

Works Notice

March 2021

Construction update Exhibition station

I During March 2021, UNITY Alliance will continue construction activities in your local area.

Details of work

The following activities are scheduled to occur between 6:30am and 6:30pm, Monday to Saturday, during March 2021, weather and construction conditions permitting:

- RNA Showgrounds rock cutting and retaining wall construction will continue until October 2021.
- Once sections of rock have been removed by an excavator with a hydraulic hammer, retaining walls will be built that require the installation of soil nails into the rock face and will be finished with shotcrete (a spray concrete finish)
- Demolition of existing Exhibition station structures will continue, to allow for the future construction of the new Exhibition station building
- Relocation of public utilities (water, sewer, communications and electrical) within the RNA Showgrounds precinct
- Piling for Exhibition station's 130 metre long twin track bridge will continue
- Site preparation, including earthworks, for an electrical feeder station adjacent to Bowen Bridge Road
- Installation of mast foundations for overhead electrical lines, cable routes and pits within the rail corridor
- Piling adjacent to Bowen Bridge Road in preparation for pier protection works
- Surveying and investigating underground services, such as water, electricity and gas.

Out of hours work

Additional activities will occur outside the project's normal working hours but are timed to take place within a planned track closure, as outlined below:

Location	Date and hours of work	Type of work
Spring Hill and Bowen Hills	Intermittently between 2:00am Monday 1 and 2:00am Sunday 7 March 2021	<ul style="list-style-type: none"> • Demolition of the existing Exhibition station structures • Piling adjacent to Bowen Bridge Road • Cable trenching and installation • Overhead mast foundation installation, signalling, track work and maintenance within the rail corridor • Excavation and installation of drainage.

Construction activities being undertaken in the Exhibition station precinct

What to expect

During these works you may notice some intermittent disruptions such as:

- Light vehicles, trucks and machinery including excavators, mobile cranes, small power tools, drills, saws, minor vibrating equipment and mobile lighting towers to light the work areas at night
- Use of large machinery such as excavators with hydraulic hammers to demolish the concrete platform at Exhibition station and load material into trucks for transport
- Changes around your local area such as construction vehicles, traffic management signs and personnel
- Delivery trucks and workers' vehicles entering the RNA Showgrounds via O'Connell Terrace and the rail corridor via Lanham Street and via Gregory Terrace and the existing Victoria Park access road
- Increased levels of noise, vibration and dust associated with the use of heavy machinery and equipment
- Water trucks will provide dust suppression during the demolition activities.

If you would like to speak with a member of the UNITY Alliance Project Team about these planned works please contact 1800 010 875 or email info@unityalliance.com.au anytime for more personalised consultation.

We appreciate your patience during construction and will continue to update you as work progresses.

Project information

Subscribing to receive Project Updates and information on construction works is a convenient way to keep up to date with the project and work happening in your area. To subscribe, simply visit the Cross River Rail website and look for the subscription area at the bottom of every page.
