

CGGS REMOTE LEARNING PRINCIPLES

JUNIOR SCHOOL

Adding Value

We only share images and messages online that are kind, respectful and help our learning.

We enjoy learning together. We connect with places, spaces and each other in new ways.

We listen to and respect the ideas and opinions of others. We remember to think about including others.

Making Sense of Things

We follow our teachers' instructions. We ask for help when we need it.

We use the materials and equipment we have at home safely and carefully to help us with our learning. We try to rethink, reuse, reduce and recycle resources where possible.

We think before we post our learning or questions. We allow time for our classmates and teachers to respond.

Taking Responsibility

We understand that when we are learning remotely, we are still part of the CGGS community. We make sure we are dressed appropriately. We keep our learning space organised.

If we are learning together online at the same time, we make sure we are punctual and prepared.

We show respect, keep safe and act responsibly when using technology and learning remotely.

Activating Wellbeing

We understand that it is important to have times on and off our devices. It is important for us and our families to play, relax, move our bodies and spend time outside.

We know that our family, teachers and school counsellors are there to help us when we need them.

We are all in this together. We are part of this great school, creating our tomorrow in new and exciting ways.
