July 2021

## Local trackside signalling work in July

Hitachi Rail is continuing construction work along the Shorncliffe Line to deliver Brisbane's new railway signalling system as part of the Cross River Rail Project.

### Details of work

During July, construction work will continue in the rail corridor at sites from **Northgate to North Boondall stations**.

The majority of the works will occur between **6:00am to 6:00pm, Monday to Friday**. Activities will include excavation, trenching, concreting, cabling works, and installing signalling equipment and equipment housing.

To facilitate works near **North Boondall station**, there will be changes to the station car park. See map overleaf and local signage for details.

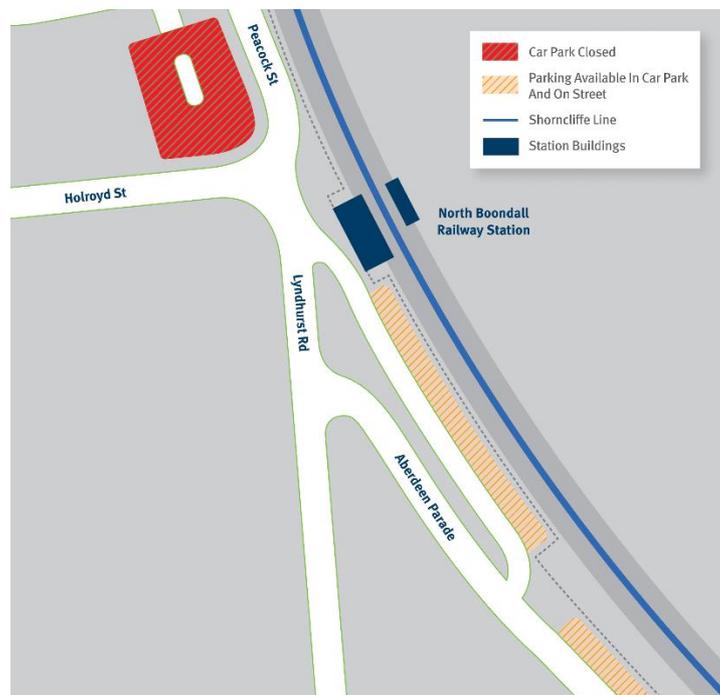

**Traffic control will also be in place periodically near North Boondall and Boondall stations** to direct vehicle, bicycle and pedestrian traffic. For day works from 8 - 9 July and 12 - 13 July, traffic control will be in place on Aberdeen Parade for a part closure of the road shoulder and footpath.

To ensure the safety of workers and the community, some activities will be **undertaken during track closures outside of normal construction hours**, weather permitting. These works are outlined in the table below.

Date and hours of work	Location	Type of work
Monday 5 July to Friday 9 July between 10.30pm and 4.00am	Between Nudgee and Boondall stations	Inspections and construction preparation Replace and repair rail side troughs
Tuesday 6 July to Thursday, 8 July between 10.00pm and 4.30am	Between Northgate and Banyo stations	Cable route installation
From 2.00am Saturday 10 July until 2.30am Monday 12 July 2021	Between Nudgee and Banyo stations – Nudgee station end	Pit and pipe work
	North Boondall station and between Nudgee and Boondall stations	Installation of axle counters on the railway and trackside equipment housing
	At North Boondall station (Deagon end)	Under track crossing (including excavation and directional drilling) *Full car park closure. Traffic control on bike path
	At North Boondall and Boondall stations	Works on station platform

Monday 19 July until Friday 23 July 2021 between 10.30pm and 4.00am	North Boondall station and between Nudgee and Boondall stations	Installing trackside equipment housing, track drilling and bonding  Repair and replace rail side troughs
From 2.00am Saturday 31 July until 2.30am Monday 2 August 2021	Nudgee and North Boondall stations	Radio mast and antenna installation
	From Boondall to Shorncliffe stations	Cable hauling and installation, and trackside equipment testing
	Between Nudgee and Boondall stations	Installing trackside equipment housing

### Changes to North Boondall Car Park, 10 – 12 July

### What to expect if you live alongside the rail corridor

Residents along the rail corridor may see and hear dust and noise associated with the use of machinery and equipment (including excavators, skid steer loaders, concrete trucks and pumps, and vacuum trucks), and mobile lighting towers in work areas during night works.

To minimise impacts: environmental controls will manage noise and dust (including noise minimisation practices after hours), lighting towers will be directed away from residential properties, where practical, and all workers will be briefed on key community and environmental considerations.

### What to expect if you're a rail customer

To undertake this work safely, some track closures will be necessary. Plan your journey by visiting [translink.com.au](http://translink.com.au), calling 13 12 30 or downloading the MyTransLink app.
