

Works Notice

January 2021

Early investigations - Helensvale North Station

The Cross River Rail Delivery Authority is continuing with planning for three new rail stations on the Gold Coast Line at Pimpama, Helensvale North and Merrimac. GHDWoodhead has been engaged to undertake early investigations and prepare the detailed design for construction.

Early investigations are scheduled to commence in January 2021 and will continue throughout 2021. Investigations will include geotechnical works, survey, utility identification and environmental studies including heritage, flora and fauna.

These investigations will be used to further refine the station designs. Further community consultation on the station design will be undertaken in 2021.

Early investigations

Early investigations at the Helensvale North station site are planned to commence in **early January 2021** and will involve:

- Geotechnical investigations using a truck-mounted drill rig.
- Survey and identification of existing utility services using a vacuum excavation truck.

The investigations will take place adjacent to the existing rail corridor and within Mangrove Jack Park, located off Hope Island Road.

What to expect

Residents will notice an increase in workers and vehicles in the area. We appreciate your patience while we undertake these works. Standard work times are **6:30am to 6:30pm Monday to Saturday**, however work may occur outside of these hours due to traffic permits and safety requirements.

Project background and information

In 2019, the Cross River Rail Delivery Authority developed concept designs and carried out community consultation on new stations being delivered on the Gold Coast Line at Pimpama, Helensvale North and Merrimac. GHDWoodhead has been engaged by the Delivery Authority to undertake early investigations and further develop the station designs for construction.
