

Works Notice

March 2020

Site establishment Lanham Street, Bowen Hills

From late March 2020, the UNITY Alliance will establish a temporary site facility on Lanham Street. The site will be used as a staging area for future rock excavation activities to widen the eastern side of the rail corridor between O'Connell Terrace and Campbell Street, Bowen Hills.

The site will be located within the existing Brisbane City Council depot with the main entry and exit point off Lanham Street for the duration of the project (see map below).

Details of work

Activities are scheduled to occur between 6:30am and 6:30pm, Monday to Saturday. The site compound may also be used intermittently during planned night works.

As part of the site establishment, works will involve:

- Placing temporary fencing, and erosion and sediment controls
- Minor earthworks to construct level areas for the buildings and parking
- Establishment of a laydown facility, site sheds and storage areas
- Establishing access points
- Setting up workforce parking and loading areas.

What to expect

Due to the ongoing use of this site facility, you may notice some intermittent disruptions such as:

- Minor increases of truck and vehicle movements on Lanham Street, O'Connell Terrace and Bowen Bridge Road from Monday to Saturday 6:30am to 6:30pm
- Access to and use of storage and laydown areas for construction materials
- Operation of security lighting onsite
- Intermittent use during night works activities
- Security patrols.

Workers may arrive onsite one hour prior to the planned start time to prepare for the day's activities.

Every effort will be made to keep disruption to a minimum for residents and businesses in close proximity to the project site.

We appreciate your patience during construction and use of this compound and will continue to update you as work progresses.

Project information

The UNITY Alliance consists of the Cross River Rail Delivery Authority, Queensland Rail, CPB Contractors, UGL, AECOM and Jacobs. The UNITY Alliance will design, supply and install the supporting rail system and integration of Cross River Rail into Queensland Rail's train network. The UNITY Alliance will also deliver new stabling facilities at Mayne Yard and upgrades to Exhibition, Fairfield, Yeronga, Yeerongpilly, Moorooka, Rocklea and Salisbury stations.

Subscribing to receive Project Updates and information on construction works is a convenient way to keep up to date with the project and work happening in your area. To subscribe, simply visit the Cross River Rail website and look for the subscription area at the bottom of every page.
