

# Works Notice

August 2020

## Works between Roma Street and Bowen Hills stations

The UNITY Alliance will continue work within the rail corridor between Roma Street and Bowen Hills stations for construction of the Cross River Rail project.

### Details of work

The activities outlined below are scheduled to occur between Thursday 13 August and Monday 17 August 2020, weather and construction conditions permitting. These activities will occur outside the project's normal working hours but are timed to take place within a planned weekend track closure, as outlined below:

Location	Date and hours of work	Type of work
Roma Street station to Bowen Hills station	Intermittently between 10:00pm Thursday 13 August and 12:00am Monday 17 August 2020	<ul style="list-style-type: none"> <li>• Installation of under track crossings</li> <li>• Earthworks and drainage installation</li> <li>• Electrical mast foundation installation</li> <li>• Rail corridor rock excavation near O'Connell Terrace</li> <li>• Pier protection works near the Victoria Park land bridge</li> <li>• Corridor inspection walks.</li> </ul>

### What to expect

During these works you may notice some intermittent disruptions such as:

- Light vehicles, trucks and machinery including excavators, mobile cranes, truck-mounted piling rig, small power tools, drills, saws, minor vibrating equipment and mobile lighting towers to light the work areas at night
- Changes around your local area such as construction vehicles, traffic management signs and personnel
- Access to site via Lanham Street, Bowen Hills and Victoria park access Road Spring Hill
- Some noise, vibration and dust associated with the use of heavy machinery and equipment
- Placement of temporary fencing around construction areas.

Every effort will be made to keep disruption to a minimum for residents and businesses in proximity to the project site, including:

- Maintaining access to residents' properties
- Keeping higher noise-generating activities to the earlier stages of night shifts wherever possible
- Ensuring plant / equipment used has been maintained (including noise control devices)
- Minimising light spill by directing light-generating plant and equipment away from residences
- Conducting toolbox talks with work crews to remind them of out of hours work protocols (no unnecessary noise).

We appreciate your patience during construction and will continue to update you as work progresses.

**Cross River Rail is Queensland's largest rail infrastructure project. During construction of this project, there may be some disruption to your normal services, so plan your journey at [translink.com.au](http://translink.com.au) or call 13 12 30.**
