7. **INFRASTRUCTURE** - Street Tree Planting Program 2015 - Ref. AF11/1259

**Goal:** Environment

**Strategic Objective:**

(i) Support initiatives that value and preserve our unique environment and contribute to environmental sustainability

(ii) Support the preservation and enhancement of the City’s unique natural and built heritage for future generations

The Presiding Member reported:

(a) In order for Council to receive specific tree species and cultivars for the 2015 Street Tree Program, it is necessary to reserve selected trees in advance. Without pre-ordering certain trees, there is no guarantee from nurseries that specific species, varieties or cultivars will be available in their preferred size and numbers when required;

(b) section 2.1 of Council’s Street Tree Policy, outlines that Council has currently adopted to plant streets with the same species of tree, but tree species may vary from one side of the street to another. As a result of this, the removal of some trees may be necessary to gain street uniformity;
(c) it is proposed to remove a total number of twenty nine existing street trees and retain three existing street trees as part of the 2015 Street Tree Program. The two Gawler Hybrid Bottlebrush trees adjacent to 8 Mark Street and 33 Sturt Street are of the same species of trees to be planted and given the trees are healthy and structurally sound, there is no reason to have them removed, and hence will be retained. Having liaised with the property owner of 2A Shelley Crescent, he advised that he would like the large spotted gum to remain as a feature tree for his future development. Given the tree is structurally sound and healthy; It is recommended that the tree remain;

(d) the twenty nine trees flagged for removal are for varying reasons. The two Crab Apple trees located along Krummel Street are in poor health and will require removal sometime in the near future. The three Willow Myrtle trees in Jenkins Street are located under powerlines and have poor structure due to the continual lopping of these trees by SA Power Networks. The Bottlebrush tree in Montebello Drive does not conform to the uniformity Policy for the newly selected type of plantings proposed for the street. Of the eleven trees proposed for removal along Lake Terrace East three are Hawthorns, whose sharp woody thorns prohibit them from being suitable as street trees. The four Queensland Box trees and Pyramid tree are too large for the footpath area and are causing damage to both the footpath and water table nearby. The Paperbark, Bottlebrush and Eucalypt trees are in decline and have poor structure and will also require removal sometime in the near future. The remainder of the proposed removals in Mark Street and Shelley Crescent do not conform to Council’s uniformity Policy and should be removed so uniformity in the street is maintained as per Councils Street Tree Policy.

Cr Richardson moved it be recommended:

(a) The report be received;

(b) Council approves the proposed schedule of trees that have been selected for removal to allow for uniformity in the 2015 Street Tree Program as outlined in policy T120;

(c) Council notifies all residents and utilities affected by the plantings, and invite comment on same (in accordance with Councils Public Consultation Policy);

(d) Council adopts the following program for the 2015 Street Tree Program so that the proposed species of trees selected may be pre-ordered.

8. **PROPERTY MANAGEMENT** - Railway Lands Redevelopment Project - Selection of Artist for Artistic Balustrade Design - AF13/439

**Goal:** Building Communities

**Strategic Objective:**
(i) Strive for an increase in services and facilities to ensure the community has equitable access and that the identified needs of the community are met

The Presiding Member reported:

(a) On the 15th July 2014 Council resolved that “The Manager - Regulatory Services to continue to liaise with the shortlisted artists/artist groups for the duration of the concept design phase and coordinate the Project Advisory Panel to select a preferred concept at the conclusion of the concept design phase”;

(b) concept designs by the three (3) shortlisted artists were presented to the Project Advisory Panel on 5th September 2014;

(c) the Project Advisory Panel consisted of Cr Richardson, Cr White, Mr Simon Klose (Riddoch Art Gallery), Mr Steve Dunn (Local Heritage Committee), Marijana Tadic (Arts SA representative) and the Manager of Regulatory Services as the Chair;

(d) concepts presented by all three (3) artists were of a high quality and demonstrated the application of their designs as a ‘woven wire’ feature within the balustrade panels on the railway platform;
(e) the Project Advisory Panel followed a set agenda for the day where each artist was given twenty (20) minutes to present their concepts and ten (10) minutes of question time from the Panel. Each member of the Panel completed an evaluation form which covered the following elements:

1. Clear conceptual response to the site and brief - 20%
2. High quality artistic and aesthetic concept design - 20%
3. Response to the physical specifications of the brief - 10%
4. Capacity to meet the proposed budget and timeline - 10%
5. Response to stakeholder information - 10%
6. Consideration of public safety, risk management and maintenance - 20%
7. Capacity to project manage the fabrication and installation of the proposed work - 10%

(f) the Project Advisory Panel discussed each of the artists conceptual presentations and were unanimous in selecting Laura Wills’ concept as the preferred design (attached to the Motion Without Notice). Her design incorporated the use of human scale figures waiting on the platform (to mimic its former use) plus other railway elements in different locations along the platform - images were attached. These human figures have a variety of clothing types to indicate certain layers of history of the site and its former use. Laura’s design response was well presented, well researched and had an element of fun and playfulness that the other design concepts lacked;

(g) in accordance with the Project Brief, the selected artist’s design will need to go through a ‘refinement’ phase in order to convert the design concept into a ‘woven wire’ or ‘lace fence’ solution. This process will be undertaken as part of a design development commission at an approximate cost of $8,000 - $12,000. This commission will include project management of the fabrication and installation of the final product. The budget for the fabrication of the final product is $40,000.

Cr Von Stanke moved it be recommended:

(a) The report be received;

(b) Council engage Laura Wills under a new contract as the preferred artist to carry out detail design and manage the installation of the artistic balustrade for the Railway Lands project;

(c) the Manager - Regulatory Services write to each of the artists thanking them for their design concepts and liaise with Arts SA to remunerate each artist for the concept design phase as per the contract and seed funding agreement;

(d) the Selection Panel approve the final refined design for fabrication purposes.

CONSIDERATION FOR EXCLUSION OF PUBLIC

Cr Smith moved that the following item(s) be received, discussed and considered in confidence by excluding the public pursuant to Section 90 (2) of the Local Government Act, 1999 and an order be made that the public (with the exception of Council Members and Council Officers now present in their official capacity) be excluded from the meeting in order for the item(s) to be considered in confidence as the Council (or Committee) is satisfied that the item is a matter that can be considered in confidence pursuant to the grounds referenced in Section 90 (3) of the said Act:

Section 90(3)(a) - the information to be received, discussed or considered in relation to this Agenda Item is information the disclosure of which would involve the unreasonable disclosure of information concerning the personal affairs of any person (living or dead).

Section 90(3)(g) - the information to be received, discussed or considered in relation to this Agenda Item is information concerning matters that must be considered in confidence in order to ensure that the Council does not breach any duty of confidence.

The information contained within the Agenda Item has been provided to Council for the purpose of administering the Commercial Lease for the Main Corner Commercial Kitchen and contains information that is both ‘commercial-in-confidence’ and concerning the personal affairs of the Lessee’s Company Directors.

The Council is satisfied that the principle that the meeting be conducted in a place open to the public has been outweighed in the circumstances as the matters under consideration concern the personal affairs and matters that are ‘commercial-in-confidence’ and to which the Council owes a duty of confidence.
