

/around the area

Mansfield is situated just 11km from the CBD and is a suburb that is rich in culture and history. Some of the original fence lines can still be found amongst the Mansfield bush land. Mansfield boasts its own tavern, which has hosted some popular touring musical acts over the years. Today the Mansfield Tavern has undergone recent renovations and is a popular location for meals, sports events and functions. Due to the increasing unavailability and expense of land closer to the CBD, the area is currently experiencing a period of socio-economic growth and renewal. Mansfield has become very popular for families with children due to the three local schools and the Mansfield State High School catchment zone. One of Mansfield's greatest assets is the remaining pockets of bush land and park lands. With regular bus services to the CBD and Westfield Garden City, Mansfield is fast becoming a southern hot spot.
