

# Works Notice

March 2020

## Roma Street construction update

Demolition and excavation activities will continue at the Roma Street construction site throughout March 2020.

### Demolition site

Demolition of Hotel Jen, East and Towers is progressing. Upcoming activities at the site include:

- Disconnecting and relocating utility services inside the Transit Centre and other buildings
- Removing internal fittings and fixtures
- Installing and removing scaffolding around the buildings
- Safely removing any hazardous materials found
- Removing vegetation and preparing the footpath in front of the Transit Centre for protection gantries
- Installing overhead footpath protection gantries, hoarding and fencing
- Structural demolition using large equipment
- Removing demolition waste
- Installing ground support anchors along the northern boundary of the site
- Excavating and concreting work inside the site.

Nearby businesses and residents may experience an increase in noise as demolition activities progress.

### Tunnelling site

Upcoming activities at the tunnelling site on the corner of Roma Street and Parkland Boulevard include:

- Construction of an access shaft, including rock breaking and loading material into trucks and removing from site
- Lining and reinforcing the access shaft. The shaft will be progressively reinforced with ground support anchors and concrete
- Installing an acoustic shed involving steel work and concreting
- Installing various utility services needed to operate the site.

### Upcoming night work

The following work will occur intermittently at night throughout March between **6:30pm and 6:30am, Monday to Saturday:**

- Installing underground power cables along Makerston and Roma streets to supply the site
- Identifying and relocating underground utility services
- Installing overhead protection gantries over the footpath on Roma Street and inside the Brisbane Transit Centre
- Installing and removing scaffolding around the perimeter of the buildings
- Geotechnical investigations within and around the site
- Installing signalised pedestrian crossings and other traffic changes at the intersection of Roma and Herschel streets
- Electrical and site investigation activities inside the Brisbane Transit Centre
- Installing the acoustic shed at the tunnelling site on the corner of Roma Street and Parkland Boulevard
- Delivery of oversized equipment and materials.

### Extended hours work

The following work will continue until **10pm, Monday to Friday**, at the site on the corner of Roma Street and Parkland Boulevard:

- Excavation using large machinery
- Loading excavated material into trucks and removing from site
- Installing ground support anchors and concreting.

## Demolition of Roma Street footbridge

Roma Street footbridge will be demolished between **7:00pm Friday 27 and 5:00am Monday 30 March 2020**. Temporary traffic changes will be required to safely carry out the work.

Further information about the work and traffic changes will be provided in advance of the work.

## Changes to the intersection at Roma and Herschel streets

Work to implement changes at the intersection of Roma and Herschel streets is expected to be completed in March 2020.

Following the completion of this work, there will be changes to pedestrian access in the area. For more information about the new layout of the intersection, please visit [crossriverrail.qld.gov.au](http://crossriverrail.qld.gov.au).

## Project information

To subscribe to receive project updates, visit [www.crossriverrail.qld.gov.au](http://www.crossriverrail.qld.gov.au) and follow the sign-up prompts at the bottom of each page.

## Work hours

Works will generally occur between **6:30am and 6:30pm, Monday to Saturday**, weather and construction conditions permitting.

Due to traffic restrictions, some works will occur outside of these hours. Please see overleaf for further details.

Workers may arrive onsite approximately one hour prior to the planned start time to prepare for the shift's activities.

## What to expect

- An increase in construction workers and vehicles in the area
- A potential increase in noise, dust and vibration. These impacts will be reduced as much as possible
- Temporary changed traffic conditions, including lane closures, footpath diversions and reduced speed limit. Traffic control will be in place where required to maintain the safety of road users, the community and workers.

Work is subject to relevant approvals and suitable weather conditions.

Every effort will be made to keep disruption to a minimum for residents and businesses in close proximity to the project site.
