

Works Notice

June 2021

Construction update Exhibition station

| During June 2021, UNITY Alliance will continue construction activities in your local area.

Details of work

The following activities are scheduled to occur between 6:30am and 6:30pm, Monday to Saturday during June 2021, weather and construction conditions permitting:

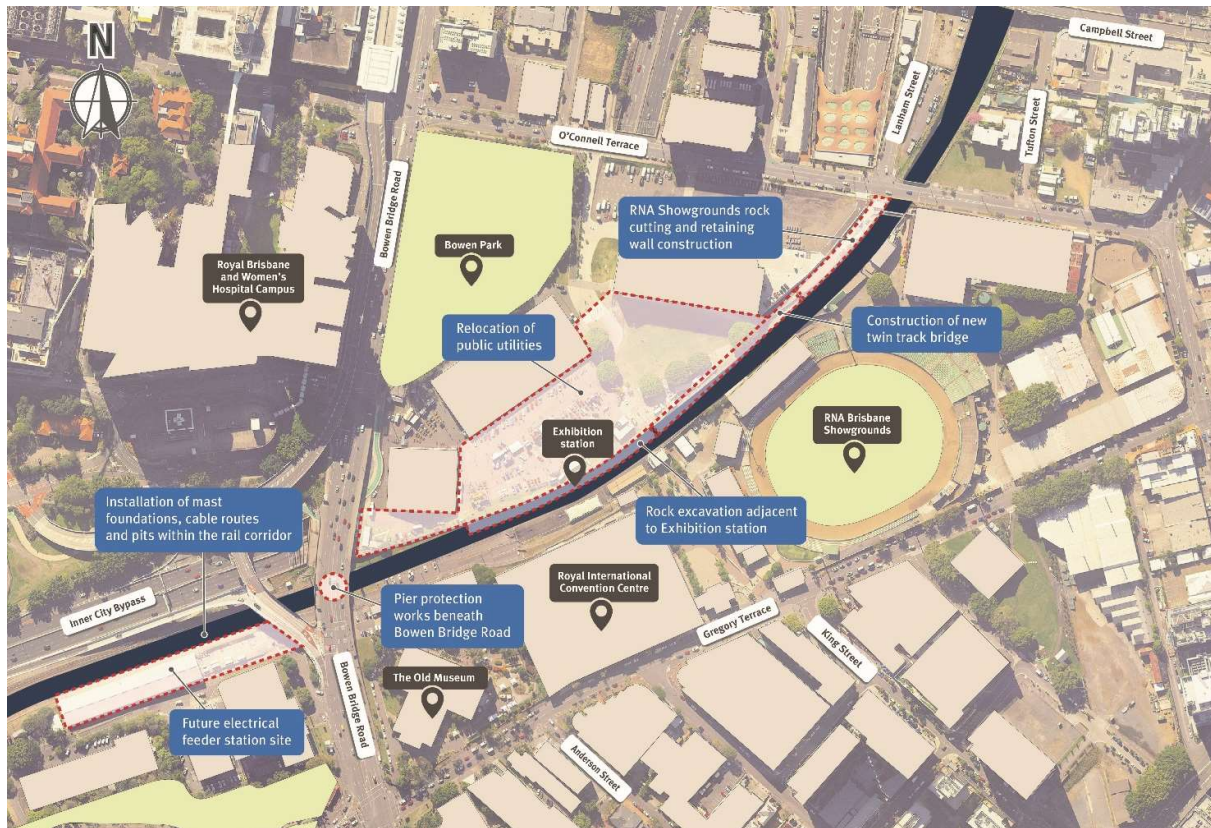

- RNA Showgrounds rock cutting and retaining wall construction will continue until October 2021. Once sections of rock have been removed by an excavator with a hydraulic hammer, retaining walls will be built which require the installation of soil nails into the rock face and will be finished with shotcrete (a spray concrete finish)
- Rock excavation and removal adjacent to the existing Exhibition station
- Relocation of public utilities (water, sewer, communications and electrical) within the RNA Showgrounds precinct
- Bridge and retaining wall structures near Exhibition station will continue
- Site preparation including earthworks for an electrical feeder station adjacent to Bowen Bridge Road
- Installation of mast foundations for overhead electrical lines, cable routes and pits within the rail corridor
- Piling, steel fixing and concrete works adjacent to Bowen Bridge Road and O'Connell Terrace bridges for ongoing pier protection works
- Surveying and investigating underground services, such as water, electricity and gas.

Out of hours work

Additional activities will occur outside the project's normal working hours but are timed to take place within planned track closures, as outlined below:

Location	Date and hours of work	Type of work
Spring Hill and Bowen Hills	Intermittently between 10:00pm and 6:00am throughout June 2021	<ul style="list-style-type: none"> • Concrete deliveries and pours • Installation of cable routes and pits within the rail corridor including pulling new cables in conduits • Track work and maintenance.
Exhibition station precinct Bowen Bridge Road, Spring Hill to Campbell Street, Bowen Hills	Intermittently between 2:00am Monday 7 June to 2:00am Sunday 13 June 2021	<ul style="list-style-type: none"> • Pier protection works for Bowen Bridge Road and O'Connell Terrace bridges • Construction for the new twin track bridge at Exhibition station • Rock cutting and retaining wall construction • Installation of mast foundations for overhead electrical lines • Rock cutting and removal adjacent to Exhibition station.

Construction activities being undertaken in the Exhibition station precinct

What to expect

During these works you may notice some intermittent disruptions such as:

- Light vehicles, trucks and machinery including excavators, mobile cranes, small power tools, drills, saws, minor vibrating equipment and mobile lighting towers to light the work areas at night
- Use of large machinery such as excavators with hydraulic hammers to remove rock and concrete structures at Exhibition station and load material into trucks for transport
- Changes around your local area such as construction vehicles, traffic management signs and personnel
- Intermittent closures of the pedestrian underpass beneath Exhibition station. Please follow the signage and directions of traffic control in the area
- Increased levels of noise, vibration and dust associated with the use of heavy machinery and equipment.

Exhibition station works including rock cutting and removal, public utility relocation and bridge piling are progressing well.
