

# Works Notice

April 2021

## Southern Area construction update

Station box excavation at the Boggo Road worksite continues and the next phase of major activity, tunnelling, has started.

In the Southern Tunnel Portal works area, piling activities, utilities relocation and site establishment continues, with a focus on Easter holiday work in the rail corridor.

### Boggo Road station construction site

#### Construction activities

Activities on site include:

- 24/7 tunnelling activities including the use of two excavators for cavern excavation
- Excavation, earthworks and associated haulage
- Installing rock anchors, soil nails, shotcreting and ground support
- Installing concrete pumping infrastructure within the busway for station construction
- Installing fencing along the busway
- 24/7 crane operation at station box
- Machinery, equipment and materials delivery
- Continued reinforcement and concrete installation for the station structure
- Installing traffic barriers on Joe Baker Street.

#### Out-of-hours works: Boggo Road site

The Boggo Road site is operational 24 hours a day, 7 days a week. Out-of-hours work is required due to traffic permits, safety requirements and construction methodology, with works including (but not limited to):

- Station box works including stockpiling, earthworks, spoil removal, plant movements and concrete works
- Piling rig delivery and associated works via Boggo Road and Joe Baker Street – due mid-April
- Site and service investigations, monitoring and maintenance
- Concrete and over-sized equipment deliveries.

Additional notification will occur for out of hours work if required. Work is subject to approvals and weather conditions.

#### Survey, service and ground condition investigations

Throughout April, the team will investigate and survey underground utilities including power, water, sewer and telecommunications in the Southern Tunnel Portal area and within the Boggo Road precinct. Monitoring of the rail corridor will also be required. Investigation activities will include:

- Survey, CCTV inspections and pressure cleaning of water and sewer infrastructure
- Geotechnical and soil investigations using truck-mounted drill rigs
- Utility investigation and reinstatement activities
- Maintenance and monitoring works to ensure sensitive infrastructure is protected, as required throughout entire precinct, including the Queensland Rail corridor.

#### Interruptions to water, power, telecommunications, and gas supply

Some work may require temporary interruption to services. Service providers will notify of any planned interruption, where required. Outages can also be monitored at:

- **Energex:** [energex.com.au/home/power-outages/planned-maintenance-outages](http://energex.com.au/home/power-outages/planned-maintenance-outages)
- **Telstra:** [outages.telstra.com.au](http://outages.telstra.com.au)
- **Queensland Urban Utilities (QUU):** [urbanutilities.com.au/faults-and-interruptions](http://urbanutilities.com.au/faults-and-interruptions)

## Easter work in the rail corridor

During the Easter holiday period, the Cross River Rail Tunnel & Stations team will be working in the rail corridor between Dutton Park, Park Road and Buranda stations.

From **2:00am Friday 2 April to 3:00am Monday 12 April 2021**, a variety of works will be undertaken, weather and construction conditions permitting, which may mean an increase in levels of localised noise, lighting and dust from the use of machinery.

**To undertake these works safely and efficiently, there will be changes to train services from first service Friday 2 April 2021 until last service Wednesday 7 April 2021. Plan your journey at [translink.com.au](http://translink.com.au) or call 13 12 30.**

The vacant lot at the end of Harrogate Street will be used as a laydown, delivery, spoil removal / loading, conveyor and access point during these works. Local notifications will be issued as required. Martin Street will also be utilised as an access point.

## Southern Tunnel Portal Works Area

### Construction activities

Ongoing activities on site include:

- Site facilities and office establishment
- Excavation, earthworks and associated haulage
- Installing permanent site fencing and gates
- Continued drilling and pouring of piles including pile break back
- Machinery, equipment and material delivery
- Continued utility relocation work including Telstra and sewer and stormwater infrastructure on Kent Street, Railway Terrace and Pound Street
- Installing rail signalling within the rail corridor
- Installing a water connection, drainage and stormwater work on Kent Street.

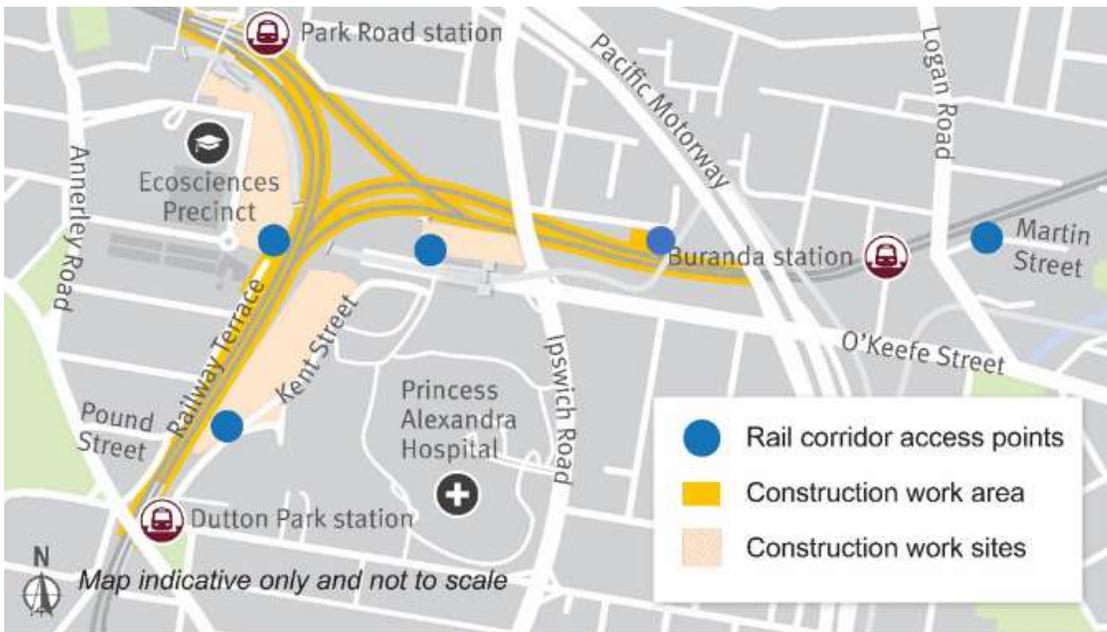

Image 2. Map showing work areas and access points

### What to expect

- Construction activity in the area including the use of heavy machinery with the potential for an increase in noise, dust, vibration, truck movements and workers
- Temporary lighting to support out of hours work
- Intermittent maintenance activities
- Construction impact mitigation activities such as street sweepers, water suppression and fencing installation
- Work is subject to relevant approvals and suitable weather conditions
- Temporary changed pedestrian access and traffic conditions including lane closures on Railway Terrace, near Kent Street and within the Boggo Road precinct
- Standard construction times are 6:30am to 6:30pm, Monday to Saturday, however work will occur outside of these hours due to traffic permits, safety requirements and construction methodology
- Workers may arrive onsite one hour prior to the work start times to prepare for the shift's activities
- Every effort will be made to keep disruption to a minimum for nearby residents and businesses.
