

Works Notice

July 2020

Controlled blasting at Woolloongabba

As part of excavation of the tunnel access shaft, the Cross River Rail Tunnel & Stations contractor will soon commence controlled blasting at the Woolloongabba station site.

The Cross River Rail work site at Woolloongabba contains very hard rock areas. To break through this rock, the project team will undertake controlled blasting.

See attached 'Controlled Blasting' fact sheet for more information on controlled blasting.

The project team is planning to conduct two small trial blasts within the tunnel access shaft **from late-July 2020.**

Following successful trial blasts, the project team will move to production blasting.

There will be up to 10 blasts carried out at the Woolloongabba site from late-July to late 2020.

Blasting will be carried out between 7:30am and 4:30pm, Monday to Saturday. Blasts will not take place on Sundays or public holidays.

Nearby residents and businesses will be notified at least 48 hours' ahead of controlled blasting.

An SMS alert will also be issued 4 hours prior to controlled blasting.

Subscribe to email and SMS alert

To register to receive email and SMS updates **prior to controlled blasting**, please send your name, phone number and home address via email to crossriverrail@cbgujv.com.au or by text to 0419 679 314 (message and data rates may apply).

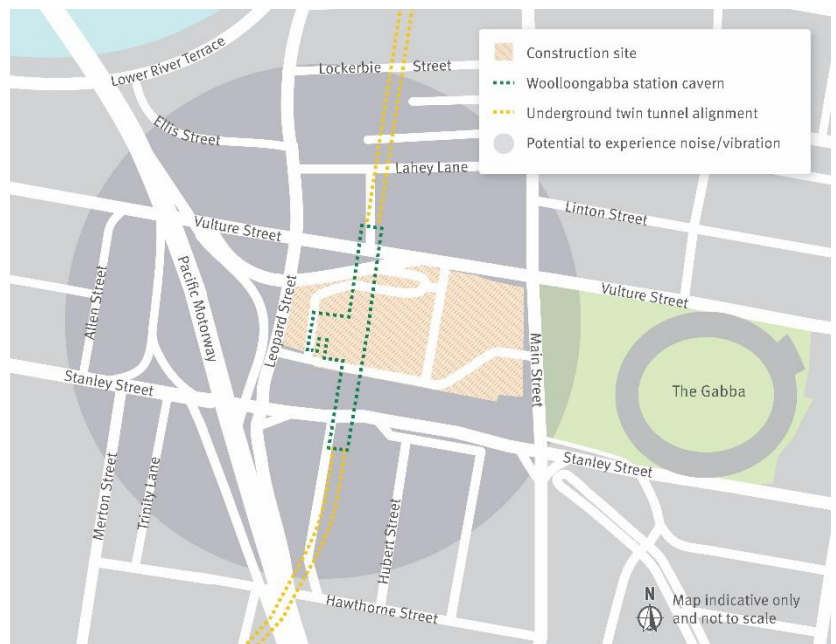

Personal information collected for the purposes of SMS services will be managed in accordance with the Information Privacy Act 2009 (QLD).

What to expect

A siren will sound near the blasting area **prior** to the blast.

Residents and businesses within approximately 700 metres of the blasting area may hear and feel the controlled blast. The sound is similar to that of rumbling thunder and some slight vibration may be felt.

There may be brief pedestrian and traffic stoppages directly adjacent to the work site. Please follow all directions of traffic controllers.
