

# Works Notice

JUNE 2020

## Boggo Road station construction update

Site establishment activities, utility relocations and piling work continues at the Boggo Road station site as part of the Cross River Rail project.

### Construction activities continue

Throughout June, activities on site will include:

- Drilling and pouring piles
- Installing a capping beam to secure piles together
- Excavation and earthwork activities
- Removal of excavated material from site by trucks
- Installation of permanent site fencing and gates
- Construction of internal roads and concrete paths
- Machinery and equipment deliveries
- Environmental monitoring and geotechnical investigations
- Removal of sheet piles
- Geotechnical investigation work on Peter Doherty Street and Kent Street.

### Boggo Road Busway realignment

During June, the Boggo Road Busway lanes will be realigned in the vicinity of the busway station adjacent to the Park Road railway station.

This will enable a section of the busway retaining wall to be safely demolished and for further project activities to be started, such as excavation of the Boggo Road station 'box'. Several busway light poles will also be temporarily relocated.

This realignment work will be undertaken at night to avoid disrupting busway services. Nearby residents and businesses will be notified prior to this night work.

### Weekend work in the rail corridor

From **6:00am Saturday 13 June to 6:00pm Sunday 14 June 2020**, work will be carried out in the rail corridor between Fairfield station, Park Road station and Buranda station.

A separate notice will be distributed about this work with more detail.

### Service relocations

Utility service relocation work on Joe Baker Street will continue during June. Some of this work will be undertaken at night, and will be performed by the relevant utility asset owner/s.

Activities will include:

- Saw cutting sections of footpath and excavating a trench across Joe Baker Street to install sewer infrastructure
- Intermittent road closures, interruptions to local traffic and lane closures under the direction of traffic control
- Temporary closure of some car parking spaces along the western side of Joe Baker Street for the duration of the work
- Temporary pedestrian access changes along Joe Baker Street.

Note that during service relocations, property access will be maintained at all times. Motorbike parking on Joe Baker Street will also remain open.

### Service and ground condition investigations

Throughout June, workers may be seen around Dutton Park station and Boggo Road as they locate and inspect inground services and utilities such as power, water, sewer and telecommunications. This includes Peter Doherty Street, Railway Terrace, Dutton Street, Rawnsley Street, Pound Street, Kent Street, Cope Street, Noble Street, Sampson Street and Annerley Road near Cornwall Street in Dutton Park.

Investigation activities will include:

- CCTV inspections and pressure cleaning of water and sewer infrastructure
- Geotechnical investigations using a truck-mounted drill rig to take samples of ground/soil conditions
- Utility investigation and reinstatement activities.

This work will use equipment such as vacuum excavation trucks, road saws, small excavators, tipper trucks, compactors, truck-mounted geotechnical drilling rigs and specialist CCTV vehicles.

### What to expect

Nearby businesses and residents can expect:

- An increase in construction workers and vehicles in the area
- An increase in truck movements to and from the Boggo Road station site
- A potential increase in noise, dust and vibration
- Intermittent maintenance activities such as refuelling
- Trucks removing and delivering machinery and materials to the work site. Some of these deliveries will be made outside of normal construction hours
- Temporary changed pedestrian access
- Temporary changed traffic conditions including lane closures.

Work is subject to relevant approvals and suitable weather conditions.

### Work hours

Work will generally occur **between 6:30am and 6:30pm, Monday to Saturday**, weather and construction conditions permitting.

Some work may be required at night due to traffic restrictions and to maintain the safety of the community and our workers. We will notify nearby residents of night work.

Workers may arrive onsite one hour prior to the work start times to prepare for the shift's activities.

### Interruptions to power, telecommunications, or gas supply

Some work may require temporary interruption to services. The community will be notified by the service provider where required. Outages can also be monitored through service provider's websites:

**Energex:** [energex.com.au/home/power-outages/planned-maintenance-outages](http://energex.com.au/home/power-outages/planned-maintenance-outages)

**Telstra:** [outages.telstra.com.au](http://outages.telstra.com.au)

**Queensland Urban Utilities (QUU):**  
[urbanutilities.com.au/faults-and-interruptions](http://urbanutilities.com.au/faults-and-interruptions)

All efforts are made to reduce impacts to the community in close proximity to project work. If you have any questions about the project, call **1800 010 875** to speak to a member of the Cross River Rail Tunnel & Stations team.
