The Manager – Community Services and Development reported:

During April 2016 the Railway Lands Activation Team continued to facilitate community led events and activities at the site. The Youth Advisory Group (YAG) included the site as part of the Youth Week program and conducted a ‘Night Scenes’ photography activity.

The Winter@the Rail activation program is continuing to progress and has an arts development focus. The introduction of local artworks is due to commence in the coming fortnight; the murals and nature play sculptures will feature throughout the site and the progressive installations will culminate in a celebration in June once complete.
The Railway Lands will be part of the first ever regional STEM summit hosted in Mount Gambier. On Sunday 29th May 2016 the Railway Lands will come to life igniting curiosity and inspiration with a program of scientific fun. This program has been designed to engage with the natural elements of the site and provide some real hands-on family fun. Activities will include mud & clay play stations, the Double Helix Science Club, building of billy carts, teepees and lanterns. A twilight screening of children’s artwork and video blogs will be shown and the event will conclude with a Lantern Parade.

The Railway Lands Activation Team are continuing to conduct a full evaluation of the test and trial phase of the site activation and have continued to progress temporary, low cost activations and events including the following initiatives:
