## Road closure – Adams and Smith streets Deagon

Hitachi Rail is continuing construction work along the Shorncliffe Line to deliver Brisbane’s new railway signalling system as part of the Cross River Rail Project.

### Details of work

Under road drilling to prepare for the installation of cabling will take place between **6am and 6pm Saturday 18 and Sunday 19 September 2021** near Deagon station.

### What to expect

Hold and release traffic control will guide motorists, pedestrians and cyclists around works in Adams Street between 6am and 6pm on both days. The station end of Smith Street will be closed during this time with local access provided.

The Adams Street end of the Deagon station car park will be closed from 6am Saturday 18 until 6pm Sunday 19 September 2021.

### What to expect if you live alongside the rail corridor

Residents along the rail corridor may experience an increase in dust and noise associated with the use of machinery and equipment, and increase in vehicle movements.

To minimise impacts, environmental controls will manage noise and dust, and all workers will be briefed on key community and environmental considerations.

### What to expect if you're a rail customer

Cross River Rail will transform how we travel to, from, and through Brisbane in the future. But building Cross River Rail means changes to travel and transport services during construction. **Plan your journey by downloading the MyTransLink app, visit [translink.com.au](https://translink.com.au), or call 13 12 30.**
