

BARACUDA®

THE TRUSTED NAME IN POOL CARE

tracker™

Automatic Pool Cleaner

Turbine Driven Automotive Performance

The Baracuda® Tracker™ is compact in size, yet demonstrates an ultra powerful and efficient clean. The Tracker's supreme maneuverability enables the cleaner to reverse out of tight corners where traditional disc cleaners may become stuck.

The Tracker™ Trax allow for superior grip on all pool surfaces, including walls to ensure a thorough clean with little maintenance.

Tracks for superior grip on all pool surfaces

Reverses and maneuvers out of tight spots

Constant Cyclonic Suction Power

Key Product Features & Benefits

Constant Cyclonic Suction Power

Constant suction power technology enables the Tracker™ to capture maximum debris whilst maintaining a high level of suction power for maximum cleaning efficiency.

Tracker™ Trax

The superior design of the tracks allows the Tracker™ to grip on to all surfaces of the pool.

Hydra Turbine Engine

The turbine engine automatically drives the pool cleaner to clean the pool floor and climb walls whilst operating at an efficient flow rate.

Easy to Operate

Light weight and easy to operate with little maintenance makes the Tracker™ user friendly.

Certified to Australian safety standards

Every backyard swimmer matters to us. Every diver, splashers, paddler, and wader. Baracuda delivers simple and easy clean, so every Australian pool owner gets the most enjoyment from their pool.
