

What are we learning about this term?

Inquiry:

We are starting the year with the concept of:

Look to the future: Tinkering leads to curiosity & creativity

I wonder

I find out

I understand

I take action

I evaluate

The big ideas we will be exploring as a school are:

- When we tinker we discover through play
- We use creativity to innovate, problem-solve and design original ideas
- We are change-makers

We encourage you to talk with your child about:

- What is tinkering?
- What can we discover when we play?
- How do we problem solve?
- Why is it important to have original ideas?

We would really appreciate it if you could donate the following items to your child's classroom to help them tinker:

- - untreated wood offcuts
- - small boxes
- - buttons
- - bottle tops
- - sequins
- - Christmas tree decorations
- - ice cream containers (for storage)
- - plastic flowers / old lei
- - fabric
- - wool
- - ribbon
