

Works Notice

Dec 19 – Jan 20

Woolloongabba station construction update

Piling is continuing at the Woolloongabba site to create a solid foundation for the excavation of the Tunnel Boring Machine (TBM) launch area and new underground station.

Details of work

During December and January, activities on site will include:

- Continuing to construct platforms and pads for piling and other site infrastructure. This will involve earthworks and the use of vibratory rollers
- Piling activities, including breaking back the top of the piles using jackhammers and building the concrete beam
- Identifying and relocating existing underground utility services in and around the site
- Installing utility services required for tunnelling and site operations
- Installing site office buildings and worker facilities
- Geotechnical investigations in and around the site
- Safely removing any hazardous material encountered during excavation/relocating underground infrastructure.

Works will generally occur between **6:30am and 6:30pm, Monday to Saturday**, weather and construction conditions permitting. Some work may be required at night due to traffic restrictions and to maintain the safety of the community and our workers.

Details of upcoming night works are detailed below. We will notify nearby residents prior to any night works.

Upcoming night work

The following works will occur intermittently throughout December and January, between 6:30pm and 6:30am :

- Installing traffic signage on roads surrounding the site
- Refuelling machinery at the site
- Geotechnical investigations around the site
- Investigating and relocating existing underground services on roads and footpaths surrounding the site
- Delivering and unloading oversized machinery and materials at the site.

Bus stop closure – Main Street

Bus stop 9 on Main Street at The Fiveways (Stop ID: 019053) will close in January 2020 for the duration of construction (Please see overleaf for map). The closure is required due to the proximity of the bus stop to the site entry and to maintain the safety of the community. Commuters will be able to catch the bus from Platform Two at the Woolloongabba Busway. Signage will be installed at the bus stop in advance of the closure.

What to expect

- Workers may arrive onsite one hour prior to the planned start time to prepare for the day's activities
- Bored piling generates less noise than other piling methods however there will be increased noise levels when removing the top of the piles
- Increased levels of localised noise and dust from the use of machinery and equipment. These impacts will be reduced as much as possible
- An increase in construction workers and vehicles in the area
- Temporary changed traffic conditions and minor traffic delays. Traffic control will be in place where required to maintain the safety of road users, the community and workers.

Work is subject to relevant approvals and suitable weather conditions. Every effort will be made to keep disruption to a minimum for residents and businesses in close proximity to the project site. We appreciate your patience during construction and will continue to update you as work progresses. If you have questions at any time you can call 1800 010 875 to speak to a member of the Cross River Rail Tunnel and Stations contractor team.

Site holiday shutdown

The site will be closed between **Monday 23 December 2019 and Sunday 5 January 2020** for the holiday season. Intermittent site inspections and maintenance will occur during this period. We would like to take this opportunity to wish the community a safe and happy holiday season.

Project information

The Cross River Rail Tunnel & Stations contractor CBGU D&C JV will deliver the underground tunnel and four new underground stations at Boggo Road, Woolloongabba, Albert Street, Roma Street and an upgrade to the Dutton Park station.
