Hepworth CV1 Waterless Trap Valve 40mm

Hepworth CV1 waterless trap valve 40mm is a space saving design to discharge wastewater hygienically without any odour and contamination from the wastewater system. This innovative system replaces space hungry traps with a hygienic valve that provides an effective and reliable barrier against sewer gasses escaping into a building.

PLUMBDINGER
Suitable for 40mm and 50mm bath and 80mm shower installations

FLEXIBLE PLUMBDINGER
With standard waste, ideal for accommodating varying angles.

SELF-SEALING 40mm PIPE
