

Works Notice

October 2021

Exhibition station construction update

The new twin track rail bridge construction at Exhibition station is progressing, with six of the nine piers now complete. In October 2021, bridge works will continue, along with rock excavation near O'Connell Terrace to widen the existing rail corridor.

Details of work

The following activities are scheduled to occur between 6:30am and 6:30pm, Monday to Saturday during October 2021, weather and construction conditions permitting:

- Rock excavation and removal near O'Connell Terrace and adjacent to the existing Exhibition station
- Bridge pier and retaining wall structure construction near Exhibition station
- Earthworks for an electrical feeder station adjacent to Bowen Bridge Road
- Installation of mast foundations for overhead electrical lines, cable routes and pits within the rail corridor
- Piling, steel fixing and concrete works adjacent to Bowen Bridge Road and O'Connell Terrace bridges for ongoing pier protection works
- Surveying and investigating underground services, such as water, electricity and gas.

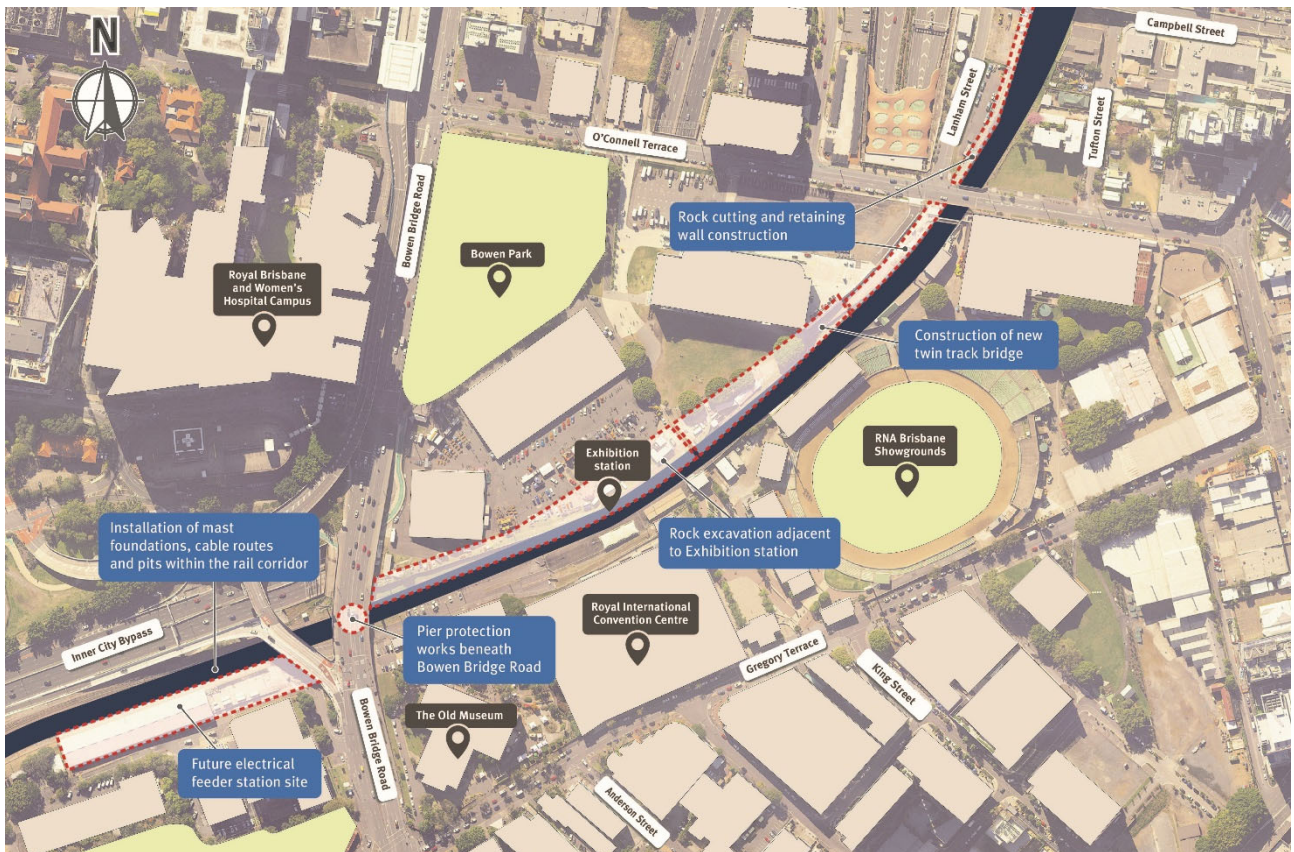

Out of hours work

Additional activities will occur outside the project's normal working hours but are timed to take place within planned track closures, as outlined below:

| Location | Date and hours of work | Type of work |
|--|--|---|
| Spring Hill and Bowen Hills | Intermittently between 6:00pm and 6:00am throughout October 2021 | <ul style="list-style-type: none"> • Concrete deliveries and pours • Installation of cable routes and pits within the rail corridor including pulling new cables in conduits • Track work and maintenance. |
| Exhibition station precinct Bowen Bridge Road, Spring Hill to Campbell Street, Bowen Hills | Intermittently between 2:00am Sunday 31 October to 2:00am Sunday 7 November 2021 | <ul style="list-style-type: none"> • Pier protection works for Bowen Bridge Road and O'Connell Terrace bridges • Construction of the new twin track bridge at Exhibition station • Rock cutting and retaining wall construction • Installation of mast foundations for overhead electrical lines • Trenching for signalling cable routes and pits • Track work and maintenance. |

Cross River Rail will transform the way we travel to, from, and through Brisbane in the future. But right now, construction means disruption to train services. Sign up to receive updates at our website and use the TransLink Journey Planner at translink.com.au, call 13 12 30 or download the MyTransLink app to plan your journey.

Construction activities being undertaken in the Exhibition station precinct in October 2021

What to expect

During these works you may notice some intermittent disruptions such as:

- Light vehicles, trucks and machinery including excavators, mobile cranes, small power tools, drills, saws, minor vibrating equipment and mobile lighting towers to light the work areas at night
- Use of large machinery such as excavators with hydraulic hammers to remove rock and concrete structures at Exhibition station and load material into trucks for transport
- Changes around your local area such as construction vehicles, traffic management signs and personnel
- Intermittent closures of the pedestrian underpass beneath Exhibition station. Please follow the signage and directions of traffic control in the area
- Increased levels of noise, vibration and dust associated with the use of heavy machinery and equipment.
