Yeronga station concept design

As part of the Cross River Rail Project, six stations from Fairfield to Salisbury will be upgraded to improve access and functionality.

Get involved and have your say

We’d like your feedback to help further develop the Yeronga station concept design. The concept design public comment period finishes on Friday 24 July 2020.

Community drop-in session

We will be holding a community drop in session to enable you to meet the team, ask questions and provide feedback.

Drop in anytime at the session below:

Cross River Rail Experience Centre
Level 1, 151A Elizabeth Street, Brisbane
Friday 17 July 2020
11:30am until 1:30pm

Online

Complete the online survey go to crossriverrail.qld.gov.au/yeronga
Station features

Features of the Yeronga station include:

- An additional (third) platform
- A new station building
- An upgrade to the existing platforms
- New overpass and vertical transport system including three lifts and stairs
- Provision for accessible parking within the car park
- Provision for Kiss ‘n’ Ride car parking
- Improved access to the platforms.

Request for Project Change (RfPC)

As part of the upgrade, the project team is proposing an upgrade to the pedestrian bridge including an additional connection over Fairfield Road. The additional connection over Fairfield Road is not part of the evaluated project and needs to be considered by the Coordinator-General as part of a Request for Project Change. If approved by the Coordinator-General, the additional connection will be incorporated into the Project.

Consultation on the concept design including the additional connection is being undertaken in advance of the Request for Project Change to understand community and stakeholder feedback to inform further planning activities.

Current status

Early works are continuing including geotechnical investigations, survey, installation of overhead electrical structures and preparing the detailed design for construction. Major construction at Yeronga station is scheduled to start in late 2020.

Project information

Subscribing to receive Project Updates is a convenient way to obtain information about the project and work happening in your area. To subscribe, simply visit the Cross River Rail website and look for the subscription area at the bottom of every page.
