

# Works Notice

November 2019

## Boggo Road station construction update

Construction is underway at the Boggo Road station site as part of the Cross River Rail project.

### Site establishment continues

During November, activities on site will include:

- Installing permanent site fencing
- Building internal roads and concrete paths
- Starting the relocation of Outlook Park to its temporary location
- Constructing pads to support piling activities and earthworks
- Removing vegetation on Joe Baker Street adjacent to the station site
- Completing site access points along Joe Baker Street
- Construction of sediment pond to catch water run off from the site for reuse during construction activities
- Removing car parking spaces along Joe Baker Street and Boggo Road opposite Ecosciences building. Additional parking spaces will be created on Peter Doherty Street to offset this change.

### Utility investigation works

Utility investigation works have started around the site and will continue throughout November on Joe Baker Street, Boggo Road and Peter Doherty Street. These works include:

- Sawcutting sections of the footpath and excavating using a vaccum truck to identify existing underground utility services
- Intermittent interruptions to traffic under the direction of Traffic Control Officers
- Temporary pedestrian access changes along Joe Baker Street.

Access to the Ecosciences building, Leukaemia Foundation and properties on Peter Doherty Street will be maintained during these works.

### Weekend work in the rail corridor

The following investigation works will occur in the rail corridor in two locations:

1. Between Fairfield Station and Park Road Station from **2am Saturday 9 November until 3am Monday 11 November 2019**, weather permitting
2. Between Dutton Road Station and Norman Creek from **2am Saturday 23 November until 3am Monday 25 November 2019**, weather permitting.

Activities will include:

- Survey and identification of utilities such as water, electricity and gas
- Excavation using a vaccum truck to identify existing underground utility services
- Underground rock and soil testing using a truck mounted drill rig to test the ground conditions.

Some of these activities will occur outside the project's normal working hours and have been timed to occur

### Project information

The Cross River Rail Tunnel and Stations contractor CBGU D&C JV will deliver the underground tunnel and four new underground stations at Boggo Road, Woolloongabba, Albert Street, Roma Street and an upgrade to the Dutton Park station.

To subscribe for work updates, visit the Cross River Rail website and look for the subscription area at the bottom of every page.

## Work hours

Works will generally occur **between 6:30am and 6:30pm, Monday to Saturday**, weather and construction conditions permitting. However, some work may be required at night due to traffic restrictions and to maintain the safety of the community and our workers. We will notify nearby residents of night works.

Workers may arrive onsite one hour prior to the planned start time to prepare for the day's activities.

## What to expect

Nearby businesses and residents can expect:

- An increase in construction workers in the area
- Some temporary changes to traffic conditions under traffic control
- A potential increase in noise, dust and vibration. These impacts will be reduced as much as possible
- Trucks delivering machinery and materials.

Work is subject to relevant approvals and suitable weather conditions.

Every effort will be made to keep disruption to a minimum for residents and businesses in close proximity to the project site. If you have any questions at any time you can call **1800 010 875** to speak to a member of the Cross River Rail Tunnel and Stations contractor team.
