

Bike Transport

23 Jan 2018

Introduction

We are providing options for you to offload your bike before leaving home and then to travel home post event without your bike. This makes it easier to use any form of transport without having to worry about space and cost for your bike or the trouble of having to carry it boxed up. If you drive to Cairns, then you can fit more people and luggage into your vehicle if you are free of your bike.

The following explains the bike transport options listed on the online entry form and should also be read in conjunction with the *Getting There and Back* info sheet. **If you book one of our charter buses, then you must book your bike separately as the charter bus costs for the event do not automatically include your bike.**

Each option below notes whether bikes need to be boxed although we prefer they are - see our info sheet *Packing your bike and luggage for CQ* which includes notes for unboxed bikes. If you should have boxed your bike and haven't, it will not be accepted unless you have made prior arrangements with BQ such as for bagged or odd shaped bikes. The bikes will travel in a truck neatly stacked up to 3 high so must be well packed – i.e. no bulges and nothing protruding from the box. It is expected bike boxes will be no larger than **1.4m x 0.8m x 0.3m**. Please advise BQ if your bike is not a standard single frame i.e. tandem, recumbent, trike, e-bike, trailer, trailer bike or folder. Bicycles are carried at owner's risk. **If using an e-bike, please contact BQ prior to booking any service.**

If you are out of range of the *Home or Depot Services*, then call us and we'll see what we can do.

* denotes depot locations which offer Bike Packing (pre-event) & Bike Re-assembly Services (post-event). Prices vary – more detail will be released when rider documentation is posted in August.
 NB: depot locations, times and dates subject to change.

Exact locations of depots will be notified later. If you can't deliver the bike yourself then we suggest you use a local transport company. If your bike is not delivered within these time frames it will not

arrive at Cape Tribulation in time. If the above depot locations are too far away, please contact Bicycle Queensland to discuss alternate options.

Take my bike on the bus with me

For people who are unable to use the Home or Depot Services then you can still “take your bike on the bus with you” (although note that invariably it will end up on a truck). We encourage you to use the other services, if possible, as these provide you with the best flexibility and allow us the best chance to get everyone to the start on time. They also save you the trouble of getting both your boxed bike and your luggage to the bus departure.

“Bikes with you on the bus” best suits people who are travelling from regional areas where we do not have depot locations, although we do now offer depots in Sydney, Canberra, Melbourne, Cairns and Townsville.

Pre event: Bikes collected from Cairns bus departure points (i.e. Airport/Railway Station) will not be transported at the same time as the bus services. Bikes will be collected from each bus departure point and taken to a central depot before being transported to the event. Bikes will be available in Cape Tribulation from 7am on Sunday 2/9/18.

Post event: bikes will arrive at the same time as your bus.

Bikes must be boxed on all services except as noted - see our info sheet *Packing your bike and luggage for CQ* for info on how to pack your bike for this service.

Short ride bike transport options

The above Depot and Home services are now available if you are participating in the Cape Tribulation to Atherton or the Atherton to Cairns short ride options.

Cape Tribulation to Atherton: Use the Depot or Home services detailed above to get your bike to the start site (Cape Tribulation). Upon arrival in Atherton on Wednesday 5/9/18 check your bike in at Ride Reception (after packing it). Your bike will be transported back to Brisbane and be held at our depot until the event conclusion. Bikes will then be returned as per normal Depot and Home Service times.

Atherton to Cairns: Use the Depot or Home services detailed above to get your bike transported to Atherton. Your bike will be available in Atherton from 4pm on Wednesday 5/9/2018. Bike transport from the finish site will be as per normal Depot and Home Service times.

Bike packing tip

Reclaiming your boxed bike at the start site can be tricky when there are hundreds of boxes that look alike. The boxes are typically lined up side by side with the ends visible. The best thing to do is to label both ends of the box and add some unique markings so your box will stand out of the crowd.
