

Works Notice

October 2019

Mary Street works – temporary footpath and lane closures

Throughout October and November, site establishment works including the installation of pedestrian protection gantries and hoardings will be undertaken on Mary Street in the vicinity of the Albert Street worksite. These works will require temporary footpath and road closures.

Temporary footpath closures

From 21 October 2019 for approximately two weeks, the footpath on Mary Street alongside Lot 2 of the Albert Street station construction site will be closed to pedestrians (see map overleaf).

This closure is required to enable the removal of the existing building awning which overhangs the footpath. Works will be undertaken between 6:30am and 6:30pm, Monday to Saturday.

During the awning removal, pedestrians will be detoured to the other side of Mary Street until the footpath is reopened.

Work may also include the safe removal of any hazardous materials found. These works will be carried out in accordance with regulatory requirements for the safety of workers and the community.

Weekend lane closures – Saturday 26 and Sunday 27 October and Saturday 16 and Sunday 17 November

On Saturday 26 and Sunday 27 October 2019 between 6:30am and 6:30pm, there will be lane closures on Mary Street adjoining the Lot 2 Albert Street construction site to enable:

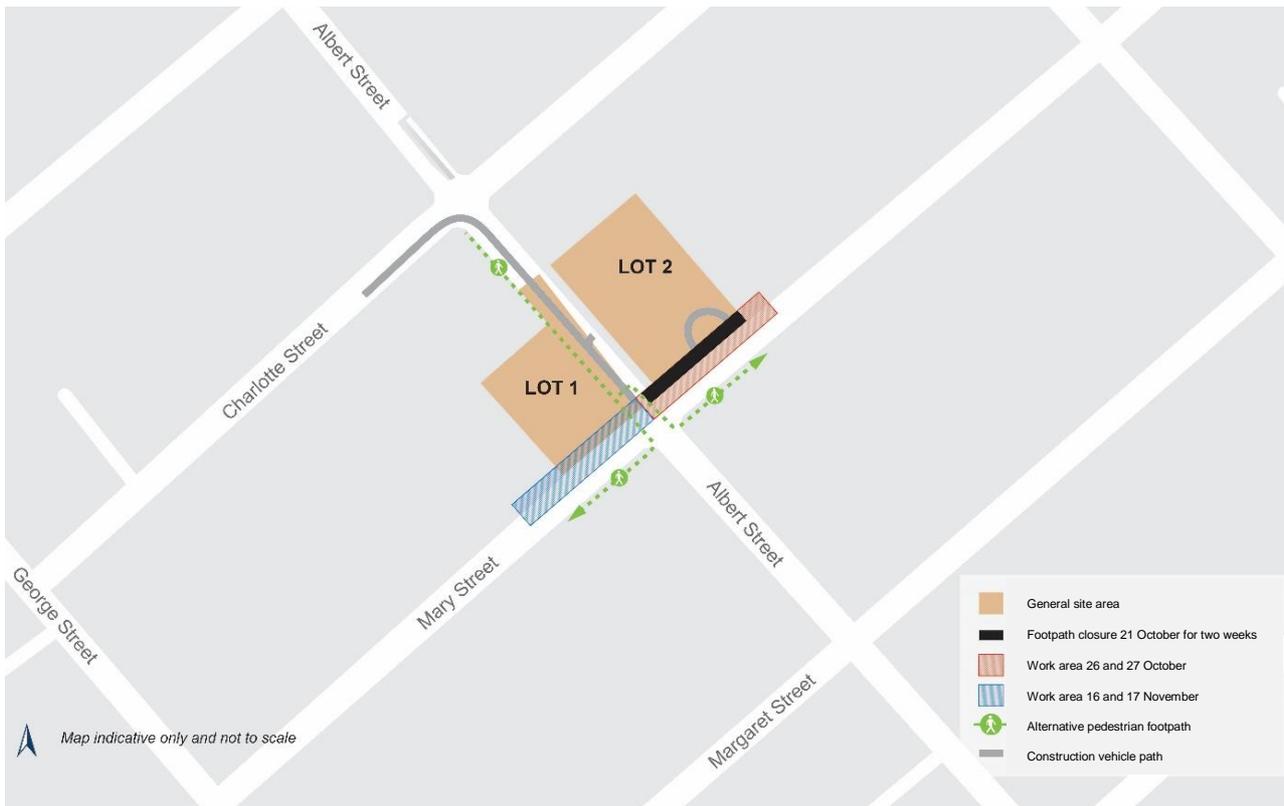

- installing pedestrian protection gantries over the footpath on the northern (site side) of Mary Street
- installing site hoarding
- trimming/removal of vegetation
- excavation using a vacuum truck to identify existing underground utility services
- geotechnical investigations using a drill rig
- trenching to relocate underground services where required.

This work will continue alongside Lot 1 on the weekend of Saturday 16 and Sunday 17 November.

Please see map overleaf for details of this work.

Project information

Subscribing to receive Project Updates is a convenient way to obtain information about the project and work happening in your area. To subscribe for work updates, visit the Cross River Rail website and look for the subscription area at the bottom of every page.

What to expect

During this work, nearby businesses and residents can expect:

- a potential increase in noise, dust and vibration. We are committed to reducing these impacts as much as possible
- use of construction machinery such as mobile cranes, road saws, elevated work platforms and hand tools
- increased construction vehicle movements
- minor traffic delays. Traffic control officers will be in place to maintain the safety of road users, community and workers.

Work is subject to suitable weather conditions.

Every effort will be made to keep disruption to a minimum for residents and businesses near the project site. If you have questions at any time you can call **1800 010 875** to speak to a member of the Cross River Rail Tunnel and Stations contractor team.
