

# Works Notice

April 2021

## Albert Street station construction update

Throughout April, works will continue at three Albert Street station construction sites. This includes ongoing excavation for the future main station entrance (Lot 1), ongoing tunnelling activities within the acoustic shed to excavate the Albert Street underground station platform cavern (Lot 2) and ongoing bored piling and ground retention activities at the northern station entrance site (Lot 3).

Map above: Indicative map showing the work locations throughout April. Turn over the page for work details.

### What to expect

- Construction activity in the area with potential for an increase in noise, dust, vibration, truck movements and workers.
- Construction impact mitigation activities such as street sweepers, water suppression and hoarding installation.
- Ongoing delivery and removal of material, equipment and machinery, including oversized plant.
- Temporary road, laneway and pedestrian traffic detours under the direction of traffic control which may cause delay in journey times and routes.
- Works are subject to site and weather conditions.

#### Register to receive SMS updates

We send free SMS messages ahead of tunnelling and selected night work. To subscribe, send your name, mobile phone number and address to [crossriverrail@cbqujv.com.au](mailto:crossriverrail@cbqujv.com.au)

*Personal information collected by Cross River Rail Tunnel & Stations for the purposes of email and SMS services will be managed in accordance with the Information Privacy Act 2009 (QLD).*

### Sunday haulage and equipment delivery

Cross River Rail proposes to change working hours at the Albert Street station construction site to include haulage and equipment delivery (excluding concrete deliveries) on Sunday between 9am and 6.30pm. If you have any comments or concerns relating to this proposed change, please contact the Project team on **1800 010 875** or [crossriverrail@cbqujv.com.au](mailto:crossriverrail@cbqujv.com.au). Additional notification will be provided prior to commencing haulage or deliveries at these proposed hours.

## LOT 1 – Main station entrance

Western corner of Albert and Mary streets intersection

### Excavation of the main station entrance

#### Ongoing

- Excavation and ground retention activities including rock hammering and anchoring, saw cutting, drilling and shotcreting
- Concrete and formwork activities
- Installing structural steel propping systems, including use of mobile cranes
- Bulk spoil separation and removal.

### Site support facilities

#### Ongoing

- Line marking and lane adjustment activities on Mary Street in preparation for a material load out facility to be installed
- Adjustments to site facilities, including upgrades to water meter
- Oversized plant equipment and material delivery and removal, including use of mobile cranes.

## LOT 2 – Tunnelling site, within the acoustic shed

Northern corner of Albert and Mary streets intersection

### Underground excavation

#### Ongoing

- Excavating the underground station platform cavern by roadheader and controlled blasting activities, including excavation of the pedestrian adits (see map)
- Ground stabilisation and retention works including shotcreting and rock bolting.

### Tunnelling support activities

#### Ongoing

- Plant, material and equipment delivery and removal
- Extension, installation and adjustment activities to ventilation and tunnel services
- Bulk spoil removal activities.

## LOT 3 – Northern station entrance

142 Albert Street, Brisbane

### Earthworks and piling activities

#### April 2021

- Contaminated material inspections, monitoring and removal if required
- Site and geotechnical investigations
- Bored piling
- Earthwork activities including piling support activities, material separation and removal
- Installing pile capping beams, including evening work.

### Site support activities

#### April 2021

- Installing, adjusting and removing barriers, fencing, hoarding and scaffolding, including signage
- Adjustments to site facilities and pedestrian gantry
- Installing material removal facilities including gantries and spoil bins
- Plant and equipment delivery and mobilisation
- Demobilising piling plant and equipment, including night work.

## Local streets

Albert Street between Alice and Queen streets: Elizabeth, Charlotte and Mary streets

### Utility work and geotechnical investigations

#### Ongoing

- Locating, maintaining, installing and relocating services
- Geotechnical investigations and monitoring equipment installation
- Vegetation maintenance works.
- Borehole investigations, drilling and reinstatement works
- Temporary partial lane closures and traffic changes where required.

#### Standard construction hours

Standard construction hours are 6:30am to 6:30pm, Monday to Saturday.

#### Out of hours works

Some activities will be completed out of normal construction hours. Timing of these works are detailed in project updates - follow steps to register.

#### 24 hours

Tunnelling and tunnelling support activities are undertaken 24 hours a day.

### Albert Street controlled blasting update

As part of excavation of the station box and underground station platform cavern, the Cross River Rail Tunnel & Stations contractor will recommence controlled blasting activities.

Blasting will be carried out between **7:30am and 4:30pm, Monday to Saturday**, excluding public holidays.

#### Register for SMS alerts of controlled blast times

Register to receive SMS alerts prior to each controlled blast, please send your name, phone number and address by email to [crossriverrail@cbgujv.com.au](mailto:crossriverrail@cbgujv.com.au) or by text to 0419 679 314 (message and data rates may apply).
