at Victoria Barracks on the 15th, 16th, 17th November. A bad attack of nerves upset some of the players but in spite of this the WRANS team finished a close second to the WRAAF.

14. Athletic trials were conducted at NIRIMBA on 25th October and the Inter-service athletics at Yulong Oval, Moorbank on the 23rd November. Results were WRAAF 51, WRANS 47 and WRAAC 37 points.

15. During the work-up and sports meetings all WRANS with the exception of those from WATSON were accommodated at PENGUIN.

16. WRANS were detached for duty at the Canberra Display and Hobart Royal Show and a number attended Navy Day services at St. Andrew's and St. Paul's Cathedrals.

WORKS

17. LEUT SDSH L. T. McCRACKEN, RAN, assumed duties as Barrackmaster on 22nd November vice LEUT SDSH B. L. SWAN, RAN.

a. Works completed. NBCD radioactive vault - $4,000.00

b. Works progressing. Wardroom laundry - $13,000.00

WRANS hot water tank. Installation of tank completed, previous tank to be removed.

Replenishment rig. Completed but awaiting test of equipment - $ 700.00

c. Support Craft. All craft are operational with the exception of MC 813 being repaired at Garden Island following REDEF action.

d. Ship's Staff Defects. Fifty-three depot defects and twenty boat defects have been completed during the period.

ENGINEERING, ELECTRICAL AND TRANSPORT.

18. Machinery and equipment associated with the Engineering, Electrical and Transport departments has functioned satisfactorily with the exception of the emergency diesel generators and the wharf crane. The former is the subject of separate correspondence and the crane is in Dockyard hands for repair.

SUPPLY AND SECRETARIAT.

19. The officer allowed by complement for Stores duties has not been borne for the period. A further shortage of key personnel in the Clothing, Bedding and Mess gear Stores occurred due to the illness of the POSV and sales of clothing ceased, however the mobile clothing van from the Royal Edward Victualling Yard was utilised until an A/POSV was loaned from KUTTABUL in November.

20. Four officers of the Internal Audit Branch (Eastern Division) carried out an audit of the functions associated with stores and public monies from 30th October to 17th November, with satisfactory results.

21. The volume of the work load in the Pay Office increased greatly during the October period with the BRISBANE drafts to the USA and other movements of personnel with the following pay card flow:-

Pay cards received	Pay cards sent	Pay cards held
314	281	621

The movement of Pay Account Cards represented nearly a complete turn-over.

22. The movement of personnel was also reflected in the volume of turn-over of loan bedding where each set is handled four times through the stores organisation.

RAN HOSPITAL

23. Surgeon Captain J. A. B. COTSELL, RAN, assumed duties as Medical Officer-in-Charge, RAN Hospital vice Surgeon Captain K. C. ARMSTRONG, RAN, on the 4th December, 1967.

24. Complement problems have continued and during the quarter 1 CPOSBA, 2 POSBAs, 3 SBAs and 1 WRSBA have been employed at various times relieving in other establishments.

MOVEMENTS

25. The number of movements remained at the high level reached during the last quarter, a breakdown of which is given at Enclosure 6.

DISCIPLINE

26. Twenty-one punishment warrants were read during the quarter, fourteen being for desertion. This compares with twenty warrants during the last quarter twelve of which were for desertion.

SPORTS

27. PENGUIN has combined with KUTTABUL for the summer cricket competition and the several representatives in the team have been in good form to date. A doubles competition aroused interest in tennis while softball, golf and basketball have maintained a steady following.

28. The swimming pool, with the advent of warm weather, has been well attended during the lunch hours and dog-watches. Free swimming is currently the popular vogue but efforts to arouse interest in water-polo have not been well received.

29. The Judo Club continues to receive popular support and is particularly active. The advent of the BOSUN dinghies and the conduct of races at regular intervals has brought about a considerable revival of interest in sailing as a sport and competition for points toward a Summer Trophy is becoming very keen. Sailing classes are conducted each Saturday forenoon.

30. The morale of the Ship's company has continued at a high level and the health and conduct have been good,

I have the honour to be

Sir,

Your obedient servant,

(J A GLEDHILL)
Captain R A N
