

Works Notice

May 2021

Northern Tunnel Portal construction update

Piling, excavation and concrete work is continuing at the Northern Tunnel Portal in preparation for the Tunnel Boring Machines to arrive later in the year.

Sewer main relocation update

The project has started to progressively reinstate work areas in Victoria Park.

To finalise relocation of the underground sewer main, some work areas within the park will need to remain in place **until June 2021**.

In the coming months, intermittent night and weekend diversions of the Victoria Park shared user path may be required to finish building a new sewer pit and rebuilding the footpath.

More information will be distributed prior to any diversions of the Victoria Park shared user path.

Northern Tunnel Portal construction site

Within the rail corridor at Normanby

Site establishment

Ongoing

- Constructing an area to remove and dismantle two Tunnel Boring Machines (TBMs).
- Preparing the site to install a large gantry crane.
- Delivering and removing oversized plant and equipment.

Excavation and construction of structure

Until late 2021

- Installing piles to support the Northern Tunnel Portal structure.
- Installing ground support anchors, vertical drainage and shotcrete.
- Constructing the concrete capping beam to connect the bored piles.
- Excavating, loading and removing excavated material with trucks.

Sewer relocation

Under the rail corridor at Normanby and within Victoria Park

Excavation, microtunnelling and construction of service pits

Until June 2021

- Delivering and removing plant and equipment.
- Building a new sewer pit.
- Decommissioning the existing sewer main.
- Reinstating Victoria Park work areas.

Standard construction hours

Standard construction hours are 6:30am to 6:30pm, Monday to Saturday.

Out of hours works

Some activities will be completed out of normal construction hours. Nearby residents will be notified in advance via letterbox drop.

What to expect

- Construction activity in the area with potential for an increase in noise, dust, vibration, truck movements and workers.
- Construction impact mitigation activities such as street sweepers and dust suppression.
- Work is subject to relevant approvals and suitable weather conditions.
- Temporary pedestrian and traffic changes.
- Standard construction times are **6:30am to 6:30pm, Monday to Saturday**, however work will occur outside of these hours due to traffic permits, safety requirements and construction methodology.
